Origin ARS: Volume 3 Scottie Futch

The Origin crew are back in an all new adventure! On the way to the island kingdom of Eizen the intrepid trio run across a mermaid in grave danger. Caught up in an undersea adventure, they must unlock new abilities, and fight interesting new foes. Secrets are shared, emotions run high, and a great truth about both Scott and his purpose on ARS is revealed.

Humor, romance, litrpg greatness, and mermaids who just want someone to love! All found In this exciting volume of Origin ARS!

Note: The Origin ARS storyline is part of an entire multiverse of stories that are currently being written. They each star a similarly named main character who becomes embroiled in a life that is filled with litrpg greatness. Some are more adult oriented than others, and each involves a different type of RPG game setting. However, they are all part of the universe orchestrated by gods who love human pop-culture but who do not truly understand humanity.

Andrew says

done with this, hated every second of it.

Marin says

Is this little or a teen girls idea of romance?

I really like the authors other series. I tried to like this one. The first 2 books of this series were decent. This third book made me want to gouge my eyes out. I wish corpse rat would kill all the protagonists. That way I wouldnt have to read one more horrible line about the authors idea of romance. I was skipping 4 pages for every 1 I read starting a third of the way through the book. Not going to continue with this series.

Damien King-acevedo says

Enjoyable

Honestly I'd enjoy the series a whole lot more if you removed Origin. The whole Origin romance sub/super plot bores me to tears. And Scott's awkwardness with Eros makes no sense whatsoever; she lives in his head, every possible embarrassing encounter with her should be long done with by virtue of the fact that she not only sees everything he does by can read his memories.
