## **King Asshole** Sam Crescent

I love women.

I love to fuck.

I don't return calls. Hell, I don't take numbers!

I don't fuck a chick twice—because after once, I have no interest.

I don't make excuses for who I am or what I do.

I'm an asshole.

In fact, I'm the king asshole, and it's rather fitting because I'm Jax King, and I don't do love. Then she came along, and now I'm royally screwed!

## From Reader Review King Asshole for online ebook

### Tina Price says

Jax and Dani are completely unlike any other characters Sam has written and I have to say I'm glad for it. This book was fantastic. The supporting characters were solid and interesting in their own right. The story was on point. There was some angst, some laughs, lots of heat, low drama. My only issue was I would have liked to epilogue to Metin their kids' name. But really that is such a small thing. Sam Crescent continues to be a one click buy on release day

---

### Neringa Neringiukas says

So, Sam warned that this H may be her one of the biggest a-hole. And I think I have to agree. I had love/hate relationship with Jax. I wanted to bang his head and at the same time his outrageousness made shake my head and laugh. And then... Well, there was more to him, then he let's you to see at the beginning. He still was a-hole, but also he could be something special.

I liked Dani. She was tough cookie. And I liked that she wasn't this puddle at Jax feet at the first meeting. She made him work. She made Jax to open and be a man he could always be, but never found a reason to be.

---

### Muggle says

This was definitely a suprise for me especially since this is Sam Crescent's book we're talking about. I've read plenty from this author, some I liked, others ughhh I honestly regret picking up. So when I got this book I told myself not to have any expectations or negative thoughts and just enjoy a little light reading before going into something more angsty. Because worst case I could just dnf it.

The characters :

The hero is definitely an asshole at least for the first few chapters anyway. And yes there is a mentioned here and there of other women but don't let that hold you from reading this because (thank god for small favors) non of the deed was elaborated and this comes from someone who absolutely hate when H/h fooling around with other ppl after meeting (call me a romantic but I want my fantasy).

I like the heroine. She's not a doormat and she can hold her own. She know what she wants and not afraid to voice it out. So all and all it was a good read although a bit rush there at the end but I can overlook that.

Highly recommend to those who just want a lazy rainy day read.

---

### Jack says

HAS MINIMAL SPOILERS!!!

This story had no conflict in it whatsoever, nothing that even resembled it. Which was unexpected because Crescent's work is usually really good. I think the story would've benefitted from some sort of conflict. Have one of the scorned women who broke the case show up and try to seduce him or any one of his other hook-ups. Maybe he gets in a bar fight and ends up with a medically induced coma, ya never know.

In addition, Jax' character took a 180° and became a completely different person. Why not write the

character in a way that allows such an evolution to lovey-dovey, no longer a hit it n quit it kind of guy. If the author wrote that Jax only had one night stands because he wanted to protect himself from getting hurt or how he doesn't want to be vulnerable so he doesn't allow women to get close, then I believe his evolution would make more sense. He went complete asshole to suddenly being a sap factory. The story also would've benefitted more from Jax' perspective. It would give the reader insight into his thoughts and feelings so that we understand how he went from "King Asshole" to Dani King's husband of 5 years. If told from his perspective, we could see the nuances in his thoughts and feelings towards Dani. Yeah he got jealous when she brought Fred over but at what point in time did his feelings towards her change? The third person perspective didn't add anything to the story. The book could've been better and I hate to say it because I like Crescent's work, but honestly I don't recommend this book.

### **Zulfa zeebumz says**

?JAX KING?

Wow what another great read by Sam Crescent.. Jax was super asshole lol but he was quickly brought down to size by Dani his roommate who never took any of his crap and gave it to him straight. I loved the fact that in this book it was a quick smut fest that I simply enjoyed. Although I would prefer longer books I was kinda waiting for something but it ended all too quickly cause I just started loving them both in this story but alas it sated my reading urge for a while ?

Well done Sam I can't wait for what's next to come?

---

### **Jenny says**

Steamy read. Both hero and heroine are sluts so it is not exactly safe but it's not a bad read. Needed a more detailed epilogue with their kids.

---

### **★ Belle The Bibliophile ★ says**

I enjoyed this book simply for the fact that the heroine was so unimpressed with the Hero's manwhoring ways. Watching the Hero slowly fall for her was fun.

---

### **Crystal says**

I love Sam Crescent. Her stories have real women and give the feeling of reality. You can so see this stuff happening. Crescent's female leads are fuller figured and own their bodies. I would like to have a character who is larger, not just T&A with a trim waist but a slightly rounded tummy. I want a large woman who still gets the guy.

