Unexpected Amity Cross

This edition combines Unexpected #1-3

Blair is looking for an escape.

West is looking for a connection.

One down and out woman. One isolated rock star. Life at the top is lonely, but so is life at the bottom.

Blair is just looking for someone to take the edge off her crappy life. Dull the pain, breathe a little life into her neglected body. A chance meeting at a bar leads to a night of passion. No names, no personal details. Just sex.

Well, it wasn't personal until she sees the guy standing on a stage ten meters in front of her. How the hell didn't she realize that the guy who blew her mind is the guitarist out of that dirty rock'n'roll band, Affliction? And why is he chasing her down the street? And how does he know her name?

Sometimes you find the things you didn't even know you were looking for in the most unexpected places.

Rebecca says

I'd never heard of Amity Cross until a request for review for a blog tour came in and the blurb intrigued me. When I looked 'Unexpected' up on Amazon the warning; This book is EROTIC ROMANCE and contains a lot of descriptive sex, strong language, lickable rock stars and one a** kicking female lead, sold me completely so I signed up!

So, did it match up to the blurb and warning expectations I had?

In many ways yes.....

I liked her writing style, the book is full of profanity and descriptive sex but doesn't feel superfluous or overdone. Her characters are warts and all real, I particularly like Blair - a sassy smart ass who takes no shit off anyone - my type of gal!

One down and out woman. One isolated rock star. Life at the top is lonely, but so is life at the bottom. Blair is just looking for someone to take the edge off her crappy life. Dull the pain, breathe a little life into her neglected body. A chance meeting at a bar leads to a night of passion. No names, no personal details. Just sex.

Well, it wasn't personal until she sees the guy standing on a stage ten meters in front of her. How the hell didn't she realize that the guy who blew her mind is the guitarist out of that dirty rock'n'roll band, Affliction? And why is he chasing her down the street? And how does he know her name? Sometimes you find the things you didn't even know you were looking for in the most unexpected places.

When Blair and West meet she just wants to scratch an itch and escape real life for a while so even though it's phenomenal and the chemistry is off the charts hot it's just a fuck, nothing more, nothing less. She doesn't expect to come face to face to him when attending a concert, and sure as hell doesn't expect him to chase her!

He was hot. Smoking, knee-weakening, pussy-throbbing hot.

She's feisty, sassy, rude and abrupt - but the exterior is hiding the lonely girl wanting a purpose to life and someone to share it with while never believing that's a reality she will have.

West is the bad boy rocker who has addiction issues, at times he's a prick you want to stab and then at others he's so vulnerable and broken you want the glue to put him back together. From that first night he feels a connection he wants to explore with Blair. Left high and dry but with a plan to seek her out he's surprised to see her at the concert but determined to take advantage of an opportunity.

Dark and Dangerous & Wildcat do not have a perfect rock star god meets pretty girl story. It's rocky, it's broken completely in places and it was a page turner all the way through with no skimming.

"I'm a bitch because I can't be bothered trying anymore. Not when my efforts are rewarded with being treated like trash. Someone to be used, fucked and tossed out the morning after. My entire attitude might be seen as a cop-out, but I was so fucking tired of clawing my way out of the shit pile. People get to a point where they can't take anymore. Hope, faith and all that...I've learnt the hard way just to let it go. Some people don't get their happy ending, no matter how deserving they are or aren't. Real life's a bitch and so am I."

So why a 4 star not 5 star read?

The foreplay was phenomenal, an orgasm was had but no multiples!!! The last part of the book felt rushed, tied up with a pretty bow, but did a disservice to the rest I felt - it left me a little "meh, was that it?" as opposed to "OMFG". It's a good book and I'd read more by this author. I love the unapologetic characters, I love the profanity, I love the hot sex, I just needed a little more for the finale and that multiple.....

Jennifer Hines says

I received this book free from Book Enthusiast Promotions in exchange for an honest review

Blair was in a rut looking for an escape, but never expected the one she got. She wanted a night to lose herself in someone else and found he wasn't so easy to forget, nor easy to lose.

"He kissed me like I was his lifeline and all it did was scare the hell out of me."

West wanted a connection, but he settled for the sexy woman who picked him up in a bar, and unexpectedly found what he'd wanted. She brought out a side of him he'd been searching for, and no matter how far or how fast she wanted to run away, he refused to let her. If she ran, he'd chase.

"You're not a groupie, Blair. I'd never treat you like one."

