God Wants You Well: What the Bible Really Says about Walking in Divine Health

Andrew Wommack

God Wants You Well: What the Bible Really Says about Walking in Divine Health Andrew Wommack Health is something everyone wants. Billions of dollars are spent each year trying to retain or restore health. It is a basic desire of all mankind. Anyone who likes sickness must be mentally sick! Yet, religion has told us that God is the one who wants us sick. It even tries to make us believe that sickness is a blessing. That's just not true. God wants you well.

Healing is in Christ's Atonement. Jesus died for our health just as much as He died for the forgiveness of our sins. This has to be the foundation of our faith for healing. Many Scriptures relate the healing of our bodies and the forgiveness of our sins in the same verse. Jesus went about healing all who were oppressed of the devil and told us to do the same. Jesus hasn't changed, it's the people who represent Him who have changed.

What about Paul's thorn in the flesh? It is commonly believed that the apostle Paul had a sickness for which he besought the Lord for healing three times, and the Lord wouldn't heal him. From that assumption, people teach that God sometimes wants us sick. In this book, Andrew reveals what Paul's thorn in the flesh was, and it wasn't sickness.

If it is God's will to heal everyone, then why isn't everyone healed? It's not because of God. And it's not just because we don't have enough faith. We do have the faith to be healed. Jesus said the problem is our unbelief - unbelief cancels out faith. Instead of trying to get more faith or bigger faith, we just need a pure faith that isn't negated by unbelief.

There are laws that govern the spiritual world just as there are laws that govern the physical realm. Electricity has been around since the beginning of the world, but mankind didn't benefit from electricity until recently, not because it didn't work, but because of our ignorance of the laws of electricity. Likewise, God's healing is here and available. It's only our ignorance of the laws which control the flow of God's power that keeps us from benefiting from it.

Cherish says

This book stretched my beliefs even more. Wommack writes clearly, repeats his important points and backs up everything with scripture.

Karen Salisbury says

I have read, studied and taught on healing myself, but Andrew Wommack has a way of saying things that make this subject sound brand new! I read it for my own healing, and I have to say, I have a whole new faith for healing. Andrew assures us that we have ALREADY RECEIVED our healing by God's grace and unconditional love. If you need healing, read this book!

Yolisa says

If you are serious about healing, read this book. It shows that we have everything we need already at our disposal, we just have to reach out and receive our healing, among other things. Get yourself a copy and start practising using God's Word, even on the tiniest problem. You will see!!!

Art says

Cogent. Theologically sound. Dispels some commonly held Christian myths.

Jerrienne says

Andrew Wommack puts things into simple and perspective for the layman to understand. There are spiritual laws that govern our success in our spiritual growth. Understanding the spiritual laws is necessary to put into practice the process of moving in the gifts of the Holy Spirit.

Sometimes there is repetition in Wommack's books, but that is to 'pound home' a point and one that one will focus upon.

I am moving on to the next book of Wommack, "You've Already Got This!"

Melissa Coryell says

Great book backed with loads of Biblical references! Womack definitely helped me see through Scripture what else the cross purchased for me. We tend to focus on the eternal gifts the cross purchased for us, but there are many present gifts that are meant to be opened and put to use now. If more people were to focus on those too, what a change we would see... We need to get out of this "I don't need Him until I'm on my death bed" mentality and into the "I depend on Him NOW" truth.

Carol says

This is the first book written by Andrew Wommack that I have read. He is gifted in writing as he is in preaching. What a great way to start the New Year. I struggle with 2 auto-immune illnesses, 2 yrs. ago God revealed to my doctor during a hypo-parathyroid surgery that there was multiple cancer in my Thyroid on the other side of my throat. It was found early and was successfully removed 2 years ago. Praise God. Andrew finds things that I never see on my own but are so basic that it makes sense.

I. Healing is part of Christ's Atonement

- A. If Christ suffered and took stripes on His back and died on the cross to purchase our physical healing, then we ought to think enough of it to receive it.
- B. It honors Him to promote healing.
- C. Everywhere Jesus went, he healed people.

II. Salvation means forgiveness of sins, healing of the body, deliverance and financial prosperity.

A. Scripture on healing

- 1. Psalm 103:1-3. Bless the LORD, O my soul, and forget not all his benefits; who forgiveth all thine iniquities; who healed all thy diseases.
- 2. Isaiah 53:4. When the even was come, they brought unto him many that were possessed with devils; and he cast out the spirits with his word, and healed all that were sick; That it might be fulfilled which was spoken by Isaiah the prophet, saying, Himself took our infirmities, and bare our sicknesses.

