Shiloh Ranch Bobby Akart

I survived because the fire inside me burned brighter than the fire around me. ~ Madison Ryman

The strongest emotion of man is fear and ...

Fear of the unknown is the greatest fear of all.

Could you face fear head on?

Can you forget all those moments when you thought you wouldn't survive, but did?

This fast-paced post apocalyptic dystopian fiction series from author Bobby Akart (The Boston Brahmin series and the Prepping for Tomorrow series), has been hailed as a masterpiece of EMP survival fiction. Prepare to learn, as well as be entertained as The Blackout Series continues with SHILOH RANCH.

In book one of this new post-apocalyptic survival fiction series, 36 HOURS, the reader was provided a glimpse into the rapid decline of society once word of the catastrophic solar flare racing towards Earth began to spread.

Book two, ZERO HOUR, thrust our characters into the perils of a post apocalyptic world. At Zero Hour, an EMP caused by a massive solar flare left America in darkness. The Ryman family, who weren't preppers, applied common sense, logic, and a will to survive to their decision-making as they faced their death, their neighbors, and the depravity of man.

In book three, TURNING POINT, the characters face a life altering decision - should we stay or should we go? The oldest and strongest emotion in man is fear, and the strongest kind of fear is fear of the unknown. Will American's flee the urban centers, the proverbial golden hordes, for the countryside? Will it be safer than the cities? TURNING POINT will lead the Ryman family into a complex, inexplicable world where danger lurks around every bend.

This new post apocalyptic EMP fiction series continues with the release of SHILOH RANCH. After a perilous journey replete with highs and lows around every turn, the Rymans reach their destination only to face guns pointing at them from all directions. Did they make a mistake? Should they have stayed home where familiar surroundings may have outweighed the threats closing in on them?

They quickly learn that there is one constant in a post-apocalyptic world - the threat from their fellow man.

Note: This book does not contain strong language. It is intended to entertain and inform audiences of all ages, including teen and young adults. Although some scenes depict the realistic threat our nation faces from a devastating solar flare, and the societal collapse which will result in the aftermath, it does not contain graphic scenes typical of other books in the post apocalyptic genre.

"Football Techniques Save A Life"

This is the 4th book of the Blackout series. This author is fantastic and knows how to captivate his readers. He always gives readers a brief outline of the previous books in the series. He's a master of EMP (Electromagnetic Pulse) from the sun which has affected the world. The Ryman family escapes from one place and arrives safely at their destination. Again, they face threats and continue to be survivors with the help of the residents in a small community. As always, Akart mixes fiction with known facts about survival. Awesome story. Highly recommend this series.

Starting to drag

Still worth reading, but the lectures on life are slowing the story down. Probably half of a book's action. Hopefully it picks up some in the next book.

Short book

This was very disappointing. The book was nothing but filler to sell more books! The other books were good reads that made sense of when to end. This was a revenue book.

Jeanne Clement says

Unbelievable

Let's see...the bad guys have 700 people working the mines and there's no uprising? The sheriff and his ma should have been killed long ago by his prisoners-made-deputies by their very nature. Having come this far, I am determined to stick it out to the end. Hope the next ties things up...this is turning into a marathon!

Love this series

Started with 36 hours. Great story and characters. It's a post apocalyptic series with strong characters. Definitely worth reading and will continue reading the series.

DNF

I was reasonably impressed with book one of the series, (36 Hours), which I initially bought a few in the series because they were on sale for .99 cents, and while in-between books decided to give the series ago. While not high literature, the books are quite short and readable. I was interested enough to keep reading although, about half way through the fourth installment, I had to stop and take a good look at myself.

It was the creeping Christian right that snuck up on me and eventually made me want to set my iPad on fire. The overt sexism and racism of this series was appalling. I am mostly appalled at myself for wasting my own time

Bang

Another outstanding book in this series. This series is fast paced, well written and Bobby Akart has developed an amazing set of characters that you you want to follow. I am on to the next book in this series. Start this series now to find out about Madison, Alex and Colton Ryman.

Bruce&Marsha Sarrazin says

One of the best EMP series I've read.

I truly like Bobby A cart writing style. I like that the main character didn't start off as "peppers." This is book 4. I've read them in tandem. All of them I've had trouble putting down.

A BA. SYFY. Novel About EMP. Survival/Blackout/Shiloh Ranch

BA. has. penned a SYFY. novel where Colton and his family arrive at Shiloh Ranch and are welcomed with open arms. Their problems had just been taken care of when the ones they hoped to avoid were back in front. This is an excellent read for the genre.....DEHS

Engrossing series!

This series has kept reading night after night! Following the Roman family's exponential learning of how to

survive their new way of living has taught me I need to do work on my own preparedness. on my own. I especially appreciate Mr. Akart references real items that I can actually purchase today. (I.E. Elton crank radio/Life Straws (which I actually purchased for my sons for Christmas, before I even read the books). I am definitely awake now!

Sabrina says

Another great addition to 'The Blackout Series' by Mr. Akart!

The Ryman family have finally found their friends and a place of safety in this grid down world. Now they can relax with people of a similar mindset in this new world in a peaceful and safe spot. Or is it?.....

After all of the adventures, obstacles, and dangers that the family have persevered through, is their survival now guaranteed?

Nope.

Not at all.

The depravity of a rotting humanity will always be a threat. And when the basic rule of law is gone....the criminals will thrive.

An excellent story that kept me reading until the book was done! I just couldn't stop. The entire series is filled with such defined characters, and while outlining the violence and evil of a collapsed world, the story does not delve into vulgarity and curses. An exciting story that even my twelve-year-old enjoys! Now I just have to wait for the next installment.... Very well done!

Shiloh Ranch

Still in love with this series...The Rymans are now fighting to save Alex from Junior....I can't say too many times that I love the writing style and strong characters of Mr. Akart....kept me reading until 2am...

OMG!!!!

What a great read. Its like the action TV show you love and go nuts because of needing to go to the restroom but can't because you don't want to miss something. This is one of the most heart pounding so far. A great series. I can't wait to see what happens next. A+ Mr. Akart

Linda Wilson-Gordon says

Can't wait to read the next one!

Page-turner. Full of action and a believable storyline. Good character development and realistic reactions to the total collapse of society after a solar flare takes out the grid.

David Bowman says

The tale continues

The Ryman family consisting of Colton, Madison, and their teenage daughter Alex, traveling in a beat up 69 Jeep Wagoneer, arrive at Shiloh ranch, following a harrowing flight from their Nashville home in a post apocalyptic America. For the moment, they settle into what seems to be a relatively safe environment. But trouble is brewing back in Savannah, a town turned into a martial law prison my Ma and her son Junior, the mayor and police chief. Fasten your seat belts for a thrill-packed ride.
