I didn't think it was possible, but Red Phoenix's books keep getting better and better. Every time I think "she can't top that", she does. "Brie's Montana Dreams" is no exception. Be sure to keep a couple of towels on hand while reading (in case you make the seat moist lol). Love ya Red!!

What a dream!!!

Wow...ok, now that I've picked my chin off the floor, I'll try to write a review...

Pretty sure that Red has outdone herself with a certain "scene" in this installment. Wow...did I already say that? I didn't think it was even POSSIBLE. Really? Geez...and now I'm curious...wait, what?

It's Brie's turn to visit Mary and Faelan on a commune in Montana and film a few things for her film. But this commune isn't what she expects and neither is Mary and Faelan. Boy how they've changed.

We get to see a different side of Faelan this time around. Many of us remember him for his uncontrollable and animalistic ways. But I was pleasantly surprised at who he's become. Seems as though he has truly learned something about himself and who he is.

Mary is, well, Mary. Hasn't really changed in sassiness, but commune life sure has her...panting. It's nice to see Mary and Brie get a go at each other again. Just like old times. And that scene!!!!!! Damn Mary, kudos.

Lots of steaminess going on in this one Red. Mary should have suggested a towel for me too ;)

Oh my! Now we are talking! This fourth novella in the Submissive in Love series (Brie's 3rd series), Red Phoenix has pulled off the gloves. This book is why I love everything Brie. This book may be a novella, but it is packed to the rafters with everything sexy. I adore Red's writing style, and this book is true Brie everything. It is also so full of the sexiest commune on the planet.

In this book, Brie has been working on her documentary. She didn't want to get going down a path that would hurt her chances of Mr. Holloway approving her film, so she meets with him. He does not give her good news about one of her favorite scenes, but he does show interest in where she is shooting next. Heading to the commune where Mary and Faelan are has her excited and a bit scared. She has two weeks, but without Sir. After getting there and seeing it is nothing like she thought, she spends time with Mary. Mary's transformation blows her mind, but all is not well. And here, she is invisible because she isn't a member. But she will be a part of something big and Sir has told her to do it. The Mary she met when she got here might not be all the truth. And Brie is about to experience something she will never see coming! This one is so much fun, you will want to read it over and over. And the commune might be more enticing than ever. I am totally hooked on this new Brie series, probably as much as I was for the first two. I can't wait to see where this story goes next!!

I received a copy of this from the author for an honest review.

I am fanning myself. OMG Red has out done herself with this book. It is HAWT? DUH!! But it is filled with so many new twists and things to look forward to in the next installments!!

Ok So Brie goes to hang with a happy Mary and Faelan. Now, I am not a huge fan of The Wolf after everything that went down with him and Brie but I was sooo back in love with him again....like in the 1st series. He is so happy and in total love with Mary. It made my heart happy. Mary, however, was a happy girl BUT something wasnt 100% in her love for Faelan. It kinda made me hurt for him. Brie was exploring the community that they are living it. WOWZERS was it an eye opening experience....Mary's fantasy....The Initiation.....O. M. G!!! I cant even begin to tell you the hawt factor of these scenes!!

Sir is not around in this part until towards the end. He plays a great part in a fantasy for Brie and its was pretty awesome. I also loved the place that he will be taking Brie for the next chapter of the series...SQUUUUUUUUU!!! I am so excited to see this amazing Dom again!!

I ending part of the book made my heart hurt for Sir AND for Faelan. I am at a loss as to how these strong men need to be comforted...sigh....the life of a submissive.....

Brie's documentary is sending her off to the mountains of Montana where Faelan and Mary have been living. The trip to the secret BDSM commune, The Sanctuary, Brie finds herself traveling alone. She also has to obtain perfect footage in two weeks for Me. Holloway's review.

The Sanctuary is nothing what Brie imagined, even though they lived off the land a self sufficient colon. They lived a simi life of luxury no ruffing it in the woods and tents. Once there Brie was reunited with Faelan and Mary. Brie was shown the initiation process, Mary had a scene of her own she wanted to play out, and she was able to see how life in the commune worked.the best scene was when Sir gave her permission to play in the dungeon event. Man I love the role plays that Sir is able to come up with for Brie.

I was not a big Faelan fan after everything that went Down between him and Brie. However, I'm starting to like the new Faelan the one who loves Mary and would do anything to make her happy even if it hurts him a little. Now Mary...shakes head...not sure she has her act all together. Does she love Faelan? Yes, I believe so. Can she admit it to herself and open up to him fully? No, she is just not ready and is still fighting her demons and not willing to admit that.

