## **Something More** Jenna Tyler

Rebecca Michaels has finally grown tired of her monotonous life and is ready to make a drastic change. Now that her daughter, Charlie, is away at college, there has never been a more perfect time to make it happen.

Packing up and leaving behind all she's ever known, she eagerly ventures out in search of what the world, outside of this dull town, has in store for her.

When she first encounters Andrew Chambers, a mysteriously sexy and seemingly wealthy stranger, she doesn't think she will ever stand a chance with someone like him. Little does she know just how wrong she is or how fierce an attraction the two of them would immediately share. Although, lavish attention and on-demand orgasms are not something she's going to complain about, the speed and intensity with which Andrew pursues her is almost more than she can handle.

Rebecca Michaels wanted an adventure, but the one that awaits her isn't necessarily what she had in mind.

### Tia says

This was a refreshing change from all the 20 something stories out there because it dealt with a 40 year old empty nester. Becca decided to move cross country and leave her now college age daughter and ex husband to carve out a new life for herself. After moving into her apartment she makes friends with a girl who works at the local bookstore, who just happens to live in her apartment. While out getting coffee one morning she literally runs into the most gorgeous man she's ever seen, and spills coffee on him to her dismay! She and her new friend head out to the local bar and he's there and she runs smack into him when coming out of the bathroom! There's attraction between them and they agree to a date.

Is it possible to find someone so perfect you and know it from the start? Is 40 to old to try to find true love? Will her daughter be supportive of a new man in her life? Will Drew be able to accept a grown child?

This book is also a panty wetter as well as an awesome romance!

4.0 Stars ☆☆☆☆

*Jenna Tyler's Sexy, Quirky, Funny Debut Novel – Something More*

*Becca Michaels has left all things from her past in her rear view mirror when leaving Florida, and relocating to Portland. For the first time in 19 years she is making decision for herself, moving and starting over in an effort to be truly happy. With her daughter Charlie grown and attending college, 40 year old, divorcee Becca is starting over. Getting settled in a new apartment, starting a brand new job, and looking for new friends, she's ready for anything. A bonafide, self professed book junkie, Becca still believes in Happily Ever Afters, even though she has yet to find hers. A trip to the fabulous local bookstore turns out to be one of the best decisions she has ever made. Enter Drew Chambers, eligible bachelor, successful business man, sexy, sweet, sensitive, and stalker extraordinaire.*

*Something more, is not a slow build; it's almost instantaneous in its chemistry and sexiness. It's a story about taking risks, letting go, and allowing yourself to be loved. I love Becca, mostly for the fact that she is incredibly real, sarcastic and feisty. She's a real woman with real thoughts and fears, she's anal retentive at times and its quite humorous at times. Drew, well he is just perfect, almost too much so. I found myself sighing, swooning and fanning myself throughout the entire book. He is quite possibly every woman's fantasy. The connection between Becca and Drew is instant, and undeniable. Their attraction is so strong neither is able to resist, even though Becca really does try to play hard to get.*

*Something More, is a fun, sexy, fast read that will leave you feeling happy, and hopeful about finding your very own Happily Ever After, with your own Drew Chambers.*

Jenna Tyler has set the bar very high for her writing career. Something More is a great read and I couldn't put

it down. It skips over the teasing buildup and jumps right into a whirlwind romance. I cannot wait for more novels from Jenna Tyler.

Finally a book that recognises women over 25. Rebecca, at 40 years of age, decides to move 1000 miles to re-start her life.

She finds love and hot, hot, hot sex with Alexander. It's a story, and it is a good, readable, story. It was more believable simply because she is an 'older' woman.

For nearly 25 chapters the book was a solid 5 stars, unfortunately I wasn't as happy with the surprising twist just before the end.

Even so it kept me awake reading my kindle under the duvet till 3am.

Well this was rather delicious. Hot and sassy. This story didn't mince around at all.

Got right to the nitty gritty of 2 people enjoying a connection that read like an instant emotional and physical connection. It was refreshing to the point of leaving me with the thought of why the hell not.

Fantabulous saucy debut Jenna, a really refreshing read!

Definitely deserves 5 stars. Author Jenna Tyler tells a modern day story of a mom who wants the fantasy! She loves to read romances and refuses to believe that life can't be like them. She leaves all behind in search of a fresh start never expecting life to take an almost immediate turn into an adventure into that fantasy with a totally hottie name Drew. He's everything she's Dreamed about and more. This is one of the best books you will read this year! Loved her story telling and her characters you will too!

Jenna Tyler delivers a fantastic five star debut novel with SOMETHING MORE.

