**\*\* FULL STANDALONE NOVEL \*\***

“Meeting you was fate, becoming your friend was a choice, but falling in love with you was beyond my control.” -unknown

Alayla James thought she was everything a man could ever want. She was beautiful, successful, and loyal. Even with that, she still found herself being hurt. She jumped from one relationship to the next, trying to give the love she felt for her best friend Jahe to someone else. She didn't want to lose her friendship by telling him how she felt, so keeping it to herself was for the best. After her last relationship ended in disaster, she decided to give love a break and focus on herself and her business, but Jahe had other plans for her.

Jahe Williams has been in love with Alayla since the moment he laid eyes on her at ten years old. Scared of ruining their friendship, he forced himself to stay in the friend zone. The heart wants what the heart wants and now that Alayla is single, he's decided that being friends just isn't enough anymore.

Taylor Santiago and Bryson Daniels have their own love story to tell, all while watching their childhood friends Alayla and Jahe finally come into their own.

Read along to see four childhood friends cross the friendship line to becoming so much more.

### **Jeanida Luckie-Weatherall says**

Really liked this well written book and it moved at such a steady pace. Great debut and a sweet love story. Such a great storyline and I couldn't get enough. Not all the usual drama but it still grabbed my attention and wouldn't let go. A nice change and I love a good romance. Loved these characters and that the fact they were intelligent, educated and knew their worth and wasn't in the street...refreshing. Nothing but Kings and Queens. Also love how they were a group of best friends that found true and had a unbreakable bond. So loved the way this book ended for each character and can't wait to see what's next from this author. Great job Asia Monique. Highly recommend.

#### **Very sweet**

This was a very good story for a new author. The characters are all likable and their love was cute. The only thing missing for me was some drama. I like some suspense this was very predictable in the sense that there was never a doubt that things would go the Hallmark storybook way, which isn't bad I just personally like to be a little surprised with what happens when I'm reading. There were other little things like the names and nicknames that bothered me but that falls into personal preference. So overall Ms. Monique good job.

#### **Love Story**

Everyone has that one friend of the opposite sexy that they have feelings for. This book was like love & basketball meets brown sugar to me. Jahe was Bae. Alayla is like every woman out here. This book this reminds me of a B. Love novel. This book this love story is like a classic love story to me.

#### **There's nothing like falling in love!!!**

Ja and La had a love like most dream of, it's like she had to kiss a whole lot of frogs before she got her prince. I loved the friendship between the crew that all stuck together. Also Ja finding his brother brought everything full circle....

### **A good debut**

This was a sweet romance. Two people who are destined to be together. Best friends who've had feelings of each of since they met each other practically. La la and Ja had an awesome friendship, I couldn't wait for him to confess his feelings. The twins were funny. A good debut, I'd definitely read more from this author

All the couples truly loved each other. The friendship they all possessed was beautiful as well. Greatly written.

I'm so happy that Jahe & Alayla finally decided to tell each other about how they really felt. This was an amazing love story from beginning to end. I was happy for Bryson & Taelor too. I loved how everyone grew up together & married their best friends. This was my first read by this author & I can't wait to read more.

#### **Lovers and Friends??**

I love how Jahe && Alayla and Bryson && Taelor were all long time best, childhood friends that went into relationships. I like how they're a tight knit bunch including Bryer && Jelani. Jahe always felt that a part of

him was missing due to not knowing anything about his birth family and I was glad that his brother, Jayson, found him. I'm glad that Jahe & Alayla got good vibes from Jayson & Jackie who fit in well with everyone at the Christmas party. Alayla's brothers are truly a mess and I hope to read more about them in the future.

#### **Easy and calm read. A real feel good story**

This story came right on time. I needed to relax and just enjoy some "feel good" moments, but put the book down when I needed to and this book delivered big time. The characters all loved each other and were loyal to each other. No crazy exes in the mix, no pregnancy scares from exes, no breaking up because of misunderstanding just love, love, love! Conflict has its place in romance but I didn't feel like dealing with it this time. I wanted happily ever after all through the book and I got it. The realism of some of the language stopped it from being over the top sappy. My only complaint would be to correct all editing errors before the next book. This didn't have as many as some I've read but the goal should be to have none. Other than that I enjoyed myself.

#### **Light Easy Read**

This book was different from my normal reading; it was ok. I was torn between so-so and a solid like because there was nothing that really pulled me in to make me keep reading it, like it was missing something. It was bland and at some point I got where I could predict what was going to happen. With that being said, I like the fact that it was different. It was a nice chill easy read without all the extra drama, like a cross between love and basketball and best man kind of feel without all the issues. I think it could have had more exciting moments and still kept the book nice and easy. This book seems more for young adults around 18 yrs old.

### **LITeraryQueenNika says**

I loved this book. Alayla and Jahe had the perfect love story that many would dream of having. It's like one of those fairy tales where the princess had to kiss many frogs until she finally found the one who became her Prince charming. The friends their bond was amazing something am sure we all wished we could have due to sometimes it's hard to come by ppl that are really down for you thru and thru. I wish this book would had been a little longer through because I didn't want it to end. I am glad everyone had a happy ending though. I really wish you would come out with another part please but I know you probably won't. This is a must read y'all.
