Lure of the Dragon Shifter Rinelle Grey

Dragon shifter Wayrian just wants to live a quiet life. Fat chance of that when her clan is at war and her grandfather wants her to marry a prince. As if that isn't enough, a crazy goddess appears in her dreams and threatens to turn her clan human if Wayrian doesn't marry her fated mate by the Blood Moon.

A mate who is not a prince.

Who isn't even a dragon.

Despite being lured away from his father's cattle station by the excitement of the dragon shifters, Chase is careful to keep his distance. He's happy to help out by waking one of the dragon princesses, but he isn't planning on mating forever — even if Wayrian thinks that's the only way to save her people. He doesn't believe in true love, he's been burned before.

But when a reporter bent on exposing the dragons' existence drives Chase and Wayrian into hiding on the cattle station, things between them begin to heat up. The only problem is that Wayrian's grandfather, hiding with them, is determined to keep them apart at all costs. Will Wayrian risk her grandfather's ire to save her people, or will she make her own choice?

***Lure of the Dragon Shifter* is a novella length complete story with a happy ending. *Lure of the Dragon Shifter* is a cross over novel, part of the *Fated & Forbidden*, multi-author series, and the author's own *Return of the Dragon* series. Each book can be read individually. Read about Allendra and the story that starts it all in *The Challenge* by Kallysten.**

Keoki Ki`Ili says

Out on the range

Being older doesn't always equate to having more knowledge and when this elder pushes his will onto his granddaughter one too many times, she finally stands up for herself. The prophecy, the fight, the reporter these things alone would ruin a perfectly good day but add a bitter grandfather well that truly makes things worse.

Daisy says

Fast read

This is a fast pace romance. They meet and fall in love quickly. I would just have liked to see more of their characters to understand them more but it was a fun read.

Nicole says

Wish I'd gotten to this series earlier!

Julie scott says

Dragon's Cowboy: Fated &Forbidden

This was great I Liked it and I will be watching more of it ...And hope it will be just as good..

Myra Wray says

Once again I have found a good book in this story. I found it hard to put it down until the end.

Toni Gomes says

More enjoyable if you've read others first

I enjoyed this and it is a standalone with a happy ending. It occurred to me as I was reading that as I had read one of the previous stories that it was just that much better as I understood more of what was going on.

Really liked that in this story the woman was the dragon, an interesting change.

Anita says

Committed Trust

This second book starts with adventure, and ends with committed trust. This story can make you believe in your dreams coming true.

Decadent Kane says

I review based on entertainment. This book is about forbidden mates between a human and a dragon shifter. Normally the shifters I read end up being a male shifter. I was pleasantly surprised to have the female lead a shifter with the male lead human.

I think my favorite part of this book is the firework scene... when she realizes who her mate is.

The leading female is sweet, caring, gentle, and finding her way in a situation of old fashioned ideas. I liked the realistic simplicity of the family and clan structure. The author did a good job making it believable.

I'd recommend this book to those who enjoy paranormal romance and sweet romance.

Frances Law says

Return to the Australian outback.

This is a side story to the main theme of the waking of the Rian dragon princes and princesses. Ultrima is still out there and determined to get his princess. But that is a long way off. In this book Lisa's friend Chase finds himself looking after the elder dragon Ostrian and his granddaughter Wayrian. Wayrian has had a dream in which a Goddess told her that she, along with a number of other supernatural beings, will have to find and mate with her soulmate before the next blood moon. She has realised that her soulmate is Chase, but now she has to convince him, and her grandfather!

Jane Elizabeth says

The...

The goodness continues! There are still issues to deal with and Princes and princesses to awaken. Some new twists and added excitement kept me reading. I am headed for book three now!

Edith Torres says

Great!

I am so invested in this series. Dragons were living in the Australian outback of all places. Unbeknownst to humans until one day a woman stumbled upon a sleeping man. An Elder amongst the dragons, Ostrian plans on having his granddaughter mated to a dragon, not just any dragon though, a dragon prince. Wayrian can't seem to win an argument with the old one, unless she wants to be accused of being selfish and against her clan. Why won't Ostrian let her live her life? She's an adult.

This story has bullying, another clan of dragons as enemies and an old know it all who gets on everyones nerves!

Mary Lee says

Torn on this one

I'm torn on rating this one. I really didn't like the main female character. She was such a spineless coward, it was just so so irritating. I'm sure the point was to show her go from a mouse to a lion, but it really missed the mark. She was so bad I couldn't even feel sorry for her. I felt nothing but contempt. So whole she got somewhat of a backbone at the end, it was really too little, too late for me to like the character or understand how he could have been attracted to her. My biggest issue though was how I came into this as part of the Fated series, yet it's the middle of another unrelated series with characters and backgrounds I had not read. She described enough to follow it, but pretty much the entire book you feel like you have missed most of the story. There is constant talk about past books events.. but I didn't read those books, so it means nothing to me. I'm not invested in all these characters. This wasn't the best introduction to a writer I have never reAd before. If I could think of one word to describe this story it would be MILD. Eve rushing was real even keel. To me the only redeeming features were the fact that I felt some bolts of pain at some things he said, so she drew me into it enough there and broke out of that normAl mild thing enough to feel.

Barbara says

This is part of the Fated and Forbidden series of books. There is a prequel and the conclusion which contains the prequel. The author suggests that you read the prequel first. This is a nice romance. I found that Wayrian needs to stand up to her grandfather, who is also an elder.

shelby walker says

very satisfied with story now starting next book

Maryjane says

Dragon's Cowboy

Great stuff! Lots of imagination in this book. Wayrian has a dream about finding her true mate, but is her dream real? It's crazy how they meet, but will her grandfather ever allow it because Chase is a human? It's a must read in this series, and it gets five stars from me.
