The Emperor's New Nightingale

Angela Castle

The Emperor's New Nightingale Angela Castle

On the planet Ario within the Four Galaxies of Harmony. Peace is kept by a special Song Krystal. Once each life time the Emperor seeks a new nightingale – One pure voice, who makes the Krystal shine, keeping the peace among the stars.

When full figured Julie is kidnapped from Earth, she is whisked away to sing before the Emperor, but when she escapes, she finds herself on an alien world, ruled by music. She wanders into a Song Tavern and finds friendship and employment.

Orin, Emperor of Ario in disguise, visits his friends Song Tavern. The moment he meets Julie and hears her sing, he knows she is his nightingale.

As their passion grows, the forces of evil are working to drive them apart and bring darkness to the galaxy. When Julie uncovers the plot to destroy the Krystal, she must race against time to save the galaxy and her Emperor or lose them both forever.

Nenya says

not a bad book. but... the H was, at one point, saying he will give up the kingdom for the h, and the next moment, when the low-selfesteemed h trots out a line about the kingdom needing him or whatever, he decides to marry the (fake) nightingale who made the (fake) rock change color.

seriously? if he was that duty conscious, he should've kept his dick in his pants while waiting for his empress. be consistent in character. unless of course, this was his character; to have the best of all worlds...

Claudia says

I liked it and I didn't. a 2.5 stars story.

Mixed love here. The storyline sounded interesting enough I just couldn't bring myself to love much the characters.

An interesting idea about a world of music where the balance is kept through a song. So, the heroine is abducted, escapes and starts working in a tavern. She was abducted because of her voice/ potential to be the New Nightingale of the Emperor.

While she is attending to the tables she sings and that attracts the disguised Emperor to her. As usual with Angela Castle stories, there is an insta-love/ lust but soon all disappears because there is a New Nightingale.

Now here is the time when, cue "eye rolling" the Emperor just gives up on his love and gets attached to the new nightingale to the point of marriage. That got me say "really?" and lose interest.

The writing was ok but the way everything resolved left me puzzled and confused. The HEA did nothing to squeeze a higher rating from me and there are not so many good things to say about the plot.

I liked the idea that sparked the book but the delivery failed to impress me.

Would I read another book if this becomes a series? I am not that sure. Can I recommend the story? Well, if you are looking to pass your time and have no other books in your library, why not.

Mari (Smut Duchess) says

2.5

Nancy says

Orin knows what he wants and is not afraid to go for it. Julie takes a journey she never anticipated, in more ways than one. Sweet and sexy.

C.J. says

Good, sexy story but predictable. Still, a pleasant read with interesting characters.

ASIN: B00F267KUK
Print Length: 121 pages

Good story with likeable H/h. I liked it enough for a 3 rating. Needs a new proof-reader, though.

Dawna says

Completely original story idea. It was funny, attention grabbing, and a HEA ending.

Carol says

This is pretty much what I've come to expect from this author. It was short but well written and a good read. I really do enjoy Angela Castle's books but I wish they were a little bit longer. I finished this book in a single sitting which is always a little disappointing. The book isn't expensive so I don't feel ripped off. It's just like the difference between a tiny little sliver of chocolate cake and a whole whopping great cake. I'd rather pay a little more and get a little more.

As usual, the characters were easy to like, the writing flowed easily, and the story was a good one. I enjoyed the story and I'd love to read something a little longer from this author.

Elisa says

I quite enjoyed this lighthearted, sweet little novella. I finished it off this morning in one sitting. I liked the world the heroine was abducted to. I found it lovely thinking about a world that revolved around music. I liked the characters in the story enough that I would like to read more about them.

The heroine becomes friends with the owner of the song tavern she ends up working in and I can quite easily see a book being built around him. He seems like he has quite an interesting back story that was merely hinted at here and I think it could be delved into and expanded into a full length book that would be a prequel to this story and yet continue on after this story ends.

The story is short enough that there was 'insta' love between the hero and heroine because there wasn't time for anything else. Angela sure did pack a lot of excitement into this little gem and I'm left looking forward to reading more. I recommend this story to anyone who likes light sci-fi and a bit of 'afternoon delight'.

Julie Beasley says

I really enjoyed this lovely exciting novella. Well done Angela Castle for making the heroine so sweet and exciting with wonderful hero and sensual love scenes. I hope we see more of the characters and their marvellous friends and the planet youve created

Jackie Moore says

I liked this book. It had a good story line and interesting characters. The only reason I gave it 4 stars instead of 5 was because I felt like the book could have been longer. But I would totally read another book if the author wrote another one.
