Protective Custody

Wynter Daniels

Protective Custody Wynter Daniels
Witness to a murder, but no one will believe her...

Shocked by the brutal crime she witnesses through the window of her small office, Megan Jackson calls the police and is devastated when they question the truth of her story. With no body and no evidence of a crime, she's written off as a nutcase.

Megan suspects the killer saw her face. Terrified, she calls the only person she can trust—her ex-boyfriend and former police officer, Will McCoy.

Despite a devastating breakup, Will jumps at the chance to help the woman who broke his heart. When the killer ramps up the stakes, Will is forced to take her into hiding—where the passion they once shared reignites, deeper and hotter than ever. But can Will keep Megan alive long enough to win back her heart?

Mary Catherine says

3.5 / 5 stars

One Halloween night, Megan Jackson stays late at work. As she closes down the realtor office, she sees what she believes is a murder of a young girl by a man whose face she can't see. For a split-second, the alleged murderer turns toward her office and Megan believes she's been seen. Moments later, she hears someone arriving and she runs – possibly for her life. When she calls the police, they brush off her concerns; after all, there's no body and no other witnesses.

Fearful, she then calls her ex-boyfriend, Will McCoy, a man she still loves despite the break-up six years prior. What unfolds throughout the story is a mix of thrilling suspense – packed with chases and underhanded dealings, controversial memories – Megan is the child of a black mother and a white father who left and Will is from a prominent white family, and connections between two people who are more confused about the situation than anything.

Wynter Daniels writes eloquently and descriptively, which is always a welcome read, especially in those catered to the sexier adult moments of life. The plot is decent and its execution is simple. There are no real mysteries regarding the characters after a few chapters, only niggling thoughts regarding them, some of which include whether or not Megan will ever make up her mind about Will when it's obvious she wants him more than anything.

I don't have many problems with this book though I wasn't entirely blown away by the story itself. What did bother me, however, were what I felt were unnecessary glimpses into the lives of the secondary characters. While I think some scenes were important to understand the psyches of the characters, it sometimes felt overdone and extraneous within the books. At times, I wasn't sure why I needed to read particular scenes; it almost felt like the author felt the need to throw in another sexual scene to reach a quota.

However, other than that, I would recommend PROTECTIVE CUSTODY to anyone who enjoys erotica with a touch of thrilling chase. There are certain scenes and conversations that lend themselves to the idea of racism but it shouldn't deter people from the book. Everything is written with care and in a way that the ideas are the result of times past. I don't think it's one of the best pieces of erotica out there (mostly due to the excess scenes) but I do enjoy that the plot includes something other than the building romance and manages to stay important throughout the length of the book. Many erotic works fall short with their focus only on sex but Daniels manages to give readers steamy scenes with a story that is both interesting and gripping.

PROTECTIVE CUSTODY has a do it or die feel – things are always seemingly precarious with the result wobbling between two choices. Just like the main characters, readers should jump in with both feet.

DivasoftheSerengeti_Lioness says

This was an excellent read full of passion, mystery, intrigue and overall sizzle. Megan and Will are a great couple. This read is well told with well-developed characters that are easy to relate to. I really became involved in the character interaction and once I started reading, couldn't put it down. I was up all night trying to finish this read. There were hot scenes, a very strong plot and the chemistry was off the charts. I highly recommend this book and any book by her.

Wynter Daniels has a unique writing style that includes books with awesome plot twists and compelling stories. A am a huge fan of the author and know that you would feel the same after reading her work.

Norma says

Definitely a fun, flirty erotic mystery! Wynter Daniels provided the right balance between suspenseful mystery and lustful naughtiness.

This was a very quick read that I didn't want to put down. Both because I wanted to find out what would happen next between Will and Megan, but also because I wanted to find out how the whole murder situation was going to play out.

So if you like mysteries with adult situations added to spice them up, then you will love this one.

Pamela(AllHoney) says

A spicy read with a lot of focus on the spice. But there is still a story told and it was pretty good. Megan witnesses a murder which the police don't believe because it's Halloween and there is no body. So she calls her ex-boyfriend, Will, who rushes over to protect her. Megan is black and Will is white and while neither of them cared, their families are another matter. I would have liked to see a little more focus on the relationship development but it was good and flowed nicely.

REVIEW

I totally loved this book.
Adult 18+ Readers !!!

We have Megan and Will. These two people dated for a long time and Will got his heart totally broken by Megan and had no idea of the real reasons why Megan up and dumped him. Megan witnesses a murder and no one in the town believes her even the cops think she is crazy or seeing things. She calls Will she thinks he is still a cop and knows he will help her. Well they get led on one HELL of a ride. This story takes us on so many thrilling action packed scenes. Megan also realizes she still loves Will very much and finally tells the truth about why she walked out of his life. Can this couple over come the many obstacles ahead of them? They have to overcome not just a Murderer but Racist family members as well. Can Will be the one to save Megan and himself?

Hot , Steamy, Passion and Total Suspense !!!

Protective Custody is a very exhilarating adult fiction. I like how the fact the mystery that's engulfing the female character serves to not only bring more tension in the story, but also to serve as a form of exhilaration.

