**Ballistic** K.S. Adkins

My name is Lina Tomek.

I have a laundry list of issues, but the biggest is simple: I am a human lie detector. Literally. It isn't something I picked up on the streets or a cheap parlor trick someone decided to teach me. I was born with this curse and made a career out of it.

Now I live in the depths of loneliness, rejection, and abandonment, all because I know what a lie feels like. Truth be told – and with me, it always is – it's driving me out of my mind.

You've already met my friends Venessa, Macy and Jules, but the fight for our city didn't end with them. In fact, it was gearing up. Detroit needed to get right, and I knew I had to light the fuse, even though it meant embracing the ability I hate.

Blinded by my need for the truth, I made a deal with a tall, determined, ultra secretive male rocking designer clothes and lethal eyes. His name is Anthony Gallo, and though he spoke no lies, I could still sense a hidden agenda.

Turns out that agenda is me.

When a girl with nothing is finally given something she knows is real, you best not try and take it. To protect it she does what any girl from the streets would do...

She goes ballistic.

An actual wrap-up is good for a series! Lots of fun and even more insight to the other ladies.

### Charli says

A truly brilliant & perfect ending to this incredible series.

KS is the master! What an Epic book for the end of an incredible journey! I love the chemistry between the characters. I love how the book grabs you from the get go and does not let go till the very end. What a fantastic journey!

I really liked this one too but I'm a bit sad because I have to say goodbye to these guys. I really liked Lina and how she grow to love and trust others. Perfect ending to perfect series. :)

Adkins knocked it out of the park!

My favorite series for sure this year, in the conclusion of her master piece Lina and Anthony will take you on a nail biting journey.

It's not often you read a book and feel the characters, I mean really relate, there was something about this story that I connected with. I made quick work of finishing as I read every single word and couldn't put it down.

As the story concludes I find myself sad and lost. I looked forward to every bit , I sucked it in, I held it and retained it and I need more.

I'm not ready for this to be over, but I'm hopeful KS will pull through like the awesomeness she is and write me something else I can obsess over.

Another winner!!!! This chick kicks ass.

**Except the truth."**

Human lie detector! Not with me, please! \*Lol\*  
She would call BS with my 'Good morning' \*LMAO\*

**"Because you choose to tell lies and believe them, you've changed the course of your lives.  
Deceit is your ruler now because you refuse to see the truth.  
Welcome to the real world grads; the truth is most of you won't survive it."**

If you're looking for a sweet feminine heroine, it's not the right book.

**"I am no one's savior. You want to be saved? Go to church. I hear they give you bread and water."**

**"You can't trust perfect because perfection doesn't exist."**

**"...love isn't for everyone, but cock is."**

Good hero. The best of 4! Great man!

**"A real man would never hurt his woman, Lina."**

Update for my friends because of the 1st book and its h Vennessa:

**"I think of her as a friend," I (*hero*) defend, needing her to understand my motives. "Yes, I made her think I had interest but that was only to set her in Rogan's path. I knew they needed each other and gave them both a push."**

I shelved it as safe, but it wasn't clinical safe, because of the.....  
#you'll-never-believe-it  
..... because of the h!

(view spoiler)

This one is light on drama, compared to 3 previous books.

Cute epilogue. With babies!!! \*lol\*

If you're looking for a different read with untypical heroine – strong, unapologetic, brutal, sassy, damaged, loyal, a bit vulgar, unique – it may be a right book for you!

**"I don't believe in premonition, I believe in ammunition."**

This series is truly a piece of art.

4 crazy bitches planning to smash the web of corruption in Detroit. 4 epic books. A fantastic journey!

If you like rough and gritty dialogs, hilarious characters, hot sex and thick plots, you will love DETROIT AFTER DARK by KS Adkins.

Brutal, book 1, is Rogan and Venessa's story - a raw alpha male meets his match alpha female...

Brawler, book 2, is Rafe and Macy's story - a fairy tale romance done fucking Detroit style...

Berserk, book 3, is Max and Jules's story - buy a bottle of Boones farm before reading!

Ballistic, book 4 – Anthony and Halina's story - perfect ending to a fantastic and unforgettable series...

If you still haven't read them then you don't know what you're missing, because this series is raw, perfect, just brilliant.

KS Adkins is an amazing author, she writes from her heart and soul and I can't wait to read her next book, 8 MILE & RION...

Playlist recommended: Eminem.

Wow! What an excellent conclusion to what has got to be one of my favourite series'. Totally kick arse and completely unforgiving I've been on the edge of my seat and shouting at the kindle the whole way through...then brought to tears at the ending. I'm going to miss Venessa, Macy, Jules & Lina and can see myself rereading these :)
