## Silver Tongue Shayne Silvers

My resume is pretty full: I've cow-tipped the Minotaur, decimated a gang of weredragons, sucker-punched an Angel, and eaten pancakes with the Four Horsemen of the Apocalypse...

I've kidnapped one of the most powerful wizards on the planet, and slaughtered the Brothers Grimm. I'm kind of a big deal.

But I never thought I'd find myself at a crossroads, a pawn in a deadly game that I hadn't known existed, willing to sell my soul to save the life of someone I loved... That's when I learned true fear, because the world I thought I knew was all just smoke and mirrors, and I was just a puppy playing amongst wolves...

If you like Jim Butcher, Kevin Hearne, or Patrick Rothfuss, you will **LOVE** the fifth installment of The Amazon Bestselling Nate Temple Supernatural Thriller series.

## From Reader Review Silver Tongue for online ebook

### Jenniferk says

#### Great extension and revelations of the series

I would recommend that you read the series in order to get the most out of this book. It is the best since the beginning in my opinion. It is a don't miss.

---

### Mary Lou Webb says

After I read the first book, I fell in love with this series. Nate Temple gets thrown some pretty hard life punches, but he's resilient. His best friend is a werewolf and his fiancée is a Grimm. He is now a Maker and is trying to learn what his new powers can do. Toss in some gods, a Minotaur, and Baba Yaga, and it makes for rip-roaring good fun. The books are well-written, with plots that keep moving and characters that keep your attention. What I particularly like is that even if you haven't read the between books, Mr. Silvers gives just enough background and references that you are able to deduce what you need to know to understand the current book. I'd recommend this book, and the others in the series, to anyone who likes fantasy in the present day and adventure. However, I'd suggest you start with Obsidian Son to set up this world.

I received a copy of this book from the author. I decided voluntarily to review it, and this is my honest review.

---

### Lurble says

#### Interesting Books, Annoying main character

For being a powerful "genius" this loud mouthed and callous jackass of a main character sure spend a lot of time not knowing things, uses uninspired "magic, and tugging at his balls which are always trapped in a metaphorical vise. Still and ok book series to read with few better options.

---

### Tanya L. Lestenkof says

#### Good storylines

The author's style becomes more fine-tuned with each book. While the first book felt like it was trying too hard (it was still a relatively good read), each successive book becomes better written, and more riveting, leading me to finish them faster. Since the author started off with so much action, I wasn't sure that it would be plausible to keep it up, but I've been surprised with how well Silvers is able to keep it going and still keep it entertaining. Kudos!

## **Shari Ferguson says**

### **Nate Temple...**

These books have had me laughing so hard that my husband looks at me like I'm crazy. He works the night shift, and I try REALLY hard not to wake him up, but it doesn't work out that way when I read books as fun as The Nate Temple series. I have loved myths since I was small, so this series is especially fun for me. Thank you Shayne Silvers for bringing my childhood memories to life.

---

## **DJR says**

Don't get me wrong I am absolutely loving the series BUT the monologues are too long. Half of the book is going over what happened in the last books. If people want to know they can read the other books. Then there is the over and over comments. Gunner is a hunk of a Viking . Also Temple always say he has to look into something. He doesn't do that till way later if he does. Said he has to help Indie with her powers, well when? So many things he has to find out about. Then there is the constant trashing of his book store. Over and over. Come on stop it already. For me I just skip all of that. I still like how the plot goes, and I can't wait for more books.

---

## **John Piper says**

Nate Temple has just faced down and defeated the mighty Grimm Brothers. His family's company was taken out from underneath him, and his fiance died! Luckily she was brought back to life by Death, one of the four horesman of the apocalypse. What could possibly go wrong next? Nate is contacted to find a book for a client. Little does he know the trouble that book will cause in his life! Let's just say more fairy tales come to life, in this book. Making Nate Temple's life a living hell!

Nate Temple is by far one of the best written series I've ever read! The dialog is awesome, with great character development. I love how Shayne brings together so many mythological stories in this series! He has a unique quality to his writing style, that I love. You are always on the edge of your seat, and then feel like you fall off it when a huge twist hits in the story! Silver Tongue is an award winning book in my opinion!

