Distant Desires: Part Two Cambria Hebert

This is PART TWO of the Distant Desires serial series.

An erotic tale from beyond the stars

Sophie Perez has never believed the stuff she reads online about possible life in space. Aliens are for the movies, for the weirdoes, and they most definitely are not real.

One night on the way home from a late shift at work, her car breaks down. Stranded on the side of a country road, with a dead cell phone, doesn't seem like that big of a deal.

Until strange neon lights appear in the sky. She thinks it is her imagination.

When an inexplicable circular ship appears overhead, she can't deny what's clearly right in front of her.

Especially when moments later, she's taken onto the ship, a human hostage among those who are most definitely not human.

About to become a human guinea pig, possibly worse, the last thing she ever expects is to like the things these otherworldly beings subject her to. In fact, it is unlike anything she's ever experienced.

Will Sophie find her way back to her planet, or will she beg to stay where her pleasure is literally out of this world?

4.7 Star Review – Distant Desires part 2

I recommend this book.

Sophie is with child.

As this little development sends her reeling we have to wonder what will the baby look like?

Tarek explains that his people are no longer bearing children so he inseminated Sophie to see if it would take.

Sophie is freaking out.

Then he states he will come for the child.

Weird things start happening and soon Tarek is back and doing things that Sophie is not happy about

When Tarek is called back to his ship Sophie wonders if he will ever be back.

I can't wait for the next installment of this series.

WOW!! I loved this book!!

I really, really liked book one, but book two I LOVED!! I love the way Cambria describes everything in her books, the way people look, the surroundings, people's feelings, she has a way with words that makes you conned to every single character and transport you to whatever place she is describing. Is as if you were there with them, seeing what they are seeing, feeling what they are feeling, it's an absolute joy to read her books.

The end of book one left us all with our mouths hanging open and asking WTH just happened. Book two picks up right after that shocking ending, we get much needed answers, sort of, I still have my doubts about Tarek's motives, but I guess we'll have to wait till next book to find out. In this book we get a lot of emotion, and feelings from both Sophie and Tarek, and a lot of interaction between them. And hot steamy scenes between them too. Be aware, you might need a fan and cold water whilst reading some parts. We also get more Matt in this one, he expresses his intentions to Sophie. I have to say I feel torn about Matt, about his feelings toward Sophie, and I also feel torn cause I really like him, it's like choosing between two good books, it's just not fair!!

When I got to the last page I thought I was going to die, I was left wanting more, I felt like screaming, I wanted to reach into my kindle and try to get more, lol, it's the only way I can describe it. This series it's getting better and better and I can't recommend it enough. I can't wait to see what happens next!! Now stop reading this and go one click this baby!! <3

This is not a standalone. You need to read book 1.

In this book Sophie has to decide how to conceal her pregnancy until she can explain it to everyone. She deals with it the best she can because Tarek is not there. Matt is there for her and this evokes some emotion within Tarek who decides to come be with Sophia.

The best part of this book is how Sophie comes to the realization she is going to be a mother and how Tarek deals with the fact he can feel emotion.

Another great book by a great author. This does end in a cliffhanger and I can't wait for the next one.

I received this book as a gift from the author in exchange for my honest review.

OHEMMGEEEE!!! Cambria sure know how to pull the strings on her readers to get them and keep them begging for more!!! You will get mad, you will get sad, you will feel experience everything that the characters are experiencing!!! Tarek is hard to read.....he keeps to himself and doesn't explain his feelings much!!! You really do want to scream and shake him at times, but at other times you are thinking of other things you'd like to do..... Lol

Cambria makes the BEST book boyfriends!!! It doesn't even matter what species they are anymore!!! Lol I can't wait to read the final book of Distant Desires!!! Don't question yourself to read it, JUST READ IT!!! You will be happy you did!!!

