Snow Angel

Thom Racina

Snow Angel Thom Racina

Twisting and turning through a nightmare of murder, accusation, and betrayal, *Snow Angel* is a harrowing, page-turning roller coaster of a read, marking the debut of a strong new writing talent. A famous television reporter arrives at her parents' home on Christmas morning, only to find them victims of a brutal double murder. And her world continues to shatter when she learns the murderer's identity.

Carol says

Feeling generous, I'm giving *SNOW ANGEL* three stars. This book is billed as a "chilling suspense" novel. Hmm, I must have blinked... a lot... and missed the "chilling" revelations. Predictable plot, author substituted frequent masturbations for lack of more interesting actions. He did include a very likable dog and kid ~ this tale's saving graces ~ since most of the other characters were unremarkable. I stuck it out to the end, rooting of course for the dog and the kid.

Colette says

CRAZY! This book takes off and doesn't stop! OMG! Read this years ago and have not forgotten it

Mad Leon says

Oh my, one of the worst thrillers I ever tried to read. Completely unbelievable and I despised the characters, every single one of them. For a 'killer' who thinks he is extremely intelligent he is made to look just plain stupid. Gack, don't bother with this.

Laren says

We find out right away who did the crime, so the only mystery is why the protagonist continues to stand by the perpetrator in the face of so much evidence against him, even to the detriment of her own marriage. Unfortunately you will likely figure that out too, leaving just an entertaining read with no real mystery.

L8blmr says

This was the first book I've read by this author and it was recommended to me by a friend who generally enjoys the same type of stories that I do. Well, the jury is still out on whether or not I will read more by this writer, as I have many books on my TBR list who are superior in this genre. Problems? Well, the villain was over the top, more of a caricature. Much of the plot was unbelievable though there was an interesting twist or two. Lastly, the "heroine's" husband went from zero to hero rather rapidly and I am not even sure she was worth it. I almost went for 2 stars, then thought 2.5 might be more fair, but I rounded up because I don't like to be too hard on a writer until I've given at least 2 of their books a chance. You're on notice, Mr. Racina.

Emily says

And again, I'm not a murder mystery person, but this was worse than the other. Some times I think it is a not a good thing to be a person who doesn't like to walk away from a movie/book, even if it isn't good.

Way too much sex and violence. Thank goodness I didn't spend money to buy this one... too bad someone else did.

Teresa says

My first Thom Racina book. And I'll have to read all of his books. It was a wonderful, edge-of-your-seat book.

Ashley says

This book grossed me out. The story line intrigued me, and I did like trying to figure out the protagonist's secret. The characters were, for the most part, well developed and believable... BUT, the bad guy really creeped me out, and it usually takes a lot to really creep me out. Also, the 'love' story here? I am not a prude or anything, and although they are not my favorite to read, I don't mind reading love scenes, but EW! This guy really creeped me out. Super obsessive, crazy, creepy stalker guy, who fantasizes about this girl from the first time they meet, and all the creepy nasty stuff in between. The main story line was pretty good, and a lot of the development between the protagonist and her husband was well written, but there was too much there that really creeped me out for me to enjoy this book at all.

Maybe others liked it better, but ew. Too much here that's just plain creepy.

This is one of the few books in my life that I honestly wish that I had not finished. Even the other books that I didn't much care for, I appreciate that I read them, and what they had to teach me (Catcher in the Rye, Of Mice and Men etc). Some of those, I might like better if I read them again. But this one, I wish I hadn't wasted my time on.

Cook Memorial Public Library says

Unusual thriller in that you know right away who the killer is, but the suspense is in how he plans to get away with it.

Cheewai Lai says

Decent twist blemished by excessive page-filler romance

Rachael says

A very good suspense/thriller. In fact, I got it from the library Monday afternoon, started reading it, didn't have time to read Tuesday but finished it on Wednesday. There's some sexual scenes in it, and I thought it

was so interesting how I could tell a man wrote the book. The sexual feelings and what happens during sex is definitely from the man's point of view. ;)

Kim Dorgan says

It wasn't what I was expecting. I was about to give up on it but it did pick up somewhere toward the end. But there were definitely areas where the author drug out the story where it could have been shorten a bit and still told the story well.

Brandon says

I didn't hate this, and I didn't love it. There was no mystery in the classic "who done it" sense, but Matthew was a rather creepy villain. His masturbation obsession was rather disturbing. The only mystery was why Julia had fallen so hard for him. The author leaves enough clues for a clever reader to figure it out rather early, but it was intriguing to finally see everything finally unfold. Some of the coincidences were a little unbelievable, but for an easy suspense book, I can't complain too much.

Jo says

I really didn't like any of the characters, so it was hard for me to care what happened to anyone.

Gale Bailey says

I found this book intriguing, if nothing else. Matthew Hinson is an interesting killer, and the other characters are believable and well fleshed out. The tabloid blurbs scattered over the book are a little over the top though, and distracted from the story a bit. An okay read.