The ending is great I'm so excited for the next place we visit...Rytsar. He is my favorite as been from the

beginning and so glad to be going back to Russia. However, there was also a twist tossed in at the end that gas me on edge and I'm curious to see how Brie and Sir deal with it.

Huge SIGHS from me after reading this book! Red Phoenix definitely did it again! You are caught in from the beginning. You are surprised with the things that happen, people appearing and acting the way they do, and what all this means for Sir and Brie.

In this newest adventure, Brie is invited to a commune where Mary and Falean live and enjoy their kinkster life. For Brie it's a strange concept at first. Although the commune life holds some very sensual and interesting aspects, she realises a lot about herself and her relationship with Sir. Their connection gets even deeper and the way Sir tries with little tasks to keep Brie grounded, is wonderful! Red Phoenix definitely has a beautiful talent writing these moments. Brie might be there alone as Sir has to deal with issues concerning his mother, but wearing the jewelry she's reminded of him daily. And with all the hot stuff going on and not being allowed to orgasm, there's no way she can't think of him. lol  
And then there's the Dungeon night! This event caused some irritation amongst readers already, but then...remember...Condor love!!! This is one of my favorite scenes in the book. Next to the beginning and their little dinner date ;)

Mary being Mary I can only shake my head at her. Even with Falean there and being able to make her submit, Mary can't shake old habits - whether it is being mean to Brie, teasing, or ruining good things for herself.

Falean still appears a little mysterious with his own demons.

When you read the book, don't forget to have towels near you! One might not be enough.

It's hot, sensual, sexy, breath-taking, stunning, shocking...all you can expect from reading the next part in the Brie series by Red Phoenix.

I love feeling like Brie's traveling companion because each location she visits is an erotic delight! It seems like I say this in every review, but this is definitely one of my very favorites! In this novella, Brie's budding film career takes her to Montana to film scenes at The Sanctuary, a very upscale, progressive commune for people seeking a sexually free life style. Although Brie is sad to leave Sir behind on this trip, but she is excited to be reacquainted with her friends Mary and Faelan who have joined the commune. She is also very curious to discover what daily life in the commune is like and she is anxious to share her discoveries in the film she is producing. There is no holding back in this story! I loved getting the full dose of life at The Sanctuary, and Red even threw in a few delightful surprises!

Red Phoenix is so masterful at walking us through Brie's experiences, using vivid details and artful language to put her readers into each scene. When Brie gets aroused, I can guarantee the readers do, too! Brie is one of my all-time favorite characters! Her honesty, kindness, loving heart, and exuberance for for living can only come from the soul of this amazing author who demonstrates in book after book that she knows what her readers want and need. Thank you once again, Red!

3.5 Stars

I honestly was expecting more from this serial that I got. Still really good but not my favorite book in the Submissive in Love series. I really enjoyed getting a further glimpse into Mary and Faelan's relationship and was quite proud of him for standing up for how he feels. Mary really just pissed me off and I liked her less in this story than in this entire Brie collection together. I did find it interesting to get a sneak peak at The Sanctuary but would've enjoyed more variety in the types of activities they engage in. I'm also very interested to see what happens with Brie & Sir after the major revelation at the end of the book.

Also, not sure if anyone else had this issue, but I really don't like the cover for this one. The people on the cover aren't the same ones used for the past novellas and I honestly liked how the first 3 didn't have any faces on the cover but were more directed towards the acts that were going to occur within the book. That being said, I have no idea what other cover would've worked for this I just know the one that was picked didn't really work for me.

I still love Red though and will continue to read the series. I consider Brie's Montana Dreams a bump in an otherwise smooth and dreamy ride.

Red has done it again! Another hot and steamy adventure for our beloved sub, Brie Bennett!! This time she travels to Montana to connect with two people from her Submissive Training Center past, and to film segments for the documentary she is working on.

Two people from Brie's past, Mary and Faelan are living in an exclusive BDSM Commune and let me tell you, the way Red describes this place makes me want to be a fly on the wall! The scenery is beautiful, and the "activities" are off the charts steamy!

It was wonderful getting to visit with Mary again, seeing the unconventional friendship Brie has with her. I was so glad to see Brie and Faelan getting back to a place of friendship. Red has a wonderful way of showing the reader inside the world of BDSM and present it in a very classy and sensual way that makes you want to learn more about it. The scenes that occurred at the Commune were very sensual and very erotic, and I found myself wanting to be there in person, watching, even if I never participated.

