I was just so excited to read another book from my favourite author, Jenni Bradley. Such an amazing writer, such an exciting, funny romance to enjoy. Just a delight to read.

We meet both sister and brother, Harlow and Cash. They own a High End Dog Collar business. With Harlow suffering OCD and suffering eccentric times in her life too. She is there to care for her brother Cash and to make their business run successfully too.

I thoroughly enjoyed this humorous book. Such a fun and amusing romance indeed. I loved all these amazing characters with such a brilliant storyline. Found it so hard to put down!!

* I recommend this book to everyone.

Harlow and her brother Cash own a high end dog collar business. She is on the brink of spinsterhood. Then her whole life turns up side down . Cole doesn't have time for relationships or all the drama that goes with them. Can Harlow step out of her world to find love or the walls around her heart harden further ????? Guess you have to read this book to find out!!!! A different kind of read but I did enjoy it!!!!

I thought I was going to enjoy this book, but it wasn't for me at all. While reading it I had many issues with the characters, details, and plot. First off, in the summary of the book you will read, "Cole is at the top of his game as an advertising guru. He doesn't do relationships nor does he have the time for the drama that follows them." Not once in this book did I read about Cole and his commitment issues. He never flat out told Harlow

that he does not date, he just continuously goes out to town and has sex with her. There was also not much information about his work place, just that he was in advertising. Also, when describing the main character, Harlow, this is what was said in the summary. "Can Harlow step out of her carefully constructed world to find love or will the walls that she built around her heart harden further?" Harlow didn't put up a fight once Cole came along, she did remind herself not to jump to conclusions, twice. After their first makeout session they end up having phone sex and then hooking up after every time they see each other, there were no "walls" around her heart. I also found it annoying at how dramatic Harlow and her brother, Cash, are. They apparently get super pissed over the slightest joke or confrontation. Take page 166 for example. Cole tells Harlow that he had a call come in from work so they had to get on a plane out of Vegas. Harlow, of course, calls him a cold hearted prick, to which he points out that he doesn't have time to argue with her over her unfounded insecurities. There is also the fact that Harlow is supposed to be 32 but through the entire book I kept thinking she was 16 due to her immaturity. All she does is get pissed, act like a dog when she is around food, and, "laughs like a hyena." The relationship between her and Cole is isn't romantic one bit, all they do is fuck, not make love. Just when you think its going to be this sweet, endearing, love making chapter it starts off with some raunchy remark, which is mostly Harlow telling Cole to fuck her. I don't mind a little bit of dirty talk but that is all these two do. They never have deep conversations, their arguments are short and superficial, and the whole relationship is rushed. The whole plot of this story felt rushed, everything was back to back, the detail and thought put into it felt very poor. Once again, I had decent hopes for this book, but it just wasn't what I was expecting.

This book was well written but I feel as if it was too descriptive when it came to the mature content. I liked the ending and the relationship the protagonist had with her sibling. And I love that it ends with a happy ending.

I really like the story line. Sibling cat-fights but they manage to own a successful shop. The players were very likable. The big draw back was unnecessary overused sexual language. I'm not a prude but the over use of graphic words ruined the story for me. I've read many chic lit stories with bedroom-type scenes that don't get into such vulgar descriptions. Clean up these and you'd have a very enjoyable book.