Anyway, King A-hole...roommates turned lovers. Yeah, cliché and done all the time but the difference here is the characters are not really opposites. Both want freedom to do what and whom they want. Jax though is more love and leave.

You want to know my issue with this book? How many times must we "hear" how Dani doesn't like to be bored? We got it the first few times. Oh, and what did Jax's dad want to talk about? I want to know what he has to say for himself. Flesh the story out more. Otherwise, nice read.

---

### **Flavs is Mrs David Gandy♥~♥' says**

From the start of this book I really didn't like Jax. Like seriously, but the author did warn you about it. But like all asshole heroes there is more to them than meets the eye. With Jax it will definitely take you a while to find the better qualities.

Dani was exactly the type of women he needed. She wasn't the shy timid type of hero that is a norm for this author but she was a strong character and definitely kept Jax on his toes.

Definitely a good story and I loved all the characters in this book. I would have liked to have a longer epilogue though. Other than that enjoyable read.

---

### **Simona Misevska says**

I m feeling such a hypocrite while I 'm writing this because I always said that many books had a insta-love and always give a lower star.And this book needed some insta-love or insta-lust.This book is different from everything I read from Sam.You don't have insta love not even insta lust between H and h and I missed that in this book,the hero is acting like bad boy but in his heart he is such a sweet heart and that bother me.I couldn't t connect with the story or characters,they were too soft and on the boring side.

---

### **Darlene says**

Jax is what you call a huge huge A\*\*HOLE But then again all the woman who go home know the deal it's a one time thing.. no snuggles no nothing.. he needs a roommate he puts a ad iut and with some failed interviews.. he finally finds one Dani.. Dani needs a place and shes okay with Jax she minds her business he minds his.. perfect roommate agreement.. jax doesn't mind Dani cooking few dishes for him or doing the laundry..

But he slowly starts to fall for Dani.. But can Dani give in? Would jax break her heart? Does he even know how to love?

Rough tough asshole alpha male

Sassy outgoing take no shit gal

## ✿Penny says

[★Hero: Jax King, 35. ★Heroine: Dani Brooke, 25. ★Dual POV. ★The h is sexually experienced. ★The H fucked several OW after he met the h but she didn't care one bit, at the time they didn't have feelings for each other. ★He always used condoms with OW and he never wore them with the h; they never talked about contraception. ★At the beginning of the story there's a post-sex scene with OW (it wasn't explicit). Other than that there are no intimate scenes with O

---

## Nova says

Sam Crescent is starting to become one of my go to authors and I really enjoyed this book it was not too short and it was extremely steamy.

Jax is a manwhore and makes no apologies and boy does he live up to the title of this book. Jax King is in desperate need of a roommate as his landlord has just increased his rent. He has tried the roommate thing before and it just didn't work but this time he has no choice. He works as a bartender and has his pick of women, he makes no promises they get one night and that's that there is no way that he is going down the relationship route after the way he saw his father move on to another woman whilst his mother was dying of cancer. The day he was old enough he walked out the door and vowed he would never return. He has Ryan and Lily his best friends and that's all he needs that is until Dani rings about the room for rent, she is nothing like he expects she doesn't judge his nighttime activities and soon he has another friend but could he have more and would she feel the same?

Dani walked away from her family as soon as she was old enough not wanting to live the life that they had chosen for her. So now she works two jobs and is desperate for a new place to live after her landlord is harassing her. When she finds Jax's advert she rings straight away waking him at 3am but the apartment is perfect and so starts a weird kind of friendship. Never thinking that Jax would look at her in anyway other than his roommate she is caught off guard by her growing feelings and the way he feels for her. Can they make a go of it or will it ruin what they have as friends and does she have the guts to try?

Both extremely likable characters and Ryan and Lily are awesome secondary characters. Very enjoyable read but would have loved a slightly longer epilogue.

---

## Sabrina The Trash Queen says

I read this book when it was released and didn't add to Goodreads god knows why, so adding it now.

This was a decent, short, sexy, romantic read. Definitely reading more of this author.

---

## Arwy says

???????

I really enjoyed reading the story about no- nonsense Dani and her asshole roommate Jax, who had a strip-pole in the sitting room of his apartment. Jax never sees any woman more than once, doesn't ask their names, or phone numbers. That is any woman but Dani whom he is startled to realize he doesn't see often enough.

The story about Jax's mom was heartbreaking but I'm glad that he found Dani and that she was there for him.