Stars: 3.5

Overall: This story picks up where the last one left off. Sophie finds out that she is pregnant and Tarek tells her that his planet is dying and that is why he beamed her up for the experiment. At first Sophie is scared and confused because that's not the kind of experimenting she thought was happening and then Tarek throws a bomb on her that he is leaving for 7 months, until the baby is born. After this point Sophie tries to make sense of what is happening and half way through the book Tarek finally makes his intentions known and their feelings start to become real to each other. The book ends with a kind of happy note and Tarek and Sophie finally becoming a family.

Pros: I liked seeing the change in Tarek and finding out more about his history and where he was from. I really liked that once he started getting close with Sophie he changed Matt's memories so that he would stop

being jealous and Sophie would be just his.

Cons: I personally didn't have any cons with this part of the story.

When we left Sophie, she was reeling from learning the news that she was pregnant. I don't know about you, but my jaw was hanging open and instead of making actual words, all I could bring myself to do was whimper a little. I was in shock. But the very best kind of shock because only the very best authors pull off a story like this.

There's no way a story that involves a small town girl being abducted by an alien and subsequently knocked up should work. There's no way that a believable romance should bloom between these two characters that are not only of completely different personalities, but different species. None of it should work. But it does. Gorgeously so.

I love Sophie's sassy personality. I love that she won't give up who she is in the face of something so huge and life changing. I love that even through she's staring down so much craziness that she's not a big drama girl, whining, "Why me?!?" and freaking out about her situation. She keeps going to work. She keeps asking questions. She laughs and indulges in French fries with too much ketchup. She's sweet and authentic and I adore her.

Tarek is mysterious and smart and all of the other things you would expect a man chosen as a scout-slash-ambassador for his people. He's formal and proper and intensely focused only on the task at hand, regardless of what consequences may result. But he's also tender, loving and hot as hell. And he's quickly falling head over heels in love with Sophie.

We watch Tarek go from a shadow in a silver hood bringing Sophie nothing but unanswered questions and orgasms to a fully realized man with a huge personality that just keeps getting bigger the more we get to know him. Tarek and Sophie's interactions lace the story through with humor, suspense and unbelievably sexy scenes that bring wonderful balance to the overall story.

Cambria Hebert continues to do what she shouldn't be able to: make sci-fi erotica work. And not only does it work, but it's amazing, so much fun to read and I'm fully invested in these characters. The writing is smooth and flow is flawless. This story is brilliantly written and crafted with the kind of attention to detail that just sweeps me off my feet.

Part 3 cannot come soon enough!

I was really excited to read this serial because of where the last serial left it at! It was quite the cliff-hanger and I couldn't wait to see how the main character was going to react! I have to admit that it did take me a while to get round to reading this serial, but once I did, I couldn't put it down! It does kinda help that they're pretty short lol! The plot of this novella was even better than the plot of the first novella! There were a few more hot, sexy scenes, which I loved, and the overall plot was developed on brilliantly from the first serial! It also went at a really good pace and I was always desperate to read on and find out what was going to happen next! I couldn't put it down either! I can't wait to find out how everything's going to conclude in the final serial in this series! I hope it goes the way I'm thinking it will! The characters were again amazing! Sophie in this novella had to try and come to terms with what she was told at the end of the first novella! To be honest, Sophie did freak out, but then she sort of came to terms with how her future was going to change! I must admit that I would probably have freaked out more than what Sophie did, but I guess we all react differently in different situations! I loved Sophie in this serial though! She proved that she was strong and I loved that she stood up to her love interest! She was also such a normal, regular person, which helped me connect with her more! Tarek was again the love interest of Sophie! You get to find out more about Tarek in this serial, which I was hoping would happen! You also see that he has more than a slight jealous side to him lol! I loved this because it showed a bit of a more human side to Tarek! It showed that he wasn't all alien and that spending time with Sophie was bringing out a more human side to him! I loved seeing this because Tarek acted quite different and it was a good different! I also overall loved Tarek more in this serial than what I did in the first serial too! I can't wait to read the final conclusion to this serial series! The ending of this serial didn't leave it at a cliff-hanger that will leave you desperate for the next serial, but it left it at a satisfying ending that will make you want to find out what's going to happen next! Again, the cover for this serial is perfect for it! I love that the author went with the option of keeping the exact same cover for the series! I mean, the guy on the front suits the character of Tarek perfectly! Big thank you to Cambria for a copy of Distant Desires: Part Two and to Enticing Journey Book Promotions for having me on the Blog Tour!