Protective Custody starts off with the main female character witnessing a murder and nobody seems to believe what she had said. She then calls up her ex for protection and things started to get much, much better.

I enjoyed reading this story very much. Despite of it being an adult fiction; an erotica, it's not trashy at all. If only all other erotica are like this, I believe the believe the genre would not be marked as trashy.

I rate this book 4 out of 5 stars. I received an ARC of this book from Carina Press via Netgalley. I was not compensated in any ways for writing this review.

Jhenn says

Loved this book, though there were elements of the plot that bothered me (i.e. the cliched "we don't want you in our family because you're too brown" issues his family had with their relationship and the "I don't like you because her white daddy ran off after getting her mother pregnant" issues that her grandmother had about him). However, overall the book was great. It was definitely not something that I've read before and the twist about 75% of the way through killed me.

I didn't want it to happen, but I knew it was coming. I actually liked the character and was sad when his end came the way that it did.

Maureen Miller says

Ms. Daniels infused the perfect amount of suspense and "heat" in this novel to keep both my need for romance and danger equally fulfilled. What I found as a delightful surprise was the storyline of the secondary characters. That sub plot kept me as riveted as the primary tale. I also identified with the character, Megan, who toiled between her feelings for Will and her loyalty to her grandmother. A well-written story that I would recommend.

Lourdes Aguirre says

While closing down her office after a late client meeting, Meagan witnesses a murder across the street. When the police won't believe her she calls on her ex boyfriend, Will. He is former cop turned private eye and the man who's heart she broke.

The suspense and intrigue make the sexual tension between these two super hot. Great story, super sexy scenes. One of my favorite Wynter Daniels books.

Betty says

Megan Jackson, is a successful business woman who witnesses a murder on Halloween. The murderer saw her watching him and knows she has witnessed it. The police find no body or evidence so they assume it was a Halloween prank. The murderer is now terrorizing her, so she turns to the only person she trusts. Her ex-boyfriend Will McCoy, who she is still in love with, and who is an ex-cop and now works for a Security firm. Since they are an interracial couple, there was disapproval from both families (Will didn't know his mother told Megan the relationship wouldn't work, and so did Megan's grandmother who raised her, and that she should leave Will. Megan broke up the relationship.

Will McCoy is still in love with Megan and believes her about the murder. He agrees to help her. Between the two of them will they find the answers to the murder and find out who the murderer is? Against all odds will their rekindled romance survive this time? There's hot steamy sex, action and plot twists that keep you guessing. A great story and has you engrossed from the beginning to the end. A must read and I'm so glad I did.

Hasien says

I enjoyed this story. I love a good mystery so this was nice.

Erin says

Warning: This is a read for a cold winter night!!! The writing and chemistry in Protective Custody will have readers blazing with carnal need!!! If read during the hot summer months, this book could result in readers spontaneously combusting!!!!

It's Halloween and Megan just finished a long day at work. Eager to leave her office, grab a bite to eat and head home, she begins to close up shop for the night. As she reaches for her office window blinds, she catches sight of a brutal murder. She stands in frozen shock until she hears heavy footfalls entering her office. Jump started into action, Megan flees her office and escapes into the night...

As soon as she's able, she phones the police to report the crime. The police dutifully answer the call, but can find no evidence that a crime was committed: no body, no forced entry, no witnesses other than Megan. Ultimately, her claims are dismissed and Megan finds herself alone and scared with a feeling that this nightmare is far from over.

In her desperate time, Megan reaches out to Will, her ex-boyfriend who happens to be a detective in the sheriff's office. The sparks soon fly and both Megan and Will try everything to keep one another safe - safe from the murderer and safe from each other. How will it all end? Is there hope for the murderer to be brought to justice? Is there any hope of a future for Will and Megan? You'll just have to read to find out...

The absolute gem of this book? The prose. Ms. Daniels has a superb gift for words; her carefully crafted selections pump life into the lyrics! I cannot bring justice to the beautiful verses on my own, so I here are a few delectable excerpts:

"A sickening chill slithered down her spine"

"The area was as silent as a secret."

"Memories climbed into the cab and settled in."

"His every touch felt warmer than the sun's kiss."

"A tsunami of yearning flooded her veins."

Overall - three and a half stars.

My scoring for Protective Custody:

Story line/Plot - 3 stars

Action - 3 stars

Writing/Prose - 5 stars

Chemistry between Megan and Will - 4 stars

The sex/love scenes - 5 stars between Megan and Will, 3 stars for secondary characters
Secondary or supporting characters (and their sub or side stories) - 2 stars

Judith says

A romantic read from Carina Press that will warm your heart and massage your libido, while keeping your interest with the tense action resulting from Megan seeing the man who killed a woman in an empty building across from her real estate office. That she didn't see his face was beside the point. She was marked for death, and she called upon her former lover to protect her. She had broken up with him in a way that hurt so terribly, for reasons she really didn't fully disclose, and his love for her had never waned. It is an interracial romance and is filled with warm and caring loving. There are also some twists and turns that are surprising and keep the reader's interest from start to finish. There is a point at which I am just a little irritated with Megan--when can she stand on her own two feet and be willing to go up against the prejudice of her family and that of her lover's? That, of course, is the core question that drives their relationship. Just a really nice read.
