"The Desert Prince's Bride" is the story of Giselle and Jaffri.

EL writes one of the sweetest, low angst romances in this tale.

When Prince Jaffri spots a strange, beautiful woman dancing barefoot in his palace, he knows he wants her.

Turns out Giselle is his new decorator, but that does not stop Jaffri.

Initially reluctant, she eventually gives as Jaffri relentlessly pursues her, and soon they begin a super sexy, honky donk relationship.

But a surprise announcement by Jaffri's family to another princess breaks Giselle's heart, and shocks Jaffri himself. Can he convince Giselle that it is she whom he wants, and that he would never let her go?

I really enjoyed this one and their chemistry was both sizzling and cute.

Obsessed hero, shy, innocent heroine, some drama, likable secondary characters and HEA. Beautiful ending.

Another sweet, Hot love story in the series. Don't start reading until you have time to finish because you will not want to put it down!

Emma Long says

Disappointed

Poor plot development. if you like hot sex and plenty of it then you may like this book. It has little else to recommend it. Unusual for Elizabeth Lennox.

I don't even know why I try to read these books anymore. The premise is good but the delivery is quite underwhelming.

The Desert Prince's Bride

It was cute how Giselle & Jaffri first met with her dancing in the hall. Enjoy the way they got to know each others while keeping their relationship a secret and dealing with outside issues. Sex was hot. Prince took alpha to another level but the leading lady was no push over. Recommend

Laura says

I liked the book. It was great that Jaffri got his HEA.

Jane Catherine says

Giselle and Prince Jaffri were such an interesting couple. Giselle is one of the event organizers for the palace. She and Jaffri have a torrid Adair until she finds out he's engaged....or is? another great read by Elizabeth Lennox.

What an entertaining book. It is a delight to read. It held my attention from page one till the end. I loved the unique personalities of the main characters. Giselle Jones is an assistant event planner for the hospitality division for the kingdom of Altair. She is a sweet young woman but has a fierce temper when provoked. Having grown up around her three brothers, she learned to fight fire with fire. She is physically fit as she loves to run up to five miles a day. But sometimes she forgets to eat. Originally from Boston she now lives half way around the world in Altair. Her brothers are still overprotective of her and check in on her often. She meets Prince Jaffri, heir to the kingdom of Altair. Jaffri is a self confident man. He is large and in charge. When he speaks he expects to be heard and obeyed. No questions asked. However, Giselle personality is different than the women he is used to. She does not back down to his overbearing style. He is

also a sensitive man in his own way. He is intrigued by Giselle and wants to know her better. He listens to her and pays attention to her. He finds her "beautiful, fascinating and observant". The two of them are insanely attracted to each other. It started with a kiss and ended up in his bed. She gave up her virginity to him. When he realized this he made sure he made that evening memorable for her. Giselle was extremely concerned that she was be the target of the palace gossip. So they moved their extracurricular activities to her apartment. After each time she and Jaffri were together, Giselle remembered that she was a commoner not even a citizen of his country and because he was royal, they could never be together. She decided to enjoy his company for as long as possible. Then at a fateful press conference, it announced Jaffri's engagement to Princess Mila of Sadoon. Sadoon was a neighboring country that wanted an alliance with Altair. Jaffri's engagement to Mila ensured the success of the political agreement. Giselle was devastated. Jaffri tried to reach Giselle multiple times and in multiple ways. She did not want anything to do with him. But he still perused her. Apparently Jaffri did not know of this engagement and had no desire to marry Mila. He wanted Giselle to believe him but she would not and she refused to be his mistress. On the other side of the coin, Mila was not interested in Jaffri. Her heart belonged to someone else. The plot thickens. This is definately an entertaining

Angie says

This one had a different feel to its format. The press conference and its fall-out (mentioned in the book's description) doesn't happen until mid-story. Rather than be immediate, I liked the build-up of their friendship and attraction. A quick, one-sitting read that kept me up a little late last night and totally worth it.

Judy Schulz says

Great

This book is a sweet, short love story. It begins with her dancing in the hallway and ends with him proposing and ultimately marrying.

Dorothy Morris says

Bride

I loved the book because Prince Jeffari is all grown-up. He fell in love like his father Sheikh Talal did with an american woman who is strong like his mother. I loved their story.