REVIEW FOR ALL THREE BOOKS IS THE SAME

On the way home from a night shift, Sophie's truck stops dead. Her phone won't work either. Overhead, lights in the sky show a round shape, much like a flying saucer. Next thing, Sophie is part of an experiment, about touch. Then it's all gone, and she is left wondering. A second visit from her alien suitor results in a far more life-changing experiment, and Sophie is left to learn, that all alien experiments are bad.

Published originally as 3 short parts, this is the combined edition. And a darn good read it was too! Sophie finds herself as part of an intergalactic planet-saving plot. Sapiens have been hovering from some time over Earth, and believe that they can use Earth women for their own use. They do not touch, or feel. Sophie's alien, Tarek, finds himself drawn to Sophie in a way he never thought possible, and after spending real time, on Earth, with Sophie, he knows where he wants to be.

I did think, for a while, that Matt, Sophie's friend, and Tarek were one and the same, it seemed to be going down that line, but happily, they weren't! Matt's feelings for Sophie seem to come out of nowhere, when he thinks she is seeing someone, and she is somewhat thrown by him, and Tarek's reaction to Matt is priceless, truly! I loved the interaction between Sophie and Tarek at the beginning, while he was experimenting. And when he let Sophie return the favour. Some super hot scenes, very well written, with the alien/sci-fi added it,

makes it a very, VERY enjoyable read.

Its written from Sohpie's point of view, and usually I would ask to have heard from Tarek too. But somehow, I didnt miss hearing from, at all! Very odd, for me!

As Sophie learns the truth about what the other Sapiens have planned, she fights her corner, as does Tarek. And the intergalatic planet saving plot doesnt turn out just how the Sapiens want it do, BUT there is a happy ever after for Sophie and Tarek. I do wonder, if there is also a story for Matt and Teagan, the other Sapien who comes to see the plot to the end. Some interesting lines from those two, and I would love to hear their story, if there is one!

OMG! I think I'm in love with an alien.

SPOILERS

On this part we continue where we left of in part one, there were no holes or anything, you read exactly what happened after Tarek tells Sophie she is pregnant. Of course with that cliffy and shock from part one you just need to know what is going to happen. On this part we get to know more about Tarek and we get to see a different side of him, one that he did not show in part one. There are more emotions on this part of the story and you sometimes will get mad or sad and plenty of happy. I was a little sad about Matt, he seems to be a good guy and the author really wrote a great character because I was falling in love with him too, in fact I would love a story with Matt and maybe a female Sapien (that would be nice)

This part also ended up in a cliffy but not as bad as the one from part one, you do feel like you need to read part 3 right away so that you can see what will happen and if and when Tarek will come back. I am also very curious about the baby and cannot wait to read the conclusion to this super awesome story.

Amazing as usual. We follow along the path further with Sophie's pregnancy and her acceptance of it. We find that this pregnancy and her connection with Tarek is not only felt by her but not Tarek as well. This time she isn't just within his little part of the world,his hovercraft...but he becomes more involved in her's. Showing also his need to be the only male within her life and his possessive side. That this child within her womb is his alone,no one else is allowed to be the father. We learn now that Tarek has been there on and off even when she thought he was gone. Tarek and Sophie claim eachother as we move further down the path with them. We also find that at the end,we are left with Tarek being summoned by his own kind,Sapiens, and Matt again at the door step,soon to see she is pregnant. Can't wait to see how the next installment brings!!

