The Hour of the Outlaw Maiya Williams

When Xavier, Xanthe, Nina and Rowan are sent after a time-travel runaway to the California Gold Rush, they're faced with some of their toughest challenges yet: testy gunslingers, greedy prospectors and worse, a society that doesn't treat all of its members equally. But if they work together they might succeed.

Another enjoyable read to follow up to "The Golden Hour." This time, things are a little bit crafty as the main character of the story shifts again ... and this time, travel back to the days of America's Wild West are the setting. A very interesting twist by the author to retain the main characters but shift the setting of history.

The Hour of the Outlaw by Maiya Williams is a sequel to The Golden Hour and The Hour of the Cobra. These are great fun and will appeal to Middle Readers. Besides the grand adventures, the author slips in history in a way that the reader won't even know they are learning. I love the time travel aspect of the books and that the kids are really responsible human beings. The other characters are quirky and a lot of fun.

Not as good as the other two books in this series, but still a fast-paced, fun read. It's sci-fi meets historical fiction, an excellent combo.

Nice mid-grade read.

This young adult book is #3 in a series called "Golden Hour History Detectives". It's a rather unique time travel series featuring 4 teens, time detectives, whose trips back in time are organized and supervised by adults. The teens are two sets of siblings who range from age 11 to about 15. One set is white and the other set, twins Xavier and Xanthe, are brown-skinned, of Jamaican descent. The time travel is done at a deserted and decaying resort hotel and the time machine is a sort of elevator, called an alleviator, run by OTTO, which stands for Official Time Travel Operator. I know I'll think of that every time I see the word Otto on an elevator!

In this story the foursome travel to the Wild West of the Gold Rush days in the 1850s in search of a teenager who just might change history. The story is logical and all the ends neatly tied up plus it's an excellent adventure! The only thing that bothered me was that it was set in the racially tense days just before the Civil War when free people of dark skin were suspected of being runaway slaves. Although the teens were warned of this, they really had no problems and were treated with respect. I now want books #1 "The Golden Hour" and #2 "The Hour of the Cobra".

Another Amazing Adventure in the Golden Hour Series. This book takes the Kids out west to the Great California Gold Rush. On the plus side they won't need Translators. But the Young man that they set out to find dosen't want to be found and what's worse he has run off with his own Grandfather, endangering his own exsistance.

This was by far the most exciting in the series so far and is well worth the time it takes to read it.