Lust gets confused with love and a rocky relationship spirals out of control. Blair and West each have their own secrets, their own sordid pasts. The problem is that one will share and one will keep theirs hidden. When all secrets are revealed will it be enough or will the broken heart caused by the lies of omission never heal?

"I wasn't sure how I was going to get through another two days. Two days of pent up rage. The moment I laid my eyes on Jake West was the moment I beat the living shit out of him."

Sexy rock stars are my weakness so I was very excited about reading this, but for me, it fell flat. Too much angst. Two fucked up people trying to fix each other with whiney drama to fill in the in-betweens. And the Happily Ever After felt more like a Finally Content to me.

My Favorite Moment: Blair sitting cross-legged in a dark and empty venue watching Affliction 's sound check.

"I could make out the smile on his perfect as fuck mouth and I wanted to run to him and kiss him fucking bat shit crazy."

Jessie says

4.5 Stars

The Unexpected Trilogy – Complete Collection 1-3

This author is new for me and I have to tell you that I will be keeping her on my list of author's to read. I'm usually a little apprehensive in checking new authors out, but I go with my gut after reading the synopsis of

the book. So far, it hasn't steered me wrong yet.

It's got a hot, rock star with tattoos and a girl that pretty much keeps to herself because that's all she has and can depend on. She's learned to survive and get by. But one night at a bar, planning on a one night hook-up, she meets "Dark and Dangerous".

Blair Hayden has a job as a receptionist at a tattoo shop, barely makes ends meet and definitely doesn't want anything more than one-night. She likes it that way. Makes her less vulnerable and anything more would mean leaving herself open to being hurt and left alone. Just like it's always been. I admired her strength. She's hard, tough and also has a smart, dirty mouth. She tells it like it is and doesn't sugarcoat anything.

Jake West is the lead singer of the band Affliction. They are pretty well known and on a break when Jake meets Blair in a bar. He's been out of rehab for a few months and still working on dealing with some inner issues. Their chemistry is instant from the beginning. They are both at the bar for one thing and one thing only. No names are exchanged either. But fate has other plans for these two. And you have to get through the hard, rough patches and the times that test your faith before the sun shines bright again.

"If it wasn't for her scent sticking on my skin and the claw marks all over my chest and back, I would've sworn that woman was a ghost. She was the most dangerous downward spiral of them all and I'd enjoyed every single second of it." ~ West

I am a sucker for romances that are totally unexpected. The pulls and pushes and heart wrenching moments just get to me. The Unexpected Trilogy sure delivered everything I want in a book that's placed in my hands. The characters were real and believable to me. The storyline flowed perfectly, too. It was hot at times and other times I wanted to crinkle the pages. But it was my Kindle, so that wouldn't have worked out. I highly recommend checking this author out!

Bookworm Betties says

Part One ~ Unexpected

He kissed me like I was his lifeline and all it did was scare the hell out of me.

"You won't regret it," he whispered against my mouth, before kissing me again.

I didn't know what it was he was looking for, but whatever it was, he obviously thought I was it. Either he was fucking insane or I was blind.

Part Two ~ Unexplainable

"I don't know if I can handle your life. I was nothing. I was nobody. Everyone wants you. I'm afraid I'm not enough for all of this."

"I know it's hard. We're both learning, but we need to do it together."

"How can you be so calm about this?"

"Fuck, I'm freaking out just as much as you are, beautiful."

"I don't believe you."

"I want you to be mine. Whatever it takes."

Part Three ~ Unintended

My body cared about him, but my heart wanted to bitch slap him from here into next year. What use was caring for someone if you couldn't trust them? I didn't want mindless fucking anymore. I didn't want mindless anything. I wanted to fill my heart up with someone and them to fill theirs with me in return, but all I seemed to get was a hollow ache.

★☆☆★ 5- the dark side of Rock Fame- Stars

~this review may contain minor spoilers~

this unexplainable thing between West and I was worth the risk. Worth the fucking assholes printing stupid shit about us in the papers and hounding us for photos. Worth the groupies trying to grab his cock in front of me. It was worth it, because at the end of the day, West was mine and I was his.

It was only supposed to be a one-night stand.

She was only looking for an escape from her crap life, a way to numb the pain.

He was looking for a connection, for someone to see past who he was.

But they both got way more than they bargained for as two damaged people find the one other person to make them feel for the first time. But a love like theirs comes at a price; the road is far from easy as one battles their urge to run and the other replaces one addiction for another, media vultures are all up in their business, groupies are constantly throwing themselves between them and those they thought they could trust go out of their way to keep them apart. With everything working against them, how will they ever find the happy ending they both so desperately need?