Please note: this novella is being sold as a complete novel despite the collected version not being on Goodreads. This review is of all three novella's so it might be spoilerish

This book was a surprise for me. It came up as a recommended read by Amazon and as it was in the KindleUnlimited section (free for me as a subscriber), I wasn't expecting much as most sci-fi erotica in this section are not great reads. This was a really good read for me as it was hot, I connected with the characters and I teared up a bit which is always a good sign for me:)

Quick Rundown: Chick gets abducted in a traditionally hokey way on her way home one night to be "studied" in a sexy way by aliens. After repeated abductions and releases, Chick becomes attached to alien Dude and we get a complete story about two very different people coming together and the obstacles they face.

Plot: Okay, at first I thought this was just a collection of porn scenes with a really lose plot-- it just reads that way. But, to my surprise, a plot unfolds that made this quite an enjoyable read. The trials the characters have to go through are fairly well veiled. One knows who is going to cause trouble but is left to wonder to what extent. It was predictable for the most part but it wasn't delivered in a dumb way. I never rolled my eyes which for me, means that I bought into it, hook, line and sinker.

Characters: Again, surprisingly, I was drawn into these characters. The chick is truly an everyday kind of girl. She didn't do anything extraordinary. She never came off as a cliché; she was real. The Dude was less surprising but I got a really good sense of how his mindset was completely different from the Chick's. The two getting together was interesting in that they had to learn to keep each other's different perspective in mind. While at times, i was wishing for them to communicate better, I realized that lack of communication was needed for the plot so I didn't get annoyed by it. Secondary characters were a little more than they first seemed but completely believable and sometimes scary.

Overall: I've read other books by this author (her new adult ones) and I was not that impressed- they were bland cookie cutter. This was quite different from any of those. Not only was it a different genre, it was better thought out. It was very steamy and had me on the edge of my seat. Add my tears on the end of that and we get a thumbs up from me.

I really loved part 2.

In this part of the story we find Sophie's pregnancy moving along. She still hasn't told anyone she is pregnant & is feeling a little fragile. We also get to learn a lot more about Tarek & what makes him tick.

It feels that Cambria has settled into this part more & brings the characters personalities out, so we really get to know them.

This was way better than part 1, even more sexy & I am so looking forward to part 3

Jennifer Treviño says

WOW!! For the paranormal & sci-fi romantics...this series seriously just keeps getting better & better which leaves me confident in believing Part 3 will blast us out of this universe! I appreciate that Part 2 picks up right where Part 1 left us, so we never miss a beat. And while I really enjoyed the 1st book I have to say the 2nd is just so much more!! The characters have developed quickly while the story unveils it's mysteries. I am totally smitten by Tarek, & must have more!

Cambria's making it extremely difficult to decide on one book boyfriend since every series she finds a new way to woo us! On to Part 3!!! :D

Roxanne Kade says

I must admit that when I read Part One of this series I was disappointed. There wasn't enough emotion and the sexual encounters Sophie experienced were very clinical. I realize that in a way they were meant to be, but I didn't in any way connect with the pleasure and feelings she was feeling. I am, however, extremely happy that I chose to continue reading the rest of this series, because the story came to life and suddenly there was plenty of emotion and although, for me, the chemistry between Sophie and Tarek was not explosive, there were a few moments that set my Kindle of fire.

What I really enjoyed was how their relationship developed. Sophie was inexplicably drawn to Tarek and I often had to wonder if it had something to do with him being this super being or if she really was so in love with him. Tarek on the other hand was such a mystery, and I liked seeing the changes in him, no matter how small. He was kinda cold and uncaring but he turned into a wonderful, warm, caring and quite charming character.

It was interesting getting to know the differences between the Human and Sapien races, and then there was the biggest question of all...what would happen once the baby was born? Would Tarek betray Sophie? Was their love enough? Would they be able to fend off the rest of the Sapiens? I was hooked until the end.
