Charlie's Angel Shauna Allen

Charlie's back!

Miserable and unsettled in his predictable, suit-and-tie existence, Charles Benson, Jr. is finally waking up and realizing a few things.

He hates his life.

But instead of a change, he finds himself thrust deeper into the same ol', same ol', only worse.

Or is it?

Kami Monroe.

Tattooed. Pierced. Outspoken. Fiercely sexy.

Jaded after being burned by an unreliable dreamer, she rolls her eyes at Charles's uptight monkey suits and Polo shirts, even as she secretly craves the stability he represents . . . not to mention the unexplainable and explosive chemistry sizzling between them.

There's only one thing stopping them. Each other.

Second chances . . .

Add to the mix an angel getting one last shot at Love Detail before moving up the ranks, and you could have a match made in Heaven . . . if they'd just get the hell out of the way.

I just love the angels. This time it is Gabriel that comes to help out. He is a bit rusty since has hasn't done this time of work in awhile. Kami is a tattoo artist and Charles is the account her friend recommends her to use for her IRS audit. They are complete opposites but they are attracted to each other. Gabriel, the angel keeps trying to bring them together but than things keep getting in the way. Will Gabriel be able to bring the two of them together? Read the book today to find out.

Shauna Allen has done it again! She has done a wonderful job putting together angels, a Love Detail, sexual attraction between two people who are the opposite of each other. He wears a suit and she wears tattoos. We first meet Charles in Inked by an Angel and then we really get to know him in this story. Kami comes along and together they prove opposites do attract! This is the 4th in a series and can be read as a stand alone but the entire series is just too good to past up. So not only grab this one but all the Cupid Chronicles. You'll fall in love not only with the H&H but you'll love the angels on the Love Detail that help them out!

Donna Flint says

Charlie has come a long way from his stuffed shirt, accountant persona to find his bliss in horticulture. And with the help of an interfering angel, he has found his soul mate in a sassy tattoo artist who has some ghosts in her past and is raising her smart mouth but sweet little sister.

The round about way they finally decide what they want is entertaining, and once they get their heads on straight, will they find true love?

SUCH a good series. I love the Cupid Chronicles books. Keep writing, Shauna Allen. You make me smile.

Love this series

This is such a great series. The stories are heartwarming and make you just feel good. I can not wait for the next one. Hope it comes out soon. Will be looking for more from this author.

I just finished reading Charlie's Angel, and I loved it! Once again, Shauna Allen has created a story that moved me emotionally. Her characters are believable, and I care what happens to them. I can actually imagine myself feeling what they must be feeling. I didn't particularly like Charles in Inked by an Angel, but

he did do the right thing by Kyle eventually. He turned out to be a good guy, and I'm happy about that. I love the wit that flies between him and Kami and the whole idea that there are angels in our lives that sometimes give us a little nudge in the right direction. This book will definitely be added to my favorites.

Every body needs a guardian angel

This book is awesome, A man confined by social expectations and bored with the daily grind of living for everyone else. Gets some help from higher up. I plan to read the series. But would love to see longer story lines. Totally loved the characters.

I received an ARC from the author in exchange for an honest review.

I don't normally like reading novellas since they tend to feel like you are reading an almost entirely different series, but this was great! It felt like the author wrote it at the same time as the other novels and just happened to cut these scenes out since they didn't really work with the other book(s).

I felt horrible for Charles after what happened to him in *Inked by an Angel*, he did mostly bring it on himself, but he wasn't being a complete jerk, it just wasn't meant to be with Kyle, she definitely belongs with Jed.

Kami definitely deserves a man like Charles after all she's been through and the sacrifices she had to make. They make a great couple.

It was great to see Gabriel in action he definitely deserved one last chance to make love happen before his promotion. Although if this series continues as long as I hope (fingers crossed) maybe we'll see him matchmaking again with Kami and Charles' children, since that will be his right. :)

Great story. Highly recommended.

In *Charlie's Angel: A Cupid Chronicle's Novella* by Shauna Allen, Gabriel is playing Cupid one last time...

Charlie is feeling the pressure of working in a job he is not at all happy in, tired of always trying to do what is expected of him, not what he wants. He has dreams that do not include being stuffed into a suit and sitting behind a desk, dreams that were also lonely until Kami came along and rocked his world!

Kami is an unlikely match for Charlie...she's a tattoo artist, doesn't pretend to be someone she's not, and is definitely not looking for love again...she's been there before and been hurt by love before.

With Gabriel's help will this be a match made in heaven or are their differences too vast to bridge? Will either of them take another chance on love?

Charlie's Angel is an engrossing, fast paced novella with characters you will quickly relate to and love! Charlie is at a turning point in his life, and I really hoped he'd find the courage to move in another direction. He's not as stuffy as he might first seem, and Shauna's descriptions of Charlie sure bring him to life...every hot muscle! Kami sees beneath the suit Charlie wears and is a heroine who will really make you feel for her. Her past has made her somewhat relationship shy, and the two of them are really making Gabriel work!

The secondary characters in Charlie's Angel were important to the story, but they weren't overpowering so you know it's just Kami and Charlie's story. Gabriel is of course a strong part of Charlie's Angel and I really enjoyed his point of views, trying to relate to humans!

