Queen of Klutz

Samantha Garman

Queen of Klutz Samantha Garman

Choose the best phrase to describe Sibby Goldstein's life:

- 1) Sucky.
- 2) Really sucky.
- 3) Major suck-fest.
- D) All of the above.

I started my day with a boyfriend and a job. I ended my day with a bottle of tequila. I'll let you connect the dots.

Somehow, I wound up working as a waitress at an Italian restaurant. I have no idea what I'm doing. And I'm not just talkin' about life.

This should be interesting.

B.B. Lynn says

This book was good! I have nothing bad to say but I also won't be thinking about it anymore after today. But I'm also glad I read it. Sometimes you need a breather after reading dark or emotional books and this book was exactly that. It was funny and I loved the characters! Good, fun, light read!

Holly *Confessions of a Lit Chick* says

Bloody loved it! If you love a socially awkward, hilarious rom-com. Read this.

Viper Spaulding says

Tales of a New York Waitress is a hilarious rom-com with an adorable and quirky heroine who resists - as much as she can - falling for the hot guy who's totally into her and who just happens to be her new boss. There is not a smooth road to happiness - nothing in Sibby's life goes smoothly - but it's the bumps and the twists and the turns along the way that give depth and realism to this heartwarming story. Add in an amazing extended cast of secondary characters and you have a witty, intelligent slice of NYC life with a wonderful HEA. I voluntarily reviewed an ARC of this book.

Erika Lefkowitz says

F.U.N.N.Y!!

I'll admit it - I like an easy read. I know it's not the "smart girl" thing to say, but I was an English major way back when and I had my fill of literature that made my head spin. But this book was written for a reader like me. There was no talking down, there was no guilt in reading it...it was fun and funny and it read like I speak! Sibby could become the next Stephanie Plum for me!!

Michelle Harris says

I had some small doubts when I first started this book. I wasn't sure why everyone was saying they were laughing so much but then a couple of chapters in and I was chuckling then a couple chapters later I was trying to not laugh so loudly and wake up the baby. 3 am and I finished it after starting it this afternoon. Couldn't get enough of Sibby and all her ridiculousness. And swoon, Aiden! I loved these characters so much. I'm already twitching to start the second one. Definitely worth picking up.

Alaina says

Funny, cute, but where was the sex? I know people did it.. but where was it!

Queen of Klutz was hilarious and refreshing all at the same time. In it, you will meet Sibby and Aidan. I loved them from the moment we met. Sibby is basically a hot mess in the beginning and tequila is her best buddy. Then there's Aidan, who was completely sweet and perfect for her. Their chemistry was amazing until the last page and I really want to dive into book two now!!

Now of course this book has it's pros and cons. I laughed so much in this book but sometimes things ended up frustrating me a bit - whether it was a character or whatever the hell was happening. Then there was the lack of sex, no - they did it. We just didn't get to read about it?!?! I was a big confused and disappointed with that.

Other than all of that, I liked the book but if there's going to be smut happening - I want to read it!

Jacqueline's Reads says

45% DNF

Gah, have you ever tried on a top and wished it was a size bigger because it would have been perfect had it fit?

Yeah *Queen of the Klutz* is kind of like that. It would have been perfect except for one thing, and that one thing is it has no sex. I mean the characters do have sex, but the author doesn't write it in. Look, I don't need sex in books, I read YA and I read slow burn books, but it's a pet peeve of mine when characters have sex and it's not written in. The guy comes over and then fast forward they are putting their clothes on. Wait... did I miss a few pages? Why didn't you write the nasty?

Anyhow, non-sex aside, I really did like the book. I love that it's dialogue based and it's easy to read. I read the first half of the book while my son took his nap. I was in an odd mood funk and this book totally took me out of it.

I really like the personality of the Heroine. She's quirky, funny and the book is 100% rom-com. The hero of the book is adorable too. I kind of wished he was a little more alpha, but it's not that type of book and it's okay.

Overall, it's a cute read. I just couldn't stomach reading a book where the sex scenes are glossed over.

Brenda ?Delirious, Disjointed, Digressive, and (highly) Dramatic Rambles? says

4,5 The Heroine Made Me Constantly Want To Hide From Embarrassment But I Loved Her stars

This one was highly entertaining and the characters' development just glorious.
I loved it.

Sibby a hurricane.
Aidan a whole meal.
Beautiful.

Jacob Proffitt says

I was in the right mood and this hit the spot almost perfectly. It delivered the laughs I expected and I fell for Aidan from the start so I'm glad I chose to pick this up.

This is one of those chick-lit/romance hybrids that more or less splits the difference and doesn't flub it up. Which is to say, it's as much one as the other and doesn't really suffer from that split, I don't think. So we get Sibby going through important life transitions even as she falls in love and kind of figures things out along the way. It works pretty well, though I have an issue or two.

The biggest drawback on the romance is that Sibby is all negative motivation* and in the worst way—without having an articulated reason for being so. I kind of hated how frequently she put Aidan off and not least because it makes him look very weak (like that puppy you keep pushing into the other room). He's an amazing guy and I loved how well he got her and their interactions traded off funny and endearing in all the right ways. So I hated how little respect he seemed to be getting from Sibby.