---

## **Montzalee Wittmann says**

Silver Tongue (The Temple Chronicles #4) by Shayne Silvers is another awesome novel! He just keeps them coming! This one is also kept my heart racing as a "Demon" makes a deal with too many, a book is wanted by unsavory characters that are impossible to kill and they all think Nate has it, Nate's girlfriend's new powers are uncontrollable, and funny and not so funny events unfold that change lives. These books are always filled with humor, even during a horror scene, which makes it even funnier. The fights, action, and dialogue is great, esp. the snarky dialogue that keeps me giggling. Outwitting and out maneuvering the opponents is half the fun in these books. LOVE them!

---

### **Shawnie Nicole says**

Nate is an asshole, especially to his friends but I like him anyway... weird ... I still like death more ANNND THE MAD HATTER, Yes!

---

### **Tamika Rivera says**

#### **Hilarious**

I chose 5 because this book is awesome, suspension and comedy... Nate Temple grew up a rich kid always getting what he wants when he wants it ... his parents bestow a gift to him (without him knowing) Right before being murdered his life turns upside down. The only thing that keeps him alive is his intelligence & wits... he is hilarious.

---

### **Amy says**

Love, Love, Love The Temple Chronicles!!!! For Nate Temple life is never dull. Shayne Silvers has done an exceptional job mixing myths and awesome creatures, some that I have never even imagined. I love the sarcastic wit. Each book has been an exciting ride to the next. I hope that Shayne keeps this series going. I would love to live in Nate's world, even with the immense chaos that he is constantly involved in. If you love paranormal creatures and some sharp wit, this series is definitely for you.

---

### **Fleur says**

Twists, twists and more twists keep you reading this one. While trying to deal with his maker abilities and the not so good off shot of having them Nate also has the mystery of who and how many after after a mysterious book he has been asked to find. I love how Nate has so many diverse friends now and I think Death and Alucard are my faves!

This one kept me glued to the pages and the I just loved the scene with the 4 horseman and silver tongue,

---

### **Beverly says**

A very good book five continuation of the urban fantasy Nate Temple series. There is a big cast of interesting characters from myths. Many have been carried over from the previous books with a few new characters added. The characterization of these mythical characters makes them not just interesting with their unique histories and magical talents but also believable which is on the top of the list of a good story requirements for fantasy reader's.

As in the previous books, the story is fast paced with lots of action and there are many seeming unsolvable problems for Nate to solve using his wits and magic muscle and magical friends, some of whom are having problems with new unique magical skills, Nate included.

At the end of the book I did not hesitate getting the next and most current to date book in the series, Beast Master.

---

### **Mandy Walkden-Brown says**

A fantastic series that should be on your 'must read' pile.

Never ever a dull, nor boring moment when Nate Temple is around, much as he would wish it otherwise, he's definitely a beacon for chaos and this adventure is certainly no exception.

Wonderfully vivid characters, even the supposed mythological ones!

Never lacking in action. It's also rife with wry humour, great camaraderie between the characters and a darn fun read.

More puzzles thrown up, more intrigue and new characters pop up at the most awkward of times for poor old Nate.

A really enjoyable, addictive urban fantasy series that just seems to get better and better with each book!

---

### **William Bitner Jr. says**

Just finished reading “Silver Tongue: A Novel in the Nate Temple Supernatural Thriller Series, The Temple Chronicles, Book Four”, by Shayne Silvers. Brat Wizard Nate Temple is back with his band of freaks, friends and foes, in search of yet another book. We are reintroduced to some of the old gang and introduced to some new characters in this installment of “The Temple Chronicles”. We have one of the world's most loved monsters (The Gruffalo) turned into a not so lovable monsters in Shayne's telling/retelling of this creature. We are also introduced to Baba Yaga a fearsome iron toothed witch from Russian Folklore melding together with Greek Folklore, Grimm’s Fairy Tales, Vampires, Werewolves, Witches, Wizards, Huntresses and Hunters and of course there’s Sir Muffle Paws This is quite the journey, and it gets better with each new installment. Get on this ride of words and you will not be disappointed. It’s as if I’m reliving my teen years in this adult version of a well crafted fairytale. Exciting, entertaining and fun from start to finish. Humor, adventure and thrills told in a way that will keep you coming back for more, and there is more coming, so buckle up and get ready. Can you tell I love this series? No really, can you?