“I don't know what it fucking was last night, but you brought me back to life.”

What the fuck? How could I bring someone back to life? Plain, nothing, nobody Blaire Hayden? This guy was in a fucking hot as hell rock band with the world at his feet and he wanted me? Was he fucking high?

Now this is exactly how I like my romances ~ gritty, raw, dirty, damaged, foul and slightly screwed up. From start to finish these two had my complete attention. West broke my heart with his desperate need to just connect with someone, to be seen as more than just a rock star that everyone wants a piece of. Blaire was... well she could be a pain in the ass. She did grab a hold of a piece of my heart, and I did feel for her- she did have some crap luck in life, but boy did that girl frustrate the shit outta me at times. I did however love her mouth, I though I cussed like a sailor but she put me to shame. I'm glad that I came across this series in trilogy form, with the way the books left off -especially part two, I think I would have gone completely crazy waiting for the next part. Being able to read them back to back was pretty damn addicting; lots of drama, a whole lotta crazy-hott-angry sexy, plenty of angst and tears as well as some heartbreak and redemption. It was a helluva journey, one I would recommend to anyone who likes a little bit of pain with their romance, one that landed Amity Cross firmly on my One-Click-Addiction List and I cannot wait to see what she brings us next.

I'd been fighting it every step of the way, afraid I'd lose what little of myself I had, but I couldn't deny it anymore.

I'd fallen completely and utterly for Jake fucking West. This was no longer just about sex.

Check out my FULL post @ Bookworm Bettie

Happy Reading xo Jenn

Mary says

Whew, I wasn't prepared for this amazing and intense ride. Yes, the Unexpected Trilogy is completely unexpected and worth sinking your teeth into IF you LOVE no holds barred women that say whatever they want without any apologies combined with a super sexy broken alpha male that takes no prisoners while he melts your panties, this book is for you. Blair has perfected the bitch persona to protect herself then she crosses paths with Jake, someone that breaks past this disguise at the same time loving her disguise. Jake is a famous musician that allowed the life style pull him down but now he is trying to find his way out of it. Blair sparks something in him that he had forgotten so after an amazing rescue scene, can he convince her to go with him on tour?

Blair comes from an abusive childhood and has learned that no one comes back to her so she decided to just keep everyone away to avoid the hurt. Going on tour with Jake is a huge leap for her and everything is great with the mind blowing sex but then Jake's work world keeps them apart and distance is created. (Of course, as we continue to read we find out that there are people orchestrating this distance.) Jake then commits the unthinkable against Blair which forces her to leave. Can Jake find his way out of this new downward spiral to win her back? Is Blair willing to open her heart again to even let him try?

Louise Seraphim Reviews says

I was given a copy of this book in exchange for a fair and honest review

Well, that was one hell of a fiery, charged and unbelievably raw trip.

This book is originally 3 separate novella length stories, the trilogy put together made this full length book. I was extremely lucky to be able to read this combined edition, if I had been reading them separately, it would of been hard ending the story each time. Those individual parts ended on some shocking bits, and luckily this edition just ran straight through. Which I think made it a smooth and an intense novel in full.

West. Frontman of the band Affliction, is searching for something. Although he seems to have looked in all the wrong places, from booze bottles to drugs to women. He is a mess and lacking some sort of connection in his life.

Blair. Feisty, and wild is looking to escape her self and her life. She tries to do this through meaningless encounters until one such encounter ends up changing everything.

West and Blair seem to be hell bent on riding through life the only way they know how. They are both quite self destructive in totally different ways, yet one thing that links them both is a need. The need to be cared for and wanted for who they really are. Although neither is very good at admitting things.

Blair tries not to let West in, she runs and hides but this time West wants more and West will fight for her.

It was such an emotional background, although it was made edgy and raw by the constant heat between them. They bounce off each other with their sharp wit and the tour scene is full on, yet beneath it all they are another couple trying to make things work and there is a lot of things thrown in their path.

Right from the start I knew it wouldn't be a normal romance with some good sex scenes thrown in. The hard edge and tough attitude of Blair was funny and addictive to follow. She never messes about, she will tell it exactly how it is and that was really refreshing. There is still the intense and smoking hot sex between them, but the atmosphere the rest of the time is still just as charged.

