## **Poveglia** Deirdre Gould

Eight years ago the December Plague swept through the human population of earth. The Infected were driven mad by the disease, becoming violent and cannibalistic, killing even those closest to them without hesitation. Stopped by a miracle cure two years later, one city struggles to remain civilized.

But a new, incurable strain of the Plague has been released into the city's population. Desperate to avoid total annihilation, Nella and Frank Courtlen race to find a cure while their friends, Sevita and Christine struggle to survive and prevent the disease from spreading to the tiny, fragile colonies of humans outside the city walls.

## From Reader Review Poveglia for online ebook

### Judy McKee says

#### Book 4

I've enjoyed the Cure Books so far, but you have to read the set to find out the ending. So, Book 4 left me hanging & I will begin Book 5. OR does the plague never end?

---

### Lesli says

Not bad...lots of build up for what will be the next and last book. Lots of tie ins and revisiting old characters. Went quickly....I'm ready to exit Zombieland!!! "Fu\*K this Clown!!

---

### Krishna Burnett scannapieco says

The world was saved once when a deadly, society destroying, apocalyptic virus was released, but what happens when a stronger version of the virus is released again, and this time there is no known cure?

Deirdre Gould's fourth installment of the After the Cure series asks that question. Riveting, gruesome, and page turning suspense is turned up a notch in Poveglia. From the perspective of characters we already know, love and hate this book satisfies every craving of loyal fans and new readers alike.

Deirdre does an amazing job of answering questions from previous story lines while introducing new twists and turns in her masterful storytelling! This book is guaranteed to induce Book Flu!

---

### Norma says

Great book a little scary. But a good book.

---

### Joyce A. Wendeln says

#### The Next Plague

The next Plague has reared its ugly head. The City is no longer habitable. Everything is falling apart. Only the Farm House camp is left. What will happen to the folks out there if the Infected with the new incurable Plague get to them?

---

### **Nicole Fabry says**

This one was not as good as the others. There was too much build up and the ending felt incomplete. I know there is going to be another book next year, but this book ended very abruptly in my opinion. I am looking forward to the conclusion though.

---

### **Mary Lee says**

#### **Nella is an idiot!**

This could have been a good book, but the author made Nella a stupid idiot. Seriously, every page she was in had her trying to save some infected person or go into an infected area. Knowing she is dealing with a virus that has NO cure. The bad thing is that she is doing these things regardless of the fact that if she became infected she would end up killing the person she loved most in the world or condemning him to a fate he would find worse than death. She is a complete selfish idiot. I started the next book and unfortunately, she just got stupider! It's terribly frustrating to read something so unrealistic. I get wanting to help others, but you don't be stupid about it. Especially when you are with someone you love. Instead of looking caring and selfless, she looks like a selfish idiot. I hate using these words to describe anyone, but they are totally accurate in this case.

---

### **Tori says**

Yay! This book was AWESOME! And I can't wait for the next one! The December plague is back and new and improved! Which is not good lol I can't wait to see what Christine, Marnie, Nella, and Frank do to save the day...or fail at it. At this point it could go either way muhaha! The first book, at least at this point, will be my favorite, but this one comes in a close second!

---

### **Phoenix says**

This book is like bad sex. It hammers away for ever but nothing really happens. Then, just when something does start to happen, it ends.

Ahhhhhhrrrgvrgdhdhchhgggjkbfncbfjdnjdf!!

It's a decent but frustrating installment. It's basically a rehash of things we already know from the other books for 60%. The last 40% is action ramping up to..... The next fucking book I guess because it sure did end without any sort of climax. And the next book isn't out yet, goddammit.

---

### **Lucas Darathy says**

This book. Where do I begin?

Sevita is the MVP of the series. The part where we follow her was AMAZING.

Then. Cured Colony. Boring Henry plus boring priest. Double boring. Plus douche Gray guy. Wow, talk about a terrible plot.

Christine's story was okay. A bit eh, but there wasn't much she could've done.

Finally. Nella and Frank. You see, I like Nella. But Frank is awful. He acts like she belongs to him. He acts like she's the dumb woman he has to protect. At one point, he even thinks "hey, I underestimated her, she just thought of something I wouldn't have". Please. You're nothing special, Frank. And he's vicious. Pretends to care about people and all, then kills someone and plans to kill more. AND THEY LEFT WITHOUT TRYING TO REACH CHRISTINE WTF!?!?!?

---

### **Belynda says**

This book was just as good as the other 3, it just took me a while to read it due to other things going on ... I haven't had a chance to read as much.. :-(  
I'm looking forward to Book 5...

---

### **Bluecobras09 says**

As the City falls into the grip of the new infection, a small group of people that realize what is happening work to prevent those in the city from escaping. They know pretty much everyone has already been infected. They work to prevent them from leaving the city to infect those that are left. Once the Cured that left the City find out they start working to protect their new home from the people that do escape from the City, but the methods they have to use remind them of the way they were treated.

Recommended read.

---

### **Jacqueline Walton says**

#### **After the cure series**

I have really enjoyed this book. I liked catching up with characters from the other books. This is a great zombie series. I am looking forward to the next book. I definitely will be getting it.

---

### **Stephani Elise says**

I'm going to be really upset after this series is over. One book left and very excited for it.

---

## **Deborah Colgrove says**

### **Great writer**

I have read all the previous books in this set and just can not seem to stop. I will read the last one next. I have really enjoyed how each book tells about a new set of people but still follows the original set from the first book. Great writer, she really has a talent with the written word.