Bored with her life, middle aged Rebecca Michaels packs up everything and leaves sunny Florida to find a fresh start across the country. Landing a new job and new apartment, Rebecca finally feels like everything may be falling into place. The last thing she expected was to catch the eye of local celebrity hottie Andrew Chambers. Rebecca's used to taking things slow and Andrew's made it perfectly clear that he's not a patient man. Letting go of control and trusting again has Rebecca on the ride of her life. But is it a ride she is ready for? Is she really ready for Something More?

I give it an AMAZING FIVE STARS!! Can't wait for more from this talented author! BRAVO JENNA!!!!

### **The Book Fairy Reviews says**

A story of new beginning that rival all of our imaginations. I mean how many of us have day dreamed about picking up and starting over in a new city or town and seeing what fate has in store for us. Will it be for the better or the worst? It is the excitement that has us all day dreaming. Will we find the prince charming or book boyfriend of our dreams? I love that Jenna has taken that fantasy and given it room to grow even more in our minds.

Rebecca has decided that she will be chasing her dreams of the Something More that she is looking for. The excitement of starting a new and the adventures that a new city and new people will give her. She didn't realize that all of her dreams would come true with a hot Book Boyfriend to boot! Andrew Chamber is that amazing book Boyfriend of her dreams that is all hard flesh and sexy abs.

The attraction between and Andrew is not only incredibly intense but amazingly beautiful to read.

Rebecca and Andrew heat up the pages with their passion but bring you to happy tears as they grow in their relationship.

I love how Jenna throws in a twist, not just any random kind of twist but a jaw dropping and new kind of twist that makes this book even better because of it. Yeah you have to read it to really appreciate it's awesomeness!

This book has everything! It is funny, quirky, sexy, romantic, heart breaking and yeah did I say passionate?!?! Oh and the twist at the end....AHHH! Loved every sleep deprived minute of it!

### **Raina Cramer says**

This is a nice, romantic, steamy read! I like that Rebecca is a realistic character like your every day attractive female not some model unreal looking person and her age is more appropriate.

She loves to read her romance & longs to have her real life romance like she reads about and who doesn't?

It's written very well and does have a surprise toward the end lol however Im glad it ended the way it did.

I read this after an ugly cry read and this was just what I needed!

### **Kim Ginsberg says**

I would definitely refer people to read this. I loved it! From beginning to end it leaves you wanting more.

The last chapter makes you go, huh?!?!?! WTF just happened! It was perfect. I so wish there was more, but alas, it is a stand alone so there isn't more. It has everything from romance, love, sex, and a tad bit of drama.

Go one-click it if you want something good to read.

## **Jennifer says**

"I know I would do anything for this man and it appears he would do anything for me. There's just something about him. Something mysterious. Something exciting. Something more."

I loved this debut novel by Jenna Tyler. Something More is a whirlwind romance that we all dream of. Mr. Chambers made my heart pitter patter from the beginning. I admired Rebecca's courage at moving across the country and starting life anew all on her own.

Rebecca is a simple, independent woman. She finds herself drawn to Andrew on a chemical level and can barely contain her attraction to him. Her head and her heart fight each other; her head warning her to go slow and her heart driving her to jump in head first.

Andrew is ambitious man focused on his career. He's never really wasted time on dating until he see's Rebecca and has no choice but to get to know her. He's drawn to her in a way he's never experienced before. When he starts to get to know her he finds himself wanting more and more. He sees no reason to move slow because he knows what he wants.

The twist, of course there is a twist, made me say "you b\*\*\*h!" out loud to the author, as if she could hear me. I expected a twist but not this.

Something More is excellent and even more so it is a debut! I'm excited to see where Jenna Tyler goes from here!

This is a must read! I have to be honest and say that a book has to grab my attention fast in order to continue reading, and that is exactly what this did! it was an easy, erotic, fun, sexy read and I have to give it a 5 star. I sure hope there is more to come from this new author as she is on point!

Rebecca (Becca) Michaels decided she wanted something different, and finally being able to move on and be herself again, not just mom or the single, she decided to ,move from Florida all the way to Seattle. Yep pretty drastic. With her job lined up and her small apartment decorated, she had two weeks to relax and have some fun. What she didn't know was she'd meet someone special and very well known in Seattle. Will she fall for this younger man? Will she live wildly and experience new.... things?

I absolutely love Becca. Being so outgoing and adventurous. She finally gets to act young, experience life. I mean your life can't be dead at 40. Come on. Drew was a very debonair guy who made me wonder. I loved the first date. Who goes on a hike for their first date? Made me smile though.

18+ for sexual content and strong language. Romance/contemporary

Reviewer for paranormal romance and authors that rock and Jenna Tyler