I loved how different Blair and West were from any characters I have read recently. Especially Blair, I did feel sorry for her, so many times. But I loved just how strong she was and wouldn't take any crap from

anyone. It was funny and kept me glued to the story. Of course, fantastic ending! I was gripped right till the last few pages, waiting to see what the outcome would be. I wasn't disappointed, the ending was exactly as I hoped it would be and much more!
Fantastic Book! Really enjoyed this!

DawnMarie Carpintero says

5.5 Awesome Stars

I was happy to receive this book for my honest review.

“All I ever wanted was for somebody to see me”

Blair (Wild Cat)- pretty plain and a firecracker

Dark and Dangerous (West) –Hot and Sexy A prick at times

West and Blair's journey is one that you will want to take over and over again in this AMAZING, FANTASTIC, AWESOME and Compelling read. Both dominants by their own causes they take ignition to a whole new level not to mention lift off. The sex between these two is ice worthy and sprinkler ready.

The movie Pretty Woman comes to mind especially when Blair doesn't get why (West) wants to know her name and more about the woman that he sees. She refuses to see herself as anything but a dominant for one night in this man life. They both rock one another's world to the point that eruption is just to plain of a word. Blair opens something up in West that he doesn't want to deny but is afraid to face. Blair is his air and his calm.

West the lead singer of Affliction only has eyes for one woman Blair the story is a fairytale amongst self with a lot of self preservation along the way. Does he find his happily ever after with Blair? Can he be the one that makes all her dreams come true? Is he the one man that above all loves her for the all the right reasons in which she doesn't understand? How do you tell the one girl how much you are in love with her? You write her a song. You are so going to have to pick up this book.

Note: Hot sex mandatory, orgasms are so not optional, the deeper the penetration the better the screams and if ones tongues are going at it then you better watch out world cause these two are having blast-off.

The author did one amazing job with this book. I wish I could give it more stars but they just don't do it on here. Thank you for taking volcano's to a whole new level for this reviewer. This is an awesome anytime read and I look forward to reading more from this author.

Enjoy your HOT HOT HOT Journey.

Happy Reading

Monica Cullip says

The Unexpected Trilogy

Amity Cross

This story was gifted to me in exchange for an honest review by The Book Enthusiast.

“Real life isn’t like the movies.”

“Each day is an uphill battle to keep your head from going under and drowning in the current of monotony.”

Blair Hayden is bored in her life. She is looking for a little spice, a little sexual adventure and she decides to seek out a one night stand. No names, no numbers, just sex. At the bar “Dark” her wish comes true and she has an unforgettable night with a stranger that she dubs “Dark and Dangerous.” West is the guy at the bar that night, a famous musician and he really likes the fact that she does not seem to know who he is.

She finds out soon enough, as she has tickets to go see the band play. West and Blair soon strike up a relationship. He has been addicted to the fast moving life of rock stars before and he is now struggling to be in a normal relationship.

She lost her parents as a child and finds it difficult to open up to anyone. She usually only does short term romance and has never really been in love.

His tour schedule is demanding for this new couple. It is hard to put up with all the tour stress and try to get to know one another better. They really jumped into things. There are some true feelings there but there will be a lot of baggage and history and outside interference to wade through before any sort of future can be decided upon.

These are two lovers that have already had more than their share of heartbreak in the past and I for one am hoping for a happy ever after ending for them both. It will be difficult as they come from totally different childhoods, have different views and values on money and have different outlooks and needs on life. I would rate this story a 4/5.

Myisha says

This is my first read by the author but it definitely will not be my last. It's also my first Rock Star book and I was pleasantly surprised that I really enjoyed Blair and West story. Blair was looking for a distraction and West was looking for a connection.

Blair was looking for an escape from her boring and mundane life she came upon a bar called Dark. Dark is where she met Mr. Dark and Dangerous that was suppose to be a one night stand with no names or strings attached.

West is a member of the band Affliction he started it. Blair ends up going on tour with West and what accompanies Bands? Drama drama and more drama, West is like the guy you love to hate, and hate to love all rolled into one. They both have baggage as they try to see where things can go. But with secrets sabotage and betrayal everything ignites, will they get a happy ever after?

I recommend this book it is a quick and easy read the author did a great job.

Nadia Debowska-Stephens (Obsessed by Books) says

~*~ Obsessed by Books copy given in exchange for an honest review~*~

"Real life isn't like the movies.
It isn't full of serendipity moments and true love."

