Wood's Harbor

Seemed like the author rushed through the story as it could have used more time in detail for my liking. A good read though with more than a little confusion from the miscellaneous bad actors thrown in the mix. Easy to enjoy the characters and anticipate seeing more of them in the future.

Julia Stephanie says

In comparison to the other books, this one did feel a little rushed, but it was still a great read! Throwing in the whole corrupt government aspect and the climate of Cuban relations at the time was really fantastic!

Nancy Legge says

A very exciting and great page turner

Outstanding

The Mac Travis adventure continues with another exciting book. I found it hard to put down, always wanting to see what happens next. I'm on to book 5.

Dan says

As enjoyable as the previous novels.

Mac and Mel continue their adventures from the previous book. Yes, that was a cliffhanger, but this one picks up right where the other stopped. But, holy smoke, Mel is in a coma. Tru comes to the rescue and helps Mac dig himself in deeper against the law. Plenty of adventure and surprises!

Kim says

World's Harbor :Mac Travis #5

Mac and Tru end up in another SNAFU, this time smugglers and the CIA are involved, Jules has resigned and a new Sheriff is in charge. Tru's involvement with some less than honorable reputations friends brings everybody down on Mac, Mel, and Tru. Mac's house gets blown up by a missile, his boat and house grabbed by the government and when Mac, Mel, and a friend are shipwrecked in various storm, Mac is forced to take one of CIA Norm's Cuban baseball players back to Cuba in order to protect Mac and keep her alive. Hang on, the surf is rough along with the action. Thanks for another great read.

Another great adventure...this time Mac washes ashore after his boat explodes...authorities presume that he's dead and he intends to stay that way until he can solve the mystery. Mel is in a coma and close to being declared brain dead...will Mac resurface in time to save her before her corrupt former boss has her taken off life support? This adventure revolves around the fledgling relationship between the US and Cuba and someone willing to sabotage the ferry between Florida and the island to create tension. This book is one of the most intense in the series and keeps you glued to your seat! Fantastic production by the author and narrator.