The biggest drawback on the chick-lit was that events strain credulity a bit much. She's a klutz and manages to turn things around with humor but both the klutz and the humor are a little too (consistently) perfectly timed and the ending (view spoiler).

Still, I laughed and I loved the leads and the secondary characters rocked more than a little, too. So I'm going with a solid four stars and wouldn't hesitate to read more by the author (though probably not so much that I'll deliberately seek more out).

A note about Steamy/Chaste: There's sex going on. More than a little. And frank and (mildly) explicit talk about sex. But nothing explicit happens on-screen. So this isn't steamy. And it isn't chaste. It's one of my few romances that doesn't qualify for either tag. Which is strange but works extremely well for this story and I'm glad Garman chose to go that route.

* **Negative Motivations:** I kind of hate that the term "negative motivation" isn't widespread, yet. Since it isn't, I'm going to save off this little jag to append to my reviews that feature the term. Jennifer Crusie blogged about it a bit back and it changed how I understand story. The problem with the term is that if you've never heard it before, you'd assume it meant motivations that are harmful or immoral. Not so. What it refers to is motivations *not to do something*. The thing is that many of us are motivated to not do things for a lot of different, perfectly valid and reasonable, reasons. The problem is that *in a story* motivations to not do things are a huge drag on the plot—particularly considering the fact that most negative motivations are overcome by the character simply deciding they don't care any more (or, rather, that they *do care* and are now motivated to do the thing). So not only do you have a counter to action but you also have a situation where to overcome it, all a character has to do is change their mind. Which means eventually, the reader is rooting for the character to get over him/herself already and do the thing we want them to do. Conflict drives story. Conflict between a reader and a main character drives readers away from story.

Pattie says

Cute, funny read.

Amber Jackson says

Hilarious Tale of the Every Day Woman

I devoured this book. Like, obsessively stayed up all night just so I could finish it. Sibby could be the mascot for awkward, unlucky women worldwide. She is one of the funniest characters I've ever had the pleasure of getting to know. If something could go wrong for her, it would. Even if everything was perfect, she can find a way to destroy it. This book is about her journey to finding herself and being comfortable in her own skin and with her own decisions. The supporting characters are all amazing and hilarious. I am hoping we get to know them better in the second book. Or maybe I'll get really lucky and some will get their own books. At its core, this is a story about finding love, but don't expect down and dirty scenes like in other books. This book stays firmly in the PG-13 category. Honestly it's the only thing that really disappointed me. I personally love a good, steamy bedroom scene, but it definitely didn't detract from the story at all. I will certainly be reading the next one as soon as it's available.

Angela says

Cute

Sweet, cute, quirky. Sibby is a natural disaster. But her bad luck is endearing. Great story line. Love the characters.

Nikki Pennington says

"When life hands you lemons...Rub them all over my open wounds, and laugh?"

It was the blurb that got me with this one. It was hysterical. Anytime the blurb tells you that the main character was dumped and found her boyfriend in bed with another MAN you know the book is going to be hilarious. Sibby was hilarious. She had no idea what she was doing in life, she was like a child in a woman's body, and she was pretty much just winging life. I liked Aiden, it was clear from the get go that he was into her, and the fact that he let her run around and pretend like she didn't want to be in a relationship was endearing to me.

"Two guys don't make a right." "Two guys make a gay couple," she fired back.

Sibby's best friend Annie was fantastic. She knew all the right things to say, and she was always there to comfort Sibby with booze and sarcastic comments when she found herself in some new awkward situation.

"I'm not into blondes." "No?" "I'm into walking disaster brunettes."

Aiden was a great character, maybe a little too perfect if you ask me, I was always waiting for the ball to drop and it never did. He really was just the perfect guy. He let her string him along and take FOREVER to finally call him her boyfriend, when he really liked her the whole time. I don't know that someone like that exists, but I guess this is a book so they usually are pretty perfect. I think he had way too much patience with her, and he might have fallen a little too fast, but then again she did also, so that's not saying much.

"Are you just making shit up to make me feel better?" "I wish." She laughed. "Your better than reality TV."

I thought the book was cute, funny, and an easy read, but I didn't think it was all that fantastic. Most of the book was about different costumers she got at the restaurant she worked at, then the rest was either her getting drunk or falling in love with Aiden. It all happened REALLY fast. I think that's what turned me off from the book, I don't mind a love at first sight sort of thing, but this supposedly happened in the span of a few months, and it just wasn't believable to me. It all seemed really rushed. I did love the humor in the book and it was a cute read, but I probably won't read the other books in the series.

Overall I'm giving this book 2.5 STARS. I think this is definitely a cute read, but I guess I just like books more that rip out my heart and throw it on the ground. I want to feel some angst and I really love when a book gives me a good cry, or even leaves me on the edge of my seat in suspense. If your looking for a good pick me up this might be a good choice for you!

Dee Ownbey says

I loved how all over the place Sibby is. It's a "what in the world" hilarious book.

Jessen Elizabeth says

4.5 stars

I have to say I was laughing the whole way through this book! The characters were awesome, the dialogue was witty, the story - while not totally original - was told in a way that kept my attention throughout.

My only complaint is Sibby's obstinate nature which has her wanting to keep secrets when telling the truth would make everyone's life easier.

Overall great read and I look forward to reading more!