I fell in love with Blair she is a sassy gritty leading lady that has no expectations apart from life sucks! Working a dead end job barely making ends meet she takes the edge of by using strangers for one night stands. Raised by a violent dad, witnessing her mother's being beaten, Blair has lived at the bottom of the pile all her life. No aspirations no hope. Going to a bar named Dark her life suddenly takes a different road...

West, the lead singer of Affliction, is also at a personal low. Dealing with his addictions the pressure of being young, rich and talented has left him feeling empty. Every one wants a little piece of him and he feels he is nothing but a stereotype. Looking to get lost for a wee while he finds himself looking for a connection.

And so begins the intense, emotionally charged cat and mouse game between these two very dominant characters. Both are used to getting their own way, and the path to compromise is a hard one. Dealing with the fame and the pressure is all new to Blair and not something that comes easily. The lifestyle and the demands of the fans are shown vividly and that is what makes this a stand out rockstar read.

The plot twists and turns, with treachery fueled by greed West reaches his rock bottom then battles to reclaim all that is lost. I am so glad this was released as a complete story as each part is quite a short read and I have no patience to wait to read more. It is fast paced, exciting and filled with can't wait another second type of sexual charge that in no way diminishes throughout the story. The pull between the characters is fundamental to their relationship as West has an addictive personality so Blair becomes his new addiction...but is she enough?!?

Fantastic five star read.

Tanya Vought says

I love Rock star books and thought it would be typical kind of rock star book; but it's unique and amazingly done! You will fall in love with the characters, the story line and West's friends.

Blair is like a man in a sense... she loves sex w/out strings and enjoys it that way.. until she meets Dark and Dangerous. He arrives in her life and slowly destroys what she's ever known.

West is lost. He has fame, fortune but no one really sees him. The moment he meets Blair it's electric and she blows his mind.....

These two are HOT and SEXY! They sizzle with chemistry- something neither of them can explain.

Blair.. oh my gosh! She's feisty and I loved that! I loved her spunk, sassy mouth to West and the band mates as well! She's one kick ass lady but does have some demons of her own.. that cause some issues... Overall, she's an amazing woman and I enjoyed watching what she was able to do to West. I loved it.

Oh West... naughty, sexy bad boy rocker... what can I say about him. You will dislike him, be upset with him and then swoon over the man. I loved so much who he became and what he was able to do for Blair.

This author knows how to create a kick ass rock star, sexy bandmates, sexy main man, sexy, sassy mouthed leading lady... and give us one hell of a ride!

I enjoyed this story. The shocks, laughs and the sexy/sweet intimate moments were wonderful!
I loved watching the characters grow and watching the chemistry and fire still sizzle even when the characters were fighting.. and the make up/fighting sex..is just yummy! :)

5 amazing stars from me!

Recv'd a copy from Debra Book Enthusiast Promotions from the blog Library in exchange for an honest review

Tish says

I recieved my copy through The Book Enthusiast promotions in exchange for honest review.

In this book we meet blare, aka wildcat. She has been through so much and as a result has built a protective front. She uses people for what she wants, no strings, no commitment. Just the way she likes it that way she can't get hurt!!

West, aka dark & dangerous. The front man of the successful band; Affliction. He can have his pick of women and God he knows it. He is cocky, confident & has an air about him That women just can't ignore.

After meeting in a bar, the two head back to west's hotel. Blare is makes clear that this is a one night thing, she doesn't want to know his name, his background, this is to be sex and nothing else.

The pair share and explosives, hot night of passion. Blare is eager to leave, but upon west's request stays a while. as soon as she gets the chance she heads for the hills. The fantasy gone and again she was just plain blare.

But it would appear that isn't to be. In the rush to leave blare left behind her ID. Seeing her picture awakens thoughts of last night for west. He felt a connection last night, he needs to see blare again.

This trilogy is HOT from early on. The storyline is fast paced and I was completely sucked in. I feel in love with both blare and west. Each had their individual struggles that I'm sure a lot of people can relate to. You find yourself willing things to go the right way, but at the same time knowing that there isn't always a HEA. Throughout the books you develop an understanding as to why the two are the way they are. Their journey is less that easy. You will feel a whole host of emotions & find yourself losing time while demolishing the collection. Blare and wast have a lot thrown at them. Could they possibly come through what is ahead of them?

Will she continue to battle against her feelings to protect herself?

Will west become her undoing.

Could things ever work out for this unlikely pair?

Will there be a HEA?

I can't recommend this book highly enough xx I look forward to reading more work from the author xx

Rob says

Unexpected

I've got used to authors splitting their stories between multiple books and so the length of this story never bothered me.

