Lo que hacen los chicos malos

Victoria Dahl

Lo que hacen los chicos malos Victoria Dahl

¿Hasta qué punto puede ser bueno un chico malo?

Olivia Bishop no es una mujer divertida. Eso es lo que decía su exmarido. Y lo que sugieren sus gafas y su media melena. Y también su característica determinación. Olivia está dispuesta a rehacer su vida. Piensa dedicar su tiempo a sus amigas y no desperdiciarlo con ningún hombre. Pero una salida con su club de lectura la lleva a una cervecería y allí se encuentra con el sexy Jamie Donovan, que le resulta demasiado tentador para evitarlo.

Jamie no pretende ser un chico malo. Por supuesto, el aire indomable de sus traviosos ojos verdes ha seducido a muchas mujeres. Sin embargo, ha llegado la hora de madurar. Está dispuesto, incluso, a mantener una relación seria. Aunque, ¿cómo va a conseguirlo si Olivia, la única mujer que le parece realmente adecuada para ello, le ha catalogado como el hombre equivocado?

Alba M. says

Me gustó pero no me encantó.

A ver os cuento un poco como siempre:

Tenemos a dos personajes, Olivia y Jamie. Si ya habéis leído el primer libro de esta saga, sabréis que Jamie es uno de los hermanos de Tessa. Jamie no es lo que parece, todos piensan que es un chico malo, un rebelde que no tiene futuro ni profesión. En cambio Olivia es todo lo opuesto: una profesora de universidad, madura y controlada. Recién divorciada de un marido que le puso los cuernos porque al parecer ella es demasiado aburrida, Olivia quiere divertirse ¿y que mejor manera que hacerlo que con el chico salvaje más conocido, Jamie? Pero Olivia se equivoca con él, igual que todos, y pronto se dará cuenta que hay mucho más en él que podría gustarle demasiado.

Me encantó Jamie, de verdad. Es un osito y un bomboncito todo junto en un paquete de hombre magnífico ♥? He sufrido por el todo el maldito libro. Si no habéis leído el anterior, Jamie tiene dos hermanos más: una es Tessa, la protagonista del primer libro y el otro es Eric. De Tessa solo tengo una queja y es que es demasiado blanda y neutral. Creo que debería haber apoyado más a Jamie en este caso, parece que solo quería ver lo que a ella le parecía más bonito pero la realidad es que la relación de Jamie y Eric era horrible. Y con horrible me refiero a que Eric era un hijo de puta rastrero. Se pasa TODO el puñetero libro echándole la culpa de todo a Jamie, llamándole inútil y diciéndole que cuando hará algo bien en su vida. Mira, yo por mucho que me enfadase con mi hermano (si lo tuviera claro) JAMÁS EN MI VIDA LE HABLARÍA DE ESA FORMA. No sabéis lo mal que se sentía el pobre Jamie porque creo que esto ya debería rozar el maltrato psicológico aunque suene muy bruto. Pero es que ¿quién puede vivir escuchando toda su vida que no es más que un inútil? ¡Nadie! Pues así es como ha vivido siempre Jamie por culpa de su hermano. Odio a Eric profundamente, me da igual lo que pasase al final y que se intentasen arreglar. NO ME VALE. En cuanto a Olivia, me sacó un pelin de quicio cuando se obsesionaba con su edad y sus inseguridades. Creo que Jamie siempre le demostró que veía más allá de toda esa mierda y de echo le demostró que la quería más que el maldito acuerdo que hicieron así que me daba mucha rabia cuando le dijo cosas horribles. En este libro todo el mundo parece vivir para decirle cosas horribles a mi pobre Jamie.

OS ODIÓ A TODOS POR METEROS CON ESTE BOMBÓN ?

Aún así, los momentos en los que Jamie enseñaba a divertirse a Olivia fueron muy bonitos y divertidos, supongo que por esas partes vale mucho la pena la historia.

P.D: Pero sigo enfadada en nombre de Jamie Donovan.

Bekah says

Oh, what fun Jamie Donovan is! And that is just what Olivia Bishop needs in her life after her jerk of a husband cheats on her. Her divorce has been final for a year and it's now time to liven up her life just a bit. She joins a book club that meets at Donovan Brothers Brewery to ogle the irresistible kilt-wearing Jamie Donovan. Soon, Jamie and Olivia are in partnership to have a little bit of fun, and it's not just about drinking beer.

I really am loving this series, and bad bad boy Jamie was so much fun to read about. He's the black sheep of the family, but there is something about Jamie that just makes you want to hold him and comfort him as if

you're the only woman who could possibly understand him. Unfortunately Olivia is the one who gets that chance. And she deserves it. In fact they both deserve each other, a perfect couple. They complimented each other so well and pushed each other to pursue their dreams. However, in between falling in love, there **was** the fun to be had. Jamie was a perfect instructor for straitlaced Olivia right up to the point until he realizes that he doesn't want it to be just about fun and games anymore...but something meaningful and long-term.

