Nothing Girl

Dani Kermon

Nothing Girl Dani Kermon

Dependable. Steadfast. Independent. Boring. Fake, all great adjectives to describe me. Allow me to introduce myself.

Hi, my name is Beth. I'm a 26-year-old oncology nurse from London. I was born to a family of career underachievers, who raised me to believe I would never amount to anything. Against all odds, I did make something of myself. I have a career that I love, a best friend who means everything to me, and a home that I'm proud of.

My whole life has been a constant battle, leaving me scarred and absolutely determined to keep people at arms-length, to never allow anyone to get close enough to hurt me again. Immersing myself in my job has been a great way to avoid life. I've been emotionally numb for as long as I can remember. I don't want love, and I certainly don't need it, I'm walking through life, one safe step at a time, happily closed off to everyone aside from Grady.

I cover myself in colour to camouflage the beige. On the outside, I'm the girl you don't take home to mother. My camouflage worked well, until him.

My whole world spirals out of control, when my best friend and roommate, Grady, whisks me away on a chance trip to the emerald isle, where I meet a guy who doesn't terrify me. Overnight, my entire existence changes profoundly, making me question everything. Now, my once magnolia-tinted view has exploded to life, in a cacophony of colour and light, opening me up to a world of new experiences.

Yesterday I was comfortably numb, a Nothing Girl, today I'm alive. But what happens when you start to feel things. When you let people in?
One party, one hello, one ride, and I'm his.

Can she learn to accept the happiness he's offering? Or is she destined to always remain a Nothing Girl?

The Only Exception 2 is now available!

Thai Holman says

Well wow

This cover got me. Then the blurb then reading well wow just got to say I love a book where you don't want to put down because you need to know what happens. Yes dani did that. This story was amazing and I'd definitely recommend it. I'm clicking book 2 and can't wait to read.

Kelly Yekel says

Wow, as far as I'm concerned; There is absolutely nothing wrong with this book.

However, I so feel like Beth is a complete coward. She needs to grow up, and see the love that's right in front of her. Otherwise, this is a beautiful story. I absolutely love everything about Todd's character.

Emma-Jane Hayes-Loveridge says

Gripping and totally in love

I loved this book! Truly beautiful and just fantastic, I couldn't put it down. I can not wait for the next book to see where this romance and heart breaking story goes!

Amanda Chalifoux says

Totally loved this story about a tough woman :)

Beth says

Great story

I like this story about a young British woman who had a terrible upbringing and was sexually assaulted in college. She has a best friend/family who is gay. For years she closed herself off until meeting two different men. One is a rich businessman who is calm. The other is a passionate take charge American. Her fears, residual trauma, and sense of unworthiness get in her way.

The only issues I have is her constant screaming or yelling at any of the men in her life when they do or say something. Her moodiness is causing me to really not like her at all. She is supposed to be a smart nurse....is feeling fine except for vomiting in the mornings and she hasn't figured out she is pregnant? No burger makes you vomit for days.....but dumb females are my turn off. So make your own decision. I just hate females who think they aren't good enough because they aren't rich or size 0.

Jazmín Marín says

DNF at 42%

I normally don't do this but I can't force it anymore! The writing is too amateurish for me, I can't connect with the characters (I hate Beth! and Todd) and the story was the only thing that kept my interest but when it became a love triangle... I couldn't. Sorry.

Karen says

To say Beth is damaged is an understatement. Between a tough childhood and a harrowing episode at college she trusts only one person, her best friend Grady.

When JJ comes into her life unexpectedly she finds herself opening up to him. Then Todd wakes up feelings in her she never thought she'd have.

Is this a second chance for her and which one will she choose?

Read this in a day and moving straight on to the second book.

Lourie Nolan says

Endearing.

I want to say I absolutely love this book and author. As an independent author myself... I can fully appreciate the work that goes into being your own writer, editor, and publisher. I hope she keeps it up.

I found Tink and Todd endearing and sweet. I think many young women can relate to Tink's issues and Todd loves her enough to help her work through it all. About to start part 2 now.