I find Ms Cross can actually fit a lot of story and character into even a short book. This book was no exception. Extremely well written and totally hot, hot hot.

I enjoyed reading about a feisty girl. She wasn't a pushover. She wasn't wanting hearts and flowers and romance. All she wanted was a convenient fuck when she wanted it. At times she may have come across as a little too much but when you delve deeper into her past, you see exactly why she is the way she is.

Typical hot alpha male except this time, he's up against quite an opponent!!

Loved this, looking forward to the next part.

Unexplainable

Love could be so easy for these two. They could have had their HEA but both are so damaged, so broken that I don't think they know how to put the past to bed and move on.

There are more downs than ups in this book as things don't work out as either imagined. I felt so sad for Blair when it seemed like she hadn't even had a friend before.

I love the writing style of MS Cross. I love how she weaves tragedy that tugs at the heartstrings.

I have no choice but to continue with this series because my heart is definitely with Blair.

Unintended

So after his huge fuck ups in the previous book, West is now the one seeking Blair out. This is a story about a man who had it all, lost it all and is now on a path to redemption to win back what he wants in his life.

I have really enjoyed this short trilogy. Despite each book being short, there's so much back story about how these two characters became so fucked up. I really felt I could empathise with them both. They both had their moments where I loved them and then hated them and then loved them again.

When your demons are addictions, there is only one person who can heal you and that's yourself. Maybe West relied too much on Blair to be his salvation. Losing her and having to fight his darkness to win her back was the best thing he could have been made to do.

I love Ms Cross' style of writing. She writes a damn good hot scene, she does dual POV's effortlessly and her story flows from book to book.

Totally worthy of a full set of *

Tonya says

Review for Rising Indies United

Part 1

This is a great short read. I really like the main characters. Blair comes off as very confident and she knows what she wants, at the beginning of the story. But then she takes that mask off. She's broken, everybody leaves her. So she leaves them first, no feelings and a string of one night stands.

I really wasn't expecting her to act like that right at the start, usually it is the male character. West was who she picked up. She has no idea that he is the lead singer/guitarist for Affliction and also a recovering addict.

He has an insta attraction to Blair. One night isn't enough for him.

When they meet a second time, they strike up a deal. I think this is a great start to their story and I started the second story right away to find out what happened next with these two.

Part 2

This was an okay novella. I would have liked a little more of a story line at the beginning to go along with all the sex scenes. Just about all of the first half was sex. Don't get me wrong, I love a steamy scene, and these were steamy. But I like a story line to go along with it.

The second half really picked up with the story. Blair went with West on Affliction's U.K. tour.

Will Blair be able to handle everything, or will she end up running? Will West handle it all, or will he relapse?

Part 3

This third part is my favorite so far. This story had more story line and there were still a few steamy sex scenes. The truth finally comes out in this part. But, will it be enough for West to win Blair back? Will she forgive him for everything that has happened?

Overall, this was an enjoyable read. West and Blair fight hard and then love hard, rinse and repeat. They have their ups and downs, but they make it through them.

Natalie Giron says

This was my first read from Amity Cross. Wow!! How I loved the story of Jake West and Blair Hayden. These two characters they both have things from their past that have closed them off to trusting someone and opening up. Jake West "Dark and Dangerous" "He was hot. Smoking, knee-weakening, pussy-throbbingly hot." His character definitely made me weak in the knees. Blair Hayden "Wildcat" she is a girl that knows

what she want, she takes No ones crap, she has a mouth on her, she is a bitch. But there is just something about the two of them that makes them click. From the very beginning their chemistry was smoking HOT! What started from a one night stand. NO names, NO string. Just wanting to hide the noise, take the edge off. Ended up being so much more. They both were so used to getting what they wanted in bed. They loved to take control and dominate their partner for the night, but when you have two strong personalities who is gonna win and take control? It was different this time, it was like nothing they experienced with ANYONE before.

I recommend this trilogy. I didn't want to put these books down. You want to read this and get stuck on their rollercoaster of a love story and their steamy fighting make up sex.

Do they have enough to get through it all? Are you team West or team Blair? The three books will have you going back and forth I definitely did. You want to believe West is different and he's not going to hurt Blair. But Blair how can you not root for her? She has had so much heartache in life that has made her put up some high walls. She has never felt this way before and takes a chance. Do you stick around when he has hurt you already? Do you ever really know if the choice you make is the right one?
