Love And Desire And Hate

Joan Collins

Love And Desire And Hate Joan Collins

Author of Prime Time, superstar Collins is back with a "hornet's nest of romance, envy, lust and revenge" (Kirkus). Murderous secrets and desperate passions shape the lives of those working on the movie Cortez as they are drawn into a powerful web of love, desire, and hate. HC: Simon & Schuster.

Abigail says

I read this when I was, maybe 14/15 and loved it! I have probably read this every year/couple years since. This is as over the top, cheesy, cliché, silly, soap-opera and totally ridiculous as you can possibly get. Which means it is fun! If you've read and liked: Jackie Collins, Judith Krantz, Charlotte Lamb, or Bertrice Small, then you'll dig this book.

Lm says

You can tell that Joan Collins was either very influenced by her sister Jackie Collins's way of writing, or just blatantly ripped off her style.

That being said, I have always loved Jackie Collins books - so this too was a guilty pleasure.

Arto Mutka says

I really loved this novel. It is by far the best Joan Collins novel. Great plot and over the top characters and brilliant setting in 1950's film industry which is when Joan started out in films. Really highly recommend this one for a good holiday read!

Marsha Stevenson says

OK

a typical Joan Collins book of lust, desires and lies. Unfortunately the plot seems like so many of her other stories, just different locations.

Traci Perez-Clayton says

Fast flowing, engaging from the start, a great read in a week.

Candrayu Sotyaningtyas says

hihii ... dr judulnya aja, dah taulah ceritanya gmn ...
lumayan, utk ngisi waktu, apa lagi yg suka cerita2 romantis ;p

Jackie Simons says

Read 8/99

Yoana says

One of the absolutely worst books I've ever read in my life. Strings a cliché after a cliché, almost all of them blatantly sexist, and finishes with an insolently misogynist moral. Read it if you want your brain soaked in hogwash.

Winter Sophia Rose says

A Gem Of A Book!

Rory says

Classic Smut

I had bought this book as a joke for my upcoming wedding--we're doing a library theme and using all types of books--so why not Joan Collins? I decided to read this top to bottom in a week just make sure it wasn't God awful and I loved it!!!

Every word

I love that it has the classic smut 80-90s feel--beautiful characters behaving badly, too much detail on the wealth that surrounds them and a dedication to campy dialogue. But what I really loved is that there is this period of time in the smut fiction era that ALWAYS had beautiful people haunted by the events of World War II--something real caught authors' mind back then and has not let go. It's really kind of amazing.

It won't win any awards--but it did win my heart briefly.