I loved that he was younger than Olivia and the fact that this didn't take a prominent place in the story. It was a concern for Olivia, but it wasn't a glaring neon sign throughout the book. It came up at moments, but they fit nicely and in the end, it wasn't about whether or not Jamie was mature enough for the relationship, but whether either of them were ready. They worked through their issues and found a way to be completely intimate with one another that had nothing to do with what goes on in the bedroom. It was a sweet and very very sexy read. Victoria Dahl does it again! Pulls you in with her story and characters and makes you reach for a tall glass of ice water all at the same time.

I can't wait to read Eric's story! He's like a time pressure cooker just waiting to explode and I can NOT wait to see the explosion! He's been jerky, and uncompromising and harsh...but now that his brother and sister seem to have their lives together, it's finally his time. I've complete trust in Ms. Dahl's ability to show him how to let go of all of that tight tension he's had coiling inside of him for years!

Océano de libros says

Olivia Bishop hace muy poco que se ha divorciado y no quiere saber nada de una nueva relación aunque va a ser difícil cuando se encuentre con el atractivo camarero vestido con un kilt Jamie Donovan. Éste deslumbra a las mujeres con una sonrisa pero ahora está decidido a sentar la cabeza.

Bueno a pesar de saber ahora que no es un libro único sino que forma parte de una serie (aunque los libros son historias individuales) tengo que decir que me ha entretenido bastante.

La forma de narrar de la autora ayuda bastante porque es ágil y no te enteras de las páginas que vas devorando. La historia no es novedosa pero la forma de contarla es lo que la diferencia y después el tener unos personajes principales con los que empatizas, son muy humanos y reales.

Por un lado, Olivia es la típica mujer divorciada que se empieza a encontrar a sí misma y que debe reconstruirse, quizás con la autoestima algo baja sobre todo porque su ex la considera aburrida. Y por otro lado, tenemos a Jamie que es todo lo opuesto de Olivia y es por eso que encajan a las mil maravillas. Jamie es todo sonrisa, calidez y buen humor y... un cuerpo para el pecado, que cómo no tiene al género femenino revolucionado. Jamie por su parte quiere ser más maduro y sentar la cabeza y resolver algunos problemas. En definitiva, la historia me ha gustado porque es muy real, con situaciones del día a día y porque su autora ha creado a dos personajes principales que conquistan a cualquiera.

willaful says

I confess, I read the short story and book that start this series mainly so I could work my way towards this one. The premise of the starchy older woman letting her hair down with a younger man just grabbed me somehow. I was happy to get the kind of story I was hoping for -- and even more.

Olivia and Jamie couldn't seem less alike. Olivia's a serious, divorced teacher who's never been with anyone but her husband; Jamie's a charming bartender who's never been in a serious relationship, but has been in plenty of frivolous ones. But Jamie and Olivia share a common struggle: they have big dreams, which the important people in their lives have never respected. Both are longing to do something more with their lives.

When they first start seeing each other, Olivia views it as a fling, with mutual benefits: she'll give Jamie help with his business plan, he'll help her learn how to enjoy life more. She resolutely refuses to believe that Jamie is actually interested in her, thinking she's only with him because of his "universal love of women. If it wasn't for that, she'd never have gotten even a taste, so what was the point of resenting it?" And though Jamie realizes how much their dreams complement each other, Olivia can't see it... and can't understand how much she's hurting him by seeing him as just a charming, attractive guy who can't be taken seriously.

I didn't feel much angst from the first book in this series, but though this one also has an adult, believable conflict, it packed much more of an emotional punch. Jamie, especially, has serious pain to work through -- there's a lot going on behind his charming facade. The character's relationships with other people are vital to the story: I loved seeing Olivia with her awful ex, how strong and aware she was, while Jamie's interactions with his critical older brother show his insecurity and vulnerability.

There are steamy love scenes, of course, but I really enjoyed this most for the story and the characters. It has a depth and intelligence really needed in contemporary romance.

(I reviewed this from an e-arc provided by netGalley.)

Susanne says

Now was the time for a sizzling-hot affair with a younger man who make her toes curl with just the sound of his voice.

Olivia Bishop is 35, Jamie Donovan is 29. Olivia is divorced and according to her ex-husband "no fun". I could really see myself in Olivia (but of course I'm a lot of fun xD xD). Jamie is a playboy and a lot of fun, who wants to be taken seriously but no one does. He shows up in her class and sparks fly.

