Whenever Colleen Bradley Berkowitz imagined her homecoming to the tiny rural enclave of Jackson Falls, Maine—if she ever thought about it at all—she certainly didn't picture herself coming home widowed and penniless, with her tail tucked between her legs, and driving a car that should have long since gone on to its eternal reward.

Dependent upon the largesse of the sister she's barely spoken to in a decade, Colleen is determined to get the hell out of Dodge the minute she has enough money saved up to escape. But fate seems to have other plans. Her sister is equally determined to repair their broken relationship. The son she left behind all those years ago is in crisis and needs his mother. And then, there's the incomparable Harley Atkins, whose come-hither blue eyes and soft Georgia accent are enough to make any red-blooded woman reconsider her options.

REDEMPTION ROAD is a heartwarming story about love, about sisterhood, and about second chances.

Good BUT...

I love this series but this was probably my least favorite of the bunch.

Colleen's story with so many others as well...

It was a good story but a lot of it seemed about Mikey and Paige as well.

So we finally learn why it was that Colleen really left. She didn't just walk away from her son.

Harley is great. It took him & Colleen more than half the book to clue in. Pretty much up to the last few pages she was still leaving come spring and then BAM!! she is staying and POW!!! HEA.

So, I have read all the other books in this series. (I actually made sort of a marathon of the last 3.5 books) I read #1 over a year ago, and it was one of those books that actually took me THAT long to get over the book hangover. I couldn't revisit this story until my heart had healed.

Anyway, I am loving this series and I can't wait until book #5 comes out. I am thoroughly hooked on The Jackson Falls series. I will read them if she makes 20 or 30 of them. I don't think I could ever get sick of them. And, I love that each book revisits Casey and Rob, and also Danny. I miss their story, and I love seeing it continue. But, let me say, they seem to have the strangest family. Somehow 3 families have grouped together in multiple couples. It's crazy and until you read it, it does sound a little incestuous. (Please don't take that as a bad thing, its just crazy how they have all kept themselves so intertwined) I hope everyone reads this series. It's so beautiful and I can't say enough about it. Please read them. All of them.

Another great story in the Jackson Falls series.

So happy to get incite into Colleen, Casey's younger sister and her not so easy life. She quickly became one of my favorite characters in this series. It takes until almost the end of the book to find out what her true story is. When she has her heart to heart with her son you really feel the pain she has experienced in her life. You got a glimpse into Colleen's maternal instincts when she helped Annabel with her problem so perfectly, Thank heavens for Harley coming into her life to ground her. Harley was so sweet, who wouldn't love a dog rescuing, single farmer dad who used to be a lawyer who builds you your own romantic ice rink... NO ONE!!

My favorite scene in this book was when Rob tricked both Casey and Colleen to sing together. He knew just what these estranged sisters needed to open their hearts again to each other. They needed each other in the past and would always be there for each other now. Bonus song >> Love Shack!!!

This story does not have all the tears and anger the first book made you feel but the love was there for sure. What made me happy was the amount of time we spent catching up with Casey and Rob who I just adore and all the other characters of Jackson Falls. Mikey and Paige and their young love was very sweet and naïve at the same time and you worry that they will make some of the same mistakes others have made close to them.

Again another great read by Laurie Breton. She never disappoints. I am always hoping for more and wonder who will we read about next, although I can never get enough of Rob and Casey.

This was cute. I really liked reading about Mikey and Paige's (Face the Music, Beyond Jackson Falls 1) background, but I also liked the main couple's (the heroine, Colleen, is Mikey's mother) story.

I will be generous and rate this book 1 star. I got taken in by the series but this book was a complete and total waste of my time. It dragged on for ages and said nothing. I knew the story line by page one. If she writes another book in this series I will not be reading it.

Possibly my favourite in this series so far, possibly because I really loved the Mikey and Paige storyline. I really liked Jesse's story so I guess like father like son. I hope we don't have to wait too long for the continuation of what happens to Paige and Mikey.

