Ask Me

M. Malone

Ask Me M. Malone

Follow-up to the runaway bestselling romantic comedy BEG ME!

Andre

I'm *that* guy. The one women want and other men want *to be*.

Arrogant? Maybe.

Accurate? Abso-F'ing-lutely.

So when my brother dares me to hit on women as a regular guy, I'm up for the challenge. It turns out quite a few ladies like ripped jeans just as much as haute couture. Except for one. Casey. Nothing I do impresses this girl which only makes me want her more. For the first time, I'm smitten.

Until she ditches me after a night of intense passion.

Casey

If it's possible to screw up a good thing, I'm the girl who'll figure out how. So when I get a new job, I celebrate with one last night of fun before focusing on climbing the corporate ladder.

Until my night of fun walks into the office and I discover who he really is. My firm's biggest client and my new nightmare.

Egotistical, entitled and infuriating, Andre Lavin is not making it easy for me to ignore him. In a battle of wills, we'll see who can hold out the longest.

And who is still standing at the end.

An inappropriate office romance that will have you clutching your pearls and laughing until you cry! ASK ME is a standalone romantic comedy but features crossover characters from the USA TODAY bestselling book BEG ME.

Jeannie says

Firstly... Don't bother reading 'Ask Him' as the story is revisited in 'Ask Me', so it was pointless reading 'Ask Me'. Having said that... 'Ask Me' was a much better read than 'Ask Him' the story flowed and one could see what the author was trying to achieve with 'Ask Him' but there really didn't need to be two books for this. Just saying.

Andre Levin, successful 28 year old king of the fashion world followed by millions on instagram, reaches the point in his life where being him was hard work. He was restless but going through the motions trying to please everyone. Then he spends 'one night' with Cassandra 'Casey' Michaels and he knows what he's been missing... her. But it was only one night, and he didn't even get her name or a phone number, but as luck would have it months later he sees her, she's been working for the advertising agency who works for him all that time.

Casey left her small town for the big city to escape humiliation after breaking up with her boyfriend and then having vicious rumours spread about her. She was determined to make it in Washington eventually landing a job with an advertising agency and goes out to celebrate when she meets Andre... One night.. that's all either of them can have. In the morning she leaves and begins her new job... and months later that gorgeous man she spent the night with walks in dressed like the billionaire CEO of Levin Fashions.

Andre wants her but when he realises she won't take things further they opt to be friends... but that doesn't last long. Friends aren't supposed to feel an attraction to each other like that. Can they have a relationship? Or are their worlds just too different? Casey's insecurities have no place in Andre's world where gossip reigns supreme.

Like I said this was a much better read, I wish I didn't waste time on 'Ask Him' and just read this instead. A decent read.

Isha Coleman says

Ask Me by M. Malone

Ask Me is a side of Malone not often seen, but an asset to her craft. With a sense of humor and an exuberance of heart, Andre and Casey prove that flawed can be beautiful. Andre hides behind arrogance and wealth. First impression screams jerk, but there are moments when he gives a peek into his battered heart. Casey has screw-up tattooed on her heart. She chooses to let others dictate where her happiness lies, when she's the only one who can say for sure. Malone uses laughter to drown out the tears of two interestingly broken souls. The picture she draws is one peppered with self - doubt, yet yearning to find something more. Life's shadow has a way of drowning out love's light, but fate will not be ignored.

Hart's Reader Group says

The best part of this book was the roommate. The hero started out as a bored alpha then devolved into an effeminate man who--I felt--could burst into tears watching a butterfly. The heroine was an emotional mess

and I just couldn't like her. Also, the sex was bland and boring.

Sorry. Not my favorite.

Izzybear says

Wow. This was a fantastic book. I adored Andre and Casey. They had such great chemistry. I loved their fun banter. It had me laughing out loud throughout the book. The love that Andre has for Casey and how he expresses it to her just melted my heart.

Definitely a book worth reading!

Shantel Turner says

Sweet Romance

I adore Andre! He's such a doll! Prepare to fall in love with this sweet story! Definitely a five star read!

Marky says

Meh...just didn't feel it

Didn't really like the prissy guy type, maybe he was supposed to be gay best friend..lol

Her character came across Mousey then she would be bold out of the blue, out of character

Karen says

I loved this romantic comedy with great characters and storyline. The story is well-written and well-paced with steam, humor, and awkwardness in the office. The writing flows and will entertain and amuse the reader. The characters are defined, with distinct personalities. Great read. I voluntarily read an ARC and this is my honest review.

Gloria Wenman says

Repeats novella bk1 in the first few chapters. Improved, then sagged, before bucking up only to sag again. There should have been stronger off the charts emotions pouring out of these characters, but for me that was not happening.. quite a low ebb in fact. With a bit more punch, it could have been a great read. This novel was billed as a comedy but I didn't laugh or even giggle once. I love comedy romances, but I am sorry to say this novel was lacking for me personally.

Kaydee says

Don't let fear when. Go all out for love.

I'm glad the Beg Me redo led to mire if these characters. Thus story was funny as always, hot, and very touching. Please say there will be more of Justin Gautier, James and a reveal of the reason behind Ariana's quirks.

Marsha Graniel says

You must read Minx's book Ask me! This office romance is sexy and romantic. Casey and Andre's story will have you engrossed in the story and keep you rooting for them. I love their chemistry and how they bring out the best in each other. I really enjoyed reading Ask Me and I can't wait to see what Minx will write next

I voluntarily leave an honest review of this Advanced Readers Copy.

Dawn Myers says

I had a hard time with Andre, to me he is on the wimpy side. I get that he is a dutiful son, but I wanted him to stand up to his mom. Andre just never lived up to the hype. I liked Casey, she is a hot mess. I appreciated her trying to get her life in order. In my opinion Ariana, Casey's roommate is the best part, she made me laugh. This is not my favorite M. Malone book, I enjoy suspense. There was opportunities for suspense that were not expanded on. If nothing else it was good hearing from previous characters from Beg Me.

Felice Foster says

Fantastic book. This was an all out pursuit and I am totally in love with Andre. He never wavered. From the 1st night to the last page, he was confident in his feelings for Casey. You have to love a guy like that. The secondary characters bring some nice emotional and hilarious (Ariana) moments. Hopefully a few of these characters get their own story. Worth the read.

ARC received for honest review.

Sarah says

I liked this book a lot, but didn't actually like reading Ask Him first, it felt repetitive.

Jessica says

Great read

Got a little confusing with reading ask him first but once I got past that part I really loved the book

ReadingInThe6ix says

I'm really not a fan of stories where one person is famous so this irritated me. I found Andre alright, but a little annoying. I get that he works in fashion, but his description of what people wore was boring. I thought Casey was nice enough, but again, boring.

I didn't feel chemistry and couldn't get past my distaste for the whole "famous influencer" crap.