I laughed and cried over this **hot little number**. With friends and family like Olivia och Jamie you don't need any enemies. Both are told constantly that they can't do it (whatever they try). I really like Victoria Dahl. I mean, she doesn't write the biggest boldest romances but they are sweet hot fun with a little bit of seriousness. They are a little bit like a Disney movie. But way way hotter! Lol!

Auntee says

I loved this book about a romance between a 35-year-old recent divorcee college instructor (Olivia) and the

part owner of a family brew pub (29 year-old Jamie) but don't have much time to review it. It was hot, funny, and fast paced. Yeah, it was hot.:) So, what to do? How about some pictures of lovable stud Jamie, who sometimes tends bar in a kilt?

Jamie...and other men in kilts

One other thing--Jamie's brother Eric was *such an ass* in this book, I don't know how I'm going to like him when I read his book Real Men Will. But I have faith in Victoria Dahl's writing--I hope she doesn't disappoint! 5 stars

Jae says

Jamie, Jamie, Jamie. You are such a hot and studly flirt, bless your heart. And with those fine fine kilt on, you just are not for the faint heart.

I have to say, I enjoyed book #1 a bit more than this book. Not too much by comparison but still this one felt a bit lacking mostly in the humor part. I cannot recall any LOLOL moment at all in fact. The story which revolve around Jamie with his siblings and Olivia with her ex-husband was very engaging and intriguing but I need the extra wittiness for me to slot this into my **LOVVIT** shelf.

Eric was such a cold-hearted bastard to Jamie I was nearly tempted to disregard his book coming out next. But just barely. The uptight one is usually the wild one. Looking forward to book #3.

Splage says

Good read, good story. Jamie is beyond sexy and I loved the older woman/younger man theme. In Dahl style, it is an easy, very hot read.

I didn't feel a huge love connection between Jaime and Olivia or the Donovan siblings connection as a matter a fact. There was a very strong LUST connection though and some good triangles. In the first 2 books (there was also a short story in The Guy Next Store which is a prequel to the third story and oldest sibling, Eric) the stories have a HEA, but they are not complete, overwhelming or as perfect as most of the books I read. Not sure if that is good or bad more of an observation, I hope after the 3rd one, which I am about to start, all their issues are resolved and I feel satisfied with a BIG HEA and the family can give each other a loving group hug.

Jess says

Review posted: Happily Ever After - Reads

...his green eyes twinkled. God, could he just do that on demand? What a terrible and deadly skill.

The first word that came to mind when finishing this book was emotional – I was really not expecting it, especially coming from crazy Tessa’s book, she had me rolling off the couch in fits of giggles. Jamie, I just wanted to give him a great big hug. Talk about a guy who’s carrying the weight of the world on his shoulders, only no one really sees that. He’s the happy-go-lucky part owner/bartender of the Donovan Brothers Brewery, he wears kilts when he feels like it and loves the people that come in. He can work a room like nobody’s business and comes off as maybe an overgrown kid. But inside, he’s struggling to get himself out of the playboy role his brother and sister have always had him in. In their eyes, especially Eric’s, he’s irresponsible and would rather be looking for a good time instead of growing up. How wrong they are.

Olivia is coming off a bad marriage, bad in the sense that she gave up everything to be whatever her husband needed her to be, gave up her dreams, her likes, her personality and after she caught him cheating, she divorced him only to be completely lost. She can’t remember who she really is anymore. She lives and dies by lists, appointments, schedules, that’s her life. Her friend Gwen drags her to a monthly book club meeting where she meets Jamie and realizes that maybe taking a risk, even a really small one, might not be such a bad thing.

After a first date that happened under a few false pretenses, Olivia confesses that her ex told her that she wasn’t fun, and she desperately wants to learn how to have fun again. Jamie, who’s taking a restaurant management class taught by Olivia, wants to put together a complete plan for opening up a restaurant at the brewery. He’s determined to do it, but needs a consultant. Olivia and Jamie agree to help each other out and the fun starts.

Jamie pulled her in for a kiss.

“You look exactly the same way you do after sex,” he said.

“Because I’m laughing?” she collapsed into giggles again at his look of outrage.

“I was thinking more of the breathless screams.”

“I bet you were.”

Olivia is convinced that what they’re doing is just for “fun” and it takes her a bit to realize that he’s not at all like the persona he puts out there for people to see. He so desperately wants his family to start to see him, but he keeps everything so close to the vest, he doesn’t show them all the work he’s put into his home or the landscaping, and he doesn’t tell them that the time off he’s taking from work is to attend business classes. It’s not like Jamie doesn’t try to explain himself, he does but Eric cuts him off all the time and won’t listen. He doesn’t stop for one second and actually hear Jamie. He gets on him about everything and their bickering got a little old. If a bartender doesn’t show up, it’s Jamie’s fault because he hired him. Never mind the bartender isn’t there for a completely valid reason, everything’s Jamie’s fault. Some scenes were hard to read on Jamie’s behalf, it really bothered me how Eric treats him through most of the book. But with Olivia’s help, Jamie knows he can make something with his restaurant plans and moves forward knowing if it doesn’t

happen at the brewery, he'll make it work somewhere else.