Hannah Smith says

2.5 Stars

The only reason that this book isn't getting a one from me is because the storyline could have been really good that being said it was anything but. I usually love the alpha male controlling type but Todd took it to a new level which just had him coming off as a Huge prick. Then there is Beth, where do I even begin first off she's a 25 year old woman spends half the book acting like a teenager 'Omygosh JJ is so sweet I like kissing him but then there's Todd and he's my everything. And even though I know this I'm still gonna string JJ along' Then when her and Todd do finally get together she is a total beeotch her mood swings make it seem like she has a permanent case of PMS 'Omgawd Todd's so sexy when he's controlling me. Wait I don't like that he can't control me, let me go throw a tantrum. Over all okay story that was ruined by immature characters.

Georgia Jones says

Very good

CYNDY says

Loved it

Louise Brodie says

I like reading this book, the author has really thought about her characters, about their past and some of their future.

She has kept me intrigued, excited and wanting to know more. I have not been able to put this book down because every time I go to stop something happens and I need to know the result of the part in reading.

I look forward to the follow on book x

Debbie Hanson says

Well well well.... I love when you receive an arc for a new novel with a new author and it blows you away. This was THAT STORY I was Sucked in from the 1st page.

Beth has a simple life a palliative care nurse that lives with her best friend Grady. His gay love for Beth is not only heartwarming but loving. The pair are like family the only family each other has.

One weekend away at a spa changes everything. After using her nursing skills to help a woman having a seizure she meets JJ owner of the spa/ resort. Feeling unknown feelings she is not used to she kind of let's JJ in....

This is where the story got a bit confusing... I thought it would be all in for JJ and Beth but it's when JJ's friend Todd takes Beth home from a new resort opening, it is Todd who breaks down Beth's iron clad walls. His alpha caveman tactics along with her determination to fight against Todd at every turn makes for an amusing and hot/ steamy relationship.

Poor Beth is so out of her element with Todd, she doesn't date and is happy with her existence just the way it is. She only needs Grady but along with Todd comes the cute nickname "Tink" (he had me Sucked in right there) & the fears of what happened to her while at college. Believing she can trust Todd she comes clean about her life... Question is well Todd run off like she expects or continue to pursue Beth?

I won't ruin the ending but I will say it is a cliffhanger.... Man I hate cliffhangers now I will be on the edge of my seat waiting for the next.

A. Zavarelli says

“I hope you dream of me. I know I’ll be dreamin’ of you.”

In Nothing Girl we are introduced to Beth. A pint sized firecracker with an affinity for rock and roll and nice cars. She is sassy and smart and a devil in the kitchen, but beneath her vintage tees and Doc Martens is a softer, sweeter side.

She's built up walls to keep others out. Convinced that she is no good for anybody, she maintains a bond with only her best friend Grady... aka the Drama King. He is fiercely protective of her, and a force of nature on his own.

She doesn't want or need any other man in her life. After all, they can only bring pain, right?

So what happens when she finds herself with two sexy suitors vying for her attention?

We have JJ, who is sweet and kind and respectful of her boundaries. And then there is Todd. Oh, Todd. He's like a tornado blasting her into her life and breaking down all of her defenses. He's the ultimate ovary-exploding, sexy-talking, alpha-dominating, palm twitching male that makes me *swoon*.

But Beth isn't convinced that she can let either man in. She has painful secrets in her past, and she doesn't believe she can ever truly have a functional relationship. Todd steps up his game and sets out to show her just how wrong she is.

Everything seems to be going great. The sparks she feels with him are off the charts. And as all us ladies know, these are the most dangerous kinds for our hearts.

The sex scenes between them were so hot, I was like...

But in the end, Beth realizes that she isn't the only one with dark secrets. The difference is that Todd has been keeping his to himself. So who is it that steps in to save the day? You guessed it, the one and only JJ.

This is my second time reading Nothing Girl, and after some time and perspective, I have to say that I'm totally on Team Todd now.

So here it is.... Five brilliant and I can't wait to get my hands on the sequel stars. In the meantime, I'll just be over here... contemplating my life and wondering where my Todd and JJ are hiding out.
