Tasneem says

This is not only Felicity's story, but also the culmination of the mystery surrounding Mrs Waverley and the Prince Regent. I enjoyed see the three sisters find their dream partners and Felicity and her Marquess are wonderful together, especially because they take their time in falling in love. I enjoyed the blend of irony and satire, especially about the blue stockings in society. I also enjoyed seeing the politics of the day like slavery being brought into the plot, even just as a passing reference.

Tracy Wainwright says

Enjoyed this final book.

Brigitte says

The last part was as much fun as the other two novels. Was a bit disappointed not to have a royal lineage for the girls but the plot was brilliant.

I have got to stop reading these. I took a break from them because I was sick of the formula and the style - and I saw one at the library and thought "It's been 6 months" (actually about a year) "lets try again". But no. I've read too many, I'm sick of them. It's not actively bad - I've just had my fill of them.

Sarah says

A sweet conclusion to this trio.

Annie Burrows says

Last of "The Waverley Women" trilogy. Brings the whole series to a fantastically satisfying conclusion.

Wilde Sky says

In this regency romance a ?young lady tries to find out about her family history.

The first 50 odd pages of this book were pretty dull, but then the gentle charm of the story and the odd assortment of rogues / dreamers / heroes / lovers hooked me.

Nancy Laney says

The Waverly Sisters, Book 3

Jessica says

A little old fashioned but still enjoyable.

Emma says

Whilst it's still not great, it was a vast improvement on the first book.

Review - I didn't feel that this book was as strong as it could have been, for the end of the series. I wish that more had been said after the end of the story about what happened next, as there is in the Cynster novels by Stephanie Laurens. I loved how Felicity was a writer, but that it also seemed to go against some of her beliefs about women. I loved the return of Fanny and Frederica, and the resolution of their childhoods, but I do think that more could have been said. It is just accepted.

Genre - Historical / Romance

Characters - Felicity Waverley / Fanny Waverley / Mrs Waverley / Frederica Waverley / Lady Artemis / Caroline James / Mrs Ricketts / Marquess of Darkwater

Setting - London (England)

Series - Waverley Women #3

Recommend - Yes

Rating - 16/20

It's just so difficult for me to read a Regency romance without comparing it with Georgette Heyer's books!

This one kept me reading and left me mildly amused, so it was worth a read.

Kate Maxwell says

A bluestocking wants to experience romance, even though she has never been to a ball but the popular authoress of a scandalous novel about a female rake... a rakes? What is one to do when you have a house and jewels and desires to be a part of the Season? Become your own chaperone, of course. This book was quite a fun read with Marion Chesney's unique way of coming to perfect conclusion.
