Bump Jaime Munn

A Witchlight Novel

BE CAREFUL WHO YOU WITCH FOR

Ever had that feeling--when you're completely alone--that you're being watched? I envy you. I see the watcher in an empty room, and I firmly believe ignorance would be bliss.

Nilla Hayes has a problem. It isn't the pretty werewolf she shouldn't be attracted to. It isn't that her best friend is trying to set her up, either. There are things going bump in the night and they all start with a wicked witch. Things would be a lot easier if Nilla could just turn a blind eye, but not all witches are bad. Now it's war--and no one is safe when witches duel with magic.

Doreen says

Bump is a very enjoyable romp into the supernatural world.

Nilla Hayes lives in the small town of Whisper Falls. She makes her living selling lamps at her shop called Which Light and practicing magic for supernatural clients in Witch Light. Nilla's life revolves around her shop, her best friend Livia Darrow and witchcraft. A spirit has just entered her life and watches her carefully from one corner of her store. Nilla doesn't enjoy being haunted and invites the ghost down to her basement spell room. Eventually, the ghost identifies herself as a mother who died in child birth and she wants a blessing for her infant daughter. Nilla agrees as long as the ghost leaves when their magical work is done. Unfortunately for Nilla, this one act of magical kindness will irrevocably alter her quiet life.

Bump takes the reader on a fantastic journey into the veiled world which exists apart from the mundane world of humans. All manner of otherworldly creatures live on the cusp of the veiled world. Witches, familiars, warlocks, werewolves, incubi, ghosts and demons are some of the supernatural characters that go bump both day and night in this novel. Nilla Hayes and a cast of supernatural folk face down a powerful warlock willing to go to any lengths in her pursuit of the blessed newborn. Grace St. John is the girl's aunt. The plot follows their magical battles over her fate. Nilla had no idea what she walked into when she took that ghost downstairs to her witchcraft workshop, but she isn't going to back down to the terrifying darkness waiting for her and her friends. Bump is one electrifying ride on the wild side. Luckily, it is the first book in a series.

Tracy says

Wow

This was an excellent book, besides a couple minor spelling issues, the storyline was engaging, interesting and really kept me guessing. I thoroughly enjoyed it!

lov2laf says

"Bump" was much better than I expected and for a Kindle Unlimited it was stellar.

Nilla Hayes is a closeted witch living in a small town as a lamp shop owner of "Which Light". On the outside, it appears she's a simple boutique owner but in secret she also provides witchcraft services to clients that are living, dead, or otherwise. One such request comes in asking for the protection of a baby which Nilla can't turn down. Unfortunately, doing so puts her in the crosshairs of a sinister witch, leading to a string of events that takes Nilla further and further down the rabbit hole of something wicked this way comes.

As genres go this is all fantasy with paranormal creatures of every type in abundance: witches, werewolves, incubus', demons, ghosts, and the like. There are definitely dark and serious elements in the read but the overall tone is light because of the characters and lines of dry humor present. We do have a mystery of sorts and a bit of romance action on the side.

The world that the author spins is original and intriguing. It unfolds in a way where we learn bit by bit. Nilla chooses to live her life in the human world vs the paranormal realm so the setting is based in our everyday reality with paranormal things going "bump" in the night...or day, as it may be.

Nilla is a great narrator and the point of view of the story. She's an unusual witch because she's strong but doesn't overuse her witchcraft or flaunt it. She has scruples and is very careful and cautious about all things paranormal since they come with as many cons as pros. She's also a good friend and has a likable personality.

And don't get me started on her cat. I'm not even a cat person but I loved the role that her cat plays in the story. Many of the humorous moments are derived from him.

For those who notice or care, this is a male author writing about a lesbian lead that develops an f/f relationship. And, in the highest, most complimentary way, you can't tell. The writing, respect, and genuine affection for the characters is what comes through. Any romantic elements are handled really well and the sex scenes are fade to black.

Nilla isn't the only strong female, as there are many in the book. And much of the cast is also lesbian or gay though heterosexuality is represented, too. Nilla is a black woman and a few other characters are of non-white ethnicity. The story is just a really diverse mix, in general, that is well executed.

The book had some minor editorial issues here and there but the read felt unique and refreshing. I really enjoyed this and will definitely continue with the series. Recommend.

Angie Hackett says

I initially got a sample of this through Instafreebies. This prompted me to get the full book as i found what i saw interesting.

Overall i found this to be an interesting read. It was reasonably well written with minimal typos. Characters a certain amount of depth and the general plot was well thought out. At times i found this bit long winded to read, so in that respect it was a little hard going. The lesbian aspect of this story was good and provided diversity. That said, it did strike me that everyone and their granny was gay by the end of the book. This is in no way meant as a slur against lifestyle choices, but i felt the sudden evolution of practically the entire ensemble, save one couple, seemed to diminished those established as gay from the very beginning of the story.

Otherwise, this was a really interesting read and well worth investing in.

Molly says

Connections between family, friends, Light and Darkness. Who rocks the night? Whose hand rocks the cradle? Things that go BUMP! In the night!

Nilla seems to be a Witch who grew up without family, but knew her power since she was young. Her BFF Livia works at Erica's Art Gallery Tangles, down the street from Nilla's Lamp/ Spell Parlor. They are linked in friendship and a deep love of specialty coffees.

Sofia is a bitten Werewolf. An artist who displays at Erica's Gallery, she is part of the ghost alpha Hadrian's queer were pack.

As the beings of darkness and light work their ways through Each other's lives, Nilla discovers the strength of pack and heart connections. She finds both Love and Pain at the heart of most of the beings she encounters.

Nilla and friends are in for a bumpy ride in this fast paced story!
