Bharath says

Killer Moves is a mystery novel with some subtle & mild supernatural elements in the story. I found the story and build up to be pretty good, keeping the suspense well into the story.

Aisha Khatri is a person who has made many personal sacrifices in life to ensure that her niece Kiara has a good life. Kiara's parents die tragically when she is still young. Kiara is an upcoming model, and has just taken up an assignment with the famous Kabir Rana. Kabir Rana has faced tragedy in the past which continues to haunt him. He finds himself drawn to Aisha, who is wary.

There is a serial killer on the loose, targeting women and killing them cruelly. The CBI gets involved in the cases, along with the Goa police, but it is not an easy chase.

The story shuffles between Mumbai, Goa and Sirsa. The story is very fast paced and engrossing. The writing could have used some more sophistication and nuance in the characterisation.

This is a book I recommend reading for its story and ability to keep you going till you finish it.

Fast paced read that was an intense, eerie, and suspenseful thriller... A sure-fire winner!

I received Killer Moves by Varsha Dixit for free through Goodreads Giveaways for an honest review.

Inderpreet Uppal says

A girl who is drawn to the supernatural or is it a legacy that follows her? Aisha is a no-nonsense scriptwriter who works hard at denying the netherworld yet it is what helps her outsmart a killer. This is the first thriller cum mystery I have read by Varsha Dixit and I am floored once again. I have previously read and enjoyed her books and this one, Killer Moves is a must-read book.

I loved the Only Wheat Not White and The Wallflowers but this one is very different from those feel good romance novels. While Only Wheat Not White was a family drama with a love story, The Wallflowers was a

prequel to the contemporary romance book A Hasty Hookup.

Killer Moves is a thriller with a killer on the prowl, not just a regular murderer but a serial killer. Aisha has a secret that brings her right in the sight of the killer. She is just following her niece, Kiara to her photo shoot in Goa to keep an eye on her. The boss, Kabir has been accused of the murder of his wife and Aisha is worried about her niece. The killer is on the prowl around the models plus Aisha finds it increasingly difficult to ignore the real reasons she wants to be around. Interest in Kabir and secrets from her niece. The killer, his victims, Goa and the gruesome killings ensure that Kabir, the police officer and Aisha can't trust anyone and even the most trusted ones cheat on them. Who is the killer is quite a twist and the ending more so with a conflict I did not see coming at all.

Varsha has delved into the occult and the super-natural and not just killers in this book. The story is fast-paced, kept me turning the pages and made a fan of Varsha's writing yet again. She has blended the mystery with the lives of the girls as well as a hint of romance beautifully.

Killer Moves is more of a thriller than a romance. It has elements of a budding romance that adds fine layers to the story. Aisha and Kabir both have their own demons to fight and yet are drawn to each other. They find a balance with each other even though they are as different as can be. The author has given hints of a sequel even though this is a stand alone book and I eagerly look forward to the next book in this series.

Varsha is a natural in this genre as well as romance. She has taken the 'other-world' and blended it with this world and made a smashing, scintillating, supernatural read. A book that will keep you awake, turning the pages as you race with Aisha to catch a killer. Pick this one if you want to read something different yet an engrossing read.

Kavita says

I am eagerly waiting for the next book in the series already!

Loved the transition of Aisha from a writer to a behaviour analyst.

Two people who have experienced death very closely and have related and dealt with it differently happen to meet. What happens next? Do they attract death again or do they teach other to deal with it? As the blurb reveals how does the supernatural come into picture.

Aisha is writer for a tv serial, Kabir is a fashion photographer. Aisha's maternal instinct to protect Kiara her niece from the ill famed Kabir Rana makes her take a trip to Goa. Here there have been a slew of brutal murders of young women. Do Aisha or Kiara face the threat?

A very tightly woven plot, with suspense, romance, thrill and supernatural elements in the story with characters who come to life in front of your eyes.

Just pick it up and read it you will not regret the read, in contrast you will rather enjoy it. I read this book in one sitting, couldn't put it down.

Nithya K says

A killer of a plot

Read it in one go. Just unputdownable. Wish Varsha writes the sequel to this soon. Killer Moves is everything that a thriller book must have. Well, I'm glad I trusted my instincts on this one.

Just fell in love with this book. Gripping fascinating and a page-turner. Ms. Dixit has done a great job in combining supernatural /romance/ thriller. A very tough feat for any author to do. Wonderfully edited too and that makes this book a pleasure to read. Lovers of thriller and romance - and if you like an added dash of paranormal, this book is for you.

Sonal says

Maya Daniels says

A page turning novel! Sacrificing years of her life and her dreams, Aisha takes care of her niece and father after the brutal murder of her brother and sister in law as well as losing her mother to cancer. As her niece is all grown up and wants to live her life by her own rules Aisha is faced with learning how to stop being overprotective and let go. This leads her to Kabir; a handsome prince who denies his title because of all the tragedy in his life. A dead sister, a dead wife and only him being present at the time of their death. Years

later as the number of bodies of young beautiful women starts going up Aisha and Kabir are pushed together but they keep fighting the undeniable attraction. Having lost loved ones is something they have in common, but, is that enough for them to open their hearts to each other. The lines blur between love, friends, family and ruthless killers. An amazing story definitely worth reading!

A blood-filled tale that occurs in major Indian places.?

There is no easy way to summarize this brilliantly narrated story. The book starts with twinning, gripping story and book will never let you down. It's a really fast paced book which I enjoyed but sometimes the pace of the book would be too much overwhelming. For me, the author Varsha Dixit is a literary genius and have written a thought-provoking book."

It was a deadly storm,- a storm that could kill, a storm that did". The book is purely normal and paranormal and only twist keeps it simple read.

I thoroughly loved Kabir and Aisha's characters and their portrayal is transformational and prodigious. These characters are something which will be in your minds for so many days.

I have now started exploring more of Varsha Dixit's books and I will for sure read more of her works.

Disclaimer: I don't generally like to read supernatural/paranormal or dark thrillers. But I was gifted this book and decided to give it a chance. I like my protagonists and antagonists to be clear right from the start, but this book turns the concept on its head. Who is innocent? Who is guilty? Nothing is as it seems. But the author kept me trapped in the pages filled with danger and fear for the complex characters. The gripping page-turner weaves through a web of deceit, conflict, murder and love, leading to a satisfying end. I might check out other books in this genre and by this author. Recommended for lovers of paranormal romantic suspense.

When your favorite romance author, pens a thriller, the level of expectations are high. So when Varsha Dixit's Killer Moves was released, I was eager to read it as I have read all her previous romance novels and have loved reading her work.

So was it up to my expectations? Well, it was more than that. I was surprised and held in awe. Just like her romance books, the story of Killer Moves is just flawless and a super addictive read.

The protagonist Kabir and Aisha, both victims of childhood tragedy are thrown together due to circumstances and sparks fly, but will it kindle the fire between them?

Varsha has definitely written a super thriller story, which gives you chills and keeps you on edge of your seat while reading it.

Awesome book cover, fast-paced story, well-defined characters are all the plus points of Killer Moves.

So if you like to read a thriller and you want to read a good book, this one is a must read.