Sir and Brie are still dealing with some challenges that have presented themselves, and they go through these challenges together, which I was really happy to see. It shows that their relationship continues to grow and strengthen.

Just before the book ends, Sir is hit with a shocking piece of information. What is going to happen next? How will he deal with this latest development? I can't wait to find out! And based on where Sir needs to travel to next, dedicated readers of the Brie series will be getting a delicious treat in the form of a sexy, Russian Dom... Keep writing, Red Phoenix!! I can't wait for more!

In this installment of Brie's adventures. She's invited to a commune to film footage for her latest documentary and perhaps get to experience what it's like to have sexual freedom. At the commune she is reunited with her Blonde Nemesis, Mary and the unforgettable Faelan.

If I had to pick a favorite of all of Brie's adventures, I'd say this one would be up there in my top five. The scenes in this read were explosive. I think I held my breath during a couple of them and I definitely used my imagination to place myself in the scenes that were being played out. Fanning self and needing a towel during much of the time reading, I'd say Red Phoenix continues to out do herself, sharing Brie's life with her Sir. This was a wonderful read. Thanks again, Red Phoenix. You hit this one out of the park.

Blew my mind away, left me breathless and in awe of Red Phoenix's writing talent! She is definitely a person born to be a writer! (It's a series of story so you have to read the previous books before you read this one!) I was captured from the first moment in the story and when the sexy bare chest cowboys came in the picture, I was melting and melting and melting word by word, sentence by sentence, page by page, the whole GORGEOUS book!!!!!!!!!!!!!! No words, really there are no words to express this BREATHTAKING book!!! Thank you Red Phoenix for being who you are and for keep writing so AWESOME stories!!!

## **Deborah says**

I loved this book! I love all of Red Phoenix's books but this one is among the best! We get another adventure when Brie travels to the Sanctuary commune in Montana to film some more footage for her documentary and visit past friends from the Training Center. Mary shows Brie around the community and the writing is so good I could picture it perfectly! As unconventional as Brie's relationship is with Mary, you realize she actually has missed Brie! Faelan seems to be in a much better place as well. I like how they are transitioning to being friends! The scenes are totally new, smoking hot, and so different you wonder how Red comes up with these wonderful storylines!! She made me want to visit the commune! Whew! I am eager to read the next as another business trip takes our couple back to Russia! Brie can't wait to get more footage, especially of Rystar! Alas, more crap hits the fan when Sir gets some very unexpected news of which he will eventually have to deal with. Red has such a fresh way of writing and I must say her books are a joy to read! Please read Brie's journey from the beginning! It is such an amazing adventure and you will be glad you did!

## **Tammy Hanson says**

Again, Red is amazing! Her stories are always emotional and there is always an element of shock, or two, in her books. However, as much as I loved what happened in this "episode" for Brie, I found myself disappointed for Mary and Faelan. Finding it hard to write this review without spoilers~ bare with me.

I wanted to see the positive in commune living, especially for those like Mary and Faelan, but I couldn't. Then, by the end I wasn't so sure it was a safe environment with the best process of selecting members.

Like many, I was emotionally drained by Mary. I would hope that in that type of living style they would all be helping each other, but it felt Mary was only there for herself, again. No character growth seen in Mary.

Faelan, on the other hand, I just wanted to wrap my arms around him and tell him how proud I was of him. As a character, I feel as if I've seen him grow from a boy to a man. Red, I love you for leaving us hanging...well played (sarcasm lol).

As for Brie, well you have to read to know what "experience" she has on the compound but it was by far one of my all time favorite scenes EVER! I yelled at my husband and said, "Now, this is why I love Red so much"!

I'm calling my review Wow and Yikes because that is pretty much how I felt the whole time I read Brie's Montana Dreams.

Love how Brie's adventures continue as we get to experience old characters and new ones. Nothing like a visit with past characters to see if they have changed and matured...or not. I do ADORE the new Faelan...Wow! But Mary, not so much...Yikes! Not sure what I expected when it came to The Sanctuary having never read anything involving commune living. I think I had a preconceived notion of camp. This was so not camp...Yikes! It was sooo much better...Wow!

The sex in this book has reached a new level of WOW for me. Not going into details here as to spoil the story but let me just say I have a very vivid imagination and can visualize very well. The sex here was very wow, Wow, WOW! so be prepared and have a change of knickers close by.

Knowing who Brie and Sir are going to visit in their next book, now the hard part begins. Sitting around waiting for the next book!

I received this book from the author for the express purposes of an honest review. The opinions and rating of this review are solely mine and in no way was I compensated.