One of the things I have loved with this series is the music reference. I grew up on all kinds of music and don't recall at time when music wasn't a big part of my day, I particularly loved the references to all things 80's and the differences between the adults and the teenagers in their tastes.

These books are a steal at only \$0.99 through Amazon.

This is one of the best series I have read. I love hearing about Casey and Rob but it was good to find out what was Colleen's story. It was sad why she left her son Mikey but it was good that he found out that she didn't just walk away from him when he was a child. I also loved the added bonus of Mikey and Paige. I thought this was the end of the series but have since read there is a another book coming out. I like to see what is going to happen with Mikey and Paige and also where Colleen and Harley end up. I also thought that Casey and Rob's story was finished but what happened at the end of this book I just hope that we get to see them add to there family and finally put the past ghosts behind them. Fantastic book and series. Look forward to the next installment.

From what I knew of Colleen in the previous books in the series, I was all ready to dislike her, but I found I just couldn't. I think she was more lost than anything.

Colleen comes home again after many years when her rich older husband Earl dies and his kids kick her out of the house. Earl left her everything in his will, but his kids had other ideas and Colleen is too upset and tired to fight them. She goes back to her parents house, only to find they don't live there anymore, but a handsome stranger named Harley and his teenage daughter do. With nowhere else to go, she goes to her sister Casey's house with the intention of staying long enough to save some money and move on again. Casey and Colleen haven't been close since their mom died when they were young.

The harder Colleen tries to find reasons and money to leave, the more the universe keeps making it impossible for her to do so. Her son Mikey shows up at her door after leaving college saying he needs to stay with her because his Dad won't have him. This sets up his book which is after the next one in the series.

Rob and Casey give Colleen a job and an apartment over the garage to live in. Casey has a miscarriage and Colleen takes care of her. Then Casey decides to buy some sheep and go into the wool business, but doesn't know anything about it and needs Colleen's business degree to help her get started. Plus there's Harley. He's an attorney turned farmer and she can't help herself around him.

I love this series and this group of characters. I will be sad to see the series end. It's heartwarming and realistic with relatable characters. No one is perfect, everyone is human and flawed, but loveable and endearing.

Love Love Love this Author! After only a few pages I easily transitioned right back to Jackson Falls Maine. She uses enough details from the other books in the series to solidify story lines without excessively repeating plots. At this point in the series the characters felt like old friends to me. I loved learning more about Colleen's life after she left town. Sometimes in life you have to come full circle to find yourself. The story embraces that you have to allow yourself to make and learn from mistakes and move forward. Sometimes people can use their fear of others disappointment in them to continue punishing themselves. My only complaint is that I wanted to read more and felt the ending was a little rushed. I say that only because I never prepare myself for the book to inevitably end and feel disappointed when it is over. I am looking forward to her next book already. I want to continue seeing more of Rob and Casey but also excited to see where life takes Mikey and Paige.

This series is turning into a guilty pleasure for me. I enjoyed Colleen's redemption story but frankly could have lived without the chapters from Casey's POV. She is so perfect - maternal, musical, beautiful, loving, etc. - that I wonder if she will be canonized by the end of the series. I find the secondary characters much more interesting. I hope Breton doesn't drag out Paige and Mikey's story for too long - she runs the risk of falling into the Susan Wiggs/Daisy Bellamy trap, where she built up the tension for so long that by the time we got her story it was a disappointment.

### **Patti K says**

I loved getting to know Casey's younger sister, Colleen. Hers is a painful tale and as the title suggests, it's about redemption. Most importantly, I think the redemption finally comes because she learns to forgive herself. You'll laugh, you'll cry and you'll be anxious for more of this saga by the end. Personally, I'm still waiting for Mikey's and Paige's story. There is a small glimpse into that here. For the fans of Rob and Casey, you'll get more of them, too.

One of my favorite parts to this story was the introduction of Harley Atkins. He's a fun addition to the Jackson Falls family and a perfect match for the acid-tongued Colleen. His daughter, Annabelle, will surely provide material for future stories. Each time I dive into the world of Jackson Falls, I can't help getting excited for the many tales left to tell.