There is a lot of chemistry between Charlie and Kami, and Shauna writes this into the plot so well...not overly explicit because in this story it doesn't have to be, but it's definitely there! I liked how she did this, tastefully weaving together spirituality and love.

The length of Charlie's Angel was perfect for the story to be told, I felt that the pace was just right to get to know Charlie and Kami.

Charlie's Angel is part of a series, but I believe that it stands alone very well too. I'd recommend Charlie's Angels to any romance reader who wants to see Cupid in action!

This is the fourth book in the Cupid Chronicles series, although you can read it as a stand-alone. We met Charles in *Inked by an Angel*. Now he's back and finding his way. He meets Kami at his job. Charles and Kami appear to be opposites, Charles in his suit and Kami with her tattoos. Little did they know there was an angel working Love Detail, helping them along the way. I enjoyed watching Charles and Kami circle each other, with a lot of fun banter between them. It was easy to root for this couple. And I absolutely loved the ending! I was so engrossed in this story and didn't want it to end.

Pleasant book

not overly dramatic but all in all a very pleasant story. it plays on how we jump to conclusions about people who appear to be different. when you take a closer look at them, on the inside, they are not any different than anyone else. I was very happy for the characters in this book.

I won this book in a giveaway contest and wasn't sure what to expect especially since I haven't read any of the previous books in the Cupid Chronicles series, and WOW was I pleased!! CHARLIE'S ANGEL was an excellent story. I knew from the first chapter I was not going to be able to put it down and I was right. Shauna Allen has a fluent writing style that is polished and easy to read. I loved Charles and Kami's story

and can't wait to pick up the first books in the series because I've obviously been missing out!

Kami, is a young, sassy, fiercely independent, beautiful tattoo artist who works for Jed and Kyle. She says what she thinks and does what she wants. I love her! She has taken on raising her thirteen year old sister alone, so you know she has a heart of gold buried and waiting for just the right man. She has learned to protect her heart after having a bad experience with love so she's a bit jaded. Which means she is done with bad boys, flakes, and men who can't hold down a job. She needs stability. She needs someone she can count on in the long haul. Charles is the right man, even if he looks like an uptight suit (not her usual type)he sends Kami's body into overdrive.

Handsome, sexy, charming, "perfect" Charles comes from a country club family. He is vice president of an accounting firm and has lived his life according to what was expected of him. And he is sick of it all. He is ready to break free and live life on his own terms instead of being locked inside the box. He's ready to get out of his suits and get his hands dirty! He sees Kami for the first time when she attends his boss's retirement dinner and she just from the eye contact she has him intrigued. She's not like any woman he's ever dated before and it's not just her hot tattoos, but she gets his motor running and he wants more. With a little (unknown) help from his own personal Cupid, he gets the perfect opportunity to spend more time with Kami and get to know her. Time to get past all her prickles.

Charles and Kami may look like total opposites, but they are perfect for each other. Their journey to love was a joy to read as they get to know each other. Plenty of witty banter, tender moments and sexy times! Props to Charles for not being shy about going after what he wanted on his own terms. Once he made up his mind there was no hesitation in him and I found that very sexy. Kami's little sister is a kick. Just like her sister she says what she thinks and she brightened all the scenes she was in. Charles and Kami are definitely a match made in heaven! Don't miss this book! 4.5 stars

Loved this book! Stayed up late and read it in one sitting. I couldn't stand Charles in Inked by an Angel, but Shauna made me love him in this story. From page one, you could feel his emotion and really connect with him. Loved how he gradually let go of society expectations and started living for himself. As for Kami, loved her too! She was sassy and sweet. I really liked that she was direct and forthcoming with her feelings. I hate it when the lead characters endlessly agonize over their feelings. That didn't happen here! I also enjoyed touching base with characters from previous books. I still love Jed & Kyle, but Charles & Kami are right up there with them as my favorites of the series now. Looking forward to Tristan, but am also curious about Genesis, and, maybe Matthew. Hint, hint Shauna!

I received an ARC of this book in exchange for an honest review.

Talk about a red hot story, well I didn't know good ole Charlie had it in him! But he finally found Ms Right! And he finally found his true self and what he wanted to do with himself. I can't say enough about Shauna Allen's talent. I love to read about the angels bringing lovers together for a happily ever after. A novella is a shorter story then a fully fleshed out book, but Charlie apparently wanted his story told and I'm so glad

Shauna penned it. He wasn't my favorite character in Inked By an Angel, but he came to life in Charlie's Angel. I was worried that he may be bald by the time Kami had pulled through his hair several times! (Not really).

Allen writes with humor and love and I believe she is every bit as smitten with her characters as I am. I just can't get enough of the lovefest in the Cupid Chronicles! Keep them coming please!

Lisa says

I love this book! Charlie is my new book boyfriend! Kami and Charlie's story is a beautiful story and I love them together! I don't know how Shauna does it, but she mixes angels, God, love and sexiness and tattoos together and its so perfect!

Linda Rimer-Como says

Absolutely loved this book, It is well written and the characters incredibly realistic. Charles is an unhappy suit and tie man; Kami, a jaded outspoken spitfire; Gabriel, an angel. Shauna Allen can take angels, tattoos, love and sexual attraction, mix it all together and produce sheer magic in her books!
