**Uncharted Territory** Carolyn Ridder Aspenson

A Five-Star Rated Mystery!

Grab a latté, a box of Kleenex and a clean pair of panties. Carolyn Ridder Aspenson has done it again.–Lynn/Two Girls & a Book

Suburban housewife Angela Panther didn't want to communicate with the dead, but the universe had other plans...

When an unidentified fourteen-year-old boy takes a dive off an interstate overpass, to solve the case, Atlanta area detective Aaron Banner calls on some unlikely help—from psychic medium Angela Panther. Banner knows she's legit, and knows she'll get to the truth about his junior John Doe—was the boy's death suicide, or murder? The problem is, the spirit can't remember who he was or the night he died, and to make matters worse, he doesn't care. Instead, he convinces Angela to focus on another spirit, one different from Angela's usual, garden-variety ghost.

To complicate matters, Angela's best friend Mel, newly single and on the prowl, has her sights set on the sexy Detective Banner, and Angela's mother drives her even more crazy dead than alive.

To solve the dead duo's dilemmas, armed with little more than their double lattés and a tiny pink bottle of wannabe pepper spray, Angela and her sex-starved sidekick Mel must venture into the dark underbelly of Atlanta and come face-to-face with a gang of saggy-pantsed hoodlums ready to take them out. Will they make it out alive, or end up pushing up daisies alongside the spirits they're trying to help?

In UNCHARTED TERRITORY, AN ANGELA PANTHER MYSTERY, Carolyn Ridder Aspenson's witty dialog between psychic medium Angela Panther and her best friend, Mel will keep you laughing out loud, while the tear-jerking scenes between the living and dead will leave you hoping the connection with those we love is never lost.

## From Reader Review Uncharted Territory for online ebook

### Pam says

#### Psychic Panther

I now am I search I the first two books in this series! Angela and her sidekick Mel are a perfect team along with Mama Fran of course. The author does a great job u developing the story and going into just enough detail for the reader to actually visualize and become involved.

---

### Jessica King says

#### WOW!

I just finished this and am blown away by the characters and story line!! It totally caught me from the beginning and held me till the end. I can't wait to start the next one!!

---

### Dorianne Swift says

#### This is a must read!

While completely not within my usual genre, this story-which can be read as a stand alone, but will hurry you back to get the 'rest of the story', made me laugh side-splittingly at times, especially at the crazy antics between Angela, Fran and Mel. I highly recommend reading this tale if you are looking for a 'get your mind off things', funny romp on the-mostly-unseen side of life!

---

### Marisa says

I really liked this one. It was a fantastic mixture of humor, crime and a friendship that is going to make it through thick and thin. I try to save my five-stars for books that have challenged me or changed my thinking a little bit, but otherwise this would have merited a top rating. It's the perfect book to take on vacation when you want a story that's intriguing without killing you if you need to put it down for a little bit.

Angela is practical, stubborn and has a mother who is lovingly over-involved at times. The description of the afterlife is pleasantly comforting. I liked Aspenson tendency to be flippant about what happens after death. It is a great reminder not to take things to seriously and to make time for the things that really matter in life...without getting too mushy.

Warning: Contains some violence

Who should read it? Folks looking for a fun mystery with a paranormal, and funny, twist.

Please note: I received a free copy of this book in exchange for an honest review courtesy of Sage's Blog Tours.

### **Marilyn says**

#### **Good**

this story is one that has a woman and her mother ;son all connected by be able to see people.

---

### **Lily says**

#### **Ghosts can be funny**

Once I started reading this story I couldn't put it down. Characters are funny and serious. Helpful and causing confusion. I really like this one a lot

---

### **Charleen says**

#### **Keep up the great work!**

The story was great. I was hooked from the beginning to end. Keep them coming they are so ? the humor and storylines. Thank you.

---

### **Jeri L says**

#### **She Sees Some Interesting Spirits**

I just finished Book 3 in the series, and sincerely hope there are more to come. I love the friendship between Ang and Mel. Ma is a kick and the way her character has evolved is hilarious. It's fun to read about a family who loves each other, even as they bicker.

---

### **Dawn Barton says**

Great series!! Wish there were more. A lot of laugh out loud moments!!!

---

### **Trudi Jorda says**

Another enjoyable tale from Carolyn Ridder! I sometimes wonder if she is able to talk to the dead. She gives Angela Panther so much empathy and a true desire to help the dead if not the living and she keeps growing in her skills and that empathy! This time it involves children and the nearly dead. A true good read!

---

### **Debby Long says**

I have never read any thing like this book. I could not put it down and I fell in love with Angela a psychic medium, her ghost mom, her best friend Mel and homicide cop Aaron. (Everyone should be so lucky as to have a friend like Mel.) Most of the time I had a smile on my face and tears running down my cheeks. What this lady does is touching, scary and wonderfully amazing all at the same time. I can't wait to read more of this series. Who would have thought death and ghost could be so much fun.

---

### **Diana Sue says**

Another thumbs up! This series is consistently great, love the characters witty banter.

---

### **Janet says**

very good

---

### **Rebecca says**

[She hides her ability and her son's from her daughter, runs around telling other people, and expects this not to get revealed to anyone? She's an idiot. No wonder the daughter has had issues, being kept out of the family that way. Why does she think mom knows and helps cops? It just doesn't add up. Is the son also required to hide seeing grandma?? (hide spoiler)]

---

### **Georgianna Simpson says**

The Angela Panther Series...what can I say. For those of you who don't know me, I'm somewhat frugal. My husband would disagree, but since when is a husband happy about his wife's spending habits? I read the first two books of this series and went to Amazon and bought them for a friend. How's that for a recommendation?

Uncharted Territory is the third book in this marvelous series and is every bit as witty and wonderful as the first two. I was thoroughly entertained by the dialogue and characters. Carolyn Ridder Aspenson is a gifted author and I hope this series continues for a very long time. I'm now a fan!

Angela Panther is a lacrosse mom (aka soccer mom) with two children and a sexy, simply loveable and wonderful husband (yes, I'm so envious! LOL). She has a teenage daughter Emily who has given her fits with her angst and issues (I'm so not envious, been there done that.). She also has a son around age 10 who's wonderful, loving and respectful, plays too many video games (pretty realistic, huh?). Oh yeah, Angela can see and hear dead people!

Angela could do this for awhile as a child, but the 'gift' faded for most of her life and she forgot about it. Then her mother passed and suddenly there it was again. Hopefully, you'll also read the short synopsis of the first two books, probably before or after this. Suffice it for now to say she's struggling with this 'gift'

---

changing her normal life to something...well...abnormal. Yeah, it seriously would!

In this book, Angela works with Detective Aaron Banner to help solve crimes and deaths. In the previous book, Unbreakable Bonds he witnessed her gift firsthand and asked her to help him, unofficially and unpaid. Her best friend Mel, recently divorced, is one of the main secondary characters in the books and the relationship is absolutely entertaining and serious fun! Mel is witty, wild, hurting and horny. The two together with her dead mother, vastly surpass the wit and humor of other well-known detective-mystery type series characters (aka – Stephanie Plum), at least in my humble opinion.

The team tackles the cases of a young ‘thug’ who died from the fall off a bridge. Did he jump, was it murder? He doesn’t remember... Another case is the girl in the white gown, who disappears before getting to give her much information, is she actually dead? This and much more make this book a completely entertaining and wonderful read.

Grab a great drink, snacks! Jump onboard the Angela Panther train...ride along and watch her develop this marvelous talent. Don’t forget the tissues, there tears both happy and sad, but totally awesome coming!