III. Misinterpretations

- A. God is the author of healing, not illness.
- B. People don't see healing because they aren't committed to it.
- C. God didn't create mankind to die. Death was something man chose. Our bodies are capable of healing and repairing itself.

IV. Our responsibility

- A. God gave us a choice. We have free will to choose what we want.
- B. We fail to receive.
 - a. Operate in faith -- God instructs us through His Word
 - Unbelief: we are operating in unbelief, three types:
 - * ignorance - lack of knowledge. Overcome - tell people the truth through God's Word
 - * wrong doctrine - miracles are not for us today - not true, not what the Word of God says. Overcome- counter the wrong doctrine & teach them the truth
 - * natural unbelief - trust your 5 senses, need to develop a 6th sense = faith. Overcome- through fasting & prayer. Starve your unbelief.
 - don't need huge faith or pure faith, just faith the size of a mustard seed (smallest seed). Abraham & Sarah believed.
 - b. Use our God given authority; Exercise His power; Make it manifest
- C. Three reasons why people get sick: sin, attack of enemy and natural events
- D. God has provided his healing power for everyone. Now flip the switch to turn it on.

- a. Believe, reach out in faith. Faith comes by hearing and hearing the Word of God.
 - b. Speak your faith. Words are powerful. God spoke the world into existence. Speak God's words.
 - c. Speak to your disease directly. I command you out of my body in the name of Jesus. Take authority. Also pray for healing in you body.
 - d. You must speak out loud.
 - E. Act on you faith --
 - a. Get up and do;
 - b. Jeremiah 29:13. You will seek me and find me when you seek me with all your heart. You need a clean heart, one that is free from unforgiveness and bitterness.
 - c. Receive the revelation and walk in it
-

Mike Eccles says

When you are a Christian and you have health problems that are somewhat frightening in a worldly sense, an opportunity opens up to explore the depth of your faith and belief in the power of healing. I am in that situation. Andrew Wommack's insights, whilst challenged by some, have helped me enormously in approaching my predicament and prayerfully seeking relief.

His style is entirely bible-based and his language is easy. The book is relatively brief but has spiritual insight and great personal guidance.

For Christians or aspiring or seeking people I commend this book.

Therese says

This book gave me a lot of new insights into spiritual healing that I had not known before. A lot of the key points are repeated over and over and over. While I can understand why this may have been done it does have a tendency to be irritating and redundant for normal reading. However, when you are reading to learn something it seems to work.

Johnny Andersen says

This of course IS ONLY MY PERSONAL OPINION. Others might see things differently. Ultimately ONLY GOD can judge us human beings. Bro. Wommack might very well be preaching "The Truth"(John 8:32), only God knows. Have a great day. Johnny. Moscow@forum.dk

There is so much food for thought in this book. Andrew Womack is passionate about healing, and he wants us to be passionate too. In his enthusiasm I some times felt that I was being yelled at!! But his theology seems sound.

I particularly enjoyed the scripture in the back where he writes out the 17 times Jesus healed “all” who came to Him. And the 47 times Jesus healed one person in particular. It certainly is faith building. At the moment my husband is dealing with many symptoms of RA. This book is a great read for that. I just finished it. My husband just started!!

Caleb Gibson says

Amazing book! I loved how he talked about Paul's thorn in the flesh, and how many people think that Paul had long term eye problem. He really answered some questions that I had forgot I had! So many times messages confuse you and don't understand a verse or what-not. Wommack is definitely an awesome teacher!

Although for chapter 18, "Act on your Faith," I believe that this idea that we need to have corresponding actions after our faith or before is a idea that brings about confusion. This is from James and you can view my whole explanation in the link below.

I must Believe

I love the way the Holy Spirit has given Andrew to write it is so understandable. I have been healed with so many little illness and infections by doing these faith and believing. I believe my other things will be healed and I will be completely healthy no more meds and other issues I have been dealing with. I differently learned a lot. Thank you and God's Blessings to you and your staff

Jamie Leeper says

I have IBS, Arthritis and Fibromyalgia. I believe in the healing power of God and I believe that one day it will come. The Bible says, by Jesus stripes we WERE healed. Already healed, just wanting for it to completely manifest. God does not want us poor and sick. Sickness came in when Satan took over. It is not from God. As Christians, if we have any sickness or disease, we should cast it every day and claim healing! What testimonies of God's power, healing can bring! Mine will come one day! Praise the Lord! This book was really good!

Mark Merris says

Another fantastic and biblically sound work. If you're believing for your healing or that of another this is a good read that will encourage and strengthen you.