Jamie and Olivia are a fun couple to get to know. They both have their hang ups, Olivia having a few more to deal with coming off a failed marriage, now she's learning to have fun with a slightly younger guy and she's in a career that she doesn't love. She slowly comes to realize that the only person holding her back now is herself and her confidence grows throughout the story. They were interesting characters apart, but became stronger together, and of course once they got over some bumps along the road, the emotion really came out when Jamie started talking about his past.

Jamie kissed her hard, and she sucked at his tongue as if she needed this as much as he did. Framing her face in his hands, he kissed her for a long, long minute, then dragged his open mouth down her neck. She smelled like him. His soap, his shampoo. She wore his clothes and his scent and she was in his bed. He wanted to snarl with satisfaction.

We have a couple scenes with Eric, Jamie and Tessa and I just love how the brothers still act scandalized that she's not the little sister they have in their minds. We get a small glimpse of where her relationship with Luke is at, and I love how "older brother" they both still act. Like Tessa would ever put up with it, it's still very sweet.

This is another nice read in the Donovan Brothers Brewery series, seeing Olivia take back control of her life with the help of Jamie and watching Jamie realize that he has so much more to offer everyone around him, and having him fight for it. It was nice to watch these characters grow and come together and even though Eric acts like a huge jerk to Jamie, I want to know why(!) and I'm looking forward to finding out who the real Eric is in his book, up next.

Saly says

Jamie Donovan, oh what can I say about him, except he was one deliciously sexy, tortured, misunderstood bad boy?

Jamie has always been the screw-up Donovan while Eric is the one who is staid and responsible, but Jamie is trying to change and grow up but his family especially Eric doesn't see that. We can see in Tessa's book, Jamie's growing anger and frustration. He himself feels unworthy and there is a distance between him and his family, he doesn't let them see the "other" part of him, the part that has dreams of expanding their brewery into a restaurant, the part that has lovingly restored his house and garden and the part that is taking a course on restaurant management, to them he's still the playboy bartender who draws the crowd in his kilt.

Olivia Bishop has always been serious and controlled, first as a child whose parents had other things to occupy them, then when she got married at twenty-two and allowed her husband's Victor's needs mold her, she gave up the things she liked thinking they weren't okay for a grown-up and partly because Victor didn't like them which she acknowledges later, she also went into teaching since Victor pushed her into it but now she's divorced(her choice, she found her husband cheating) and goes out with some women for the first time, where she meets Jamie.

The next time she meets him when he's in her class(a non-credit one) and he asks her out, she refuses of course, she is older than him(he's 29) and he's freer and younger while she is un-fun and controlled but later when she has to go to a college faculty party she asks him to come with her since she isn't upto dealing with Victor and how he is constantly trying to show off the younger women on his arm, not that she cares but she thinks it's rude.

As things come to pass they get involved, with Jamie promising to loosen her up and broaden her horizons, be it staying up late and deviating from her set schedule or trying out beer or skinny dipping in his hot-tub while Olivia helps him out on his business plan. They never define what they are doing, Olivia thinks that she finally letting go (she's only been with her husband) while Jamie likes being with her, it is easy and she's not like the women he's been with, she listens to him.

I enjoyed this book, more than Tessa's mainly because of Jamie, he was so good and I really wanted to kick his family (Eric actually) for constantly throwing his mistakes on his face and not giving him the benefit of doubt. Jamie's happy go lucky exterior hid a lot of pain and self-doubt and I even disliked Olivia for treating him badly and not seeing beyond it. He respected her and made her see that it was never too late to change oneself and follow her dreams (of opening up a business) but Olivia could never believe that Jamie would want to be with her.

I did like the fact that her ex wasn't a factor in what she was doing even though he made a nuisance of himself, constantly trying to call her and stuff.

Now, I can't wait to read Eric's story mainly to see how he will be redeemed because honestly he's been a patronizing jerk to his siblings especially Jamie.

ARC received through Netgalley

Francesca the Fierce (Under the Covers Book Blog) says

This review was posted at Under The Covers

There aren't many things sexier than a hot young man, with blondish hair, a wicked grin, a sexy mouth, a beer at the ready.... and a kilt! Jamie Donovan is sex on a stick, or as I said before, sex on a kilt with construction boots. He is the bad boy, the black sheep of the family, the "irresponsible" Donovan brother, who works at the brewery as the bartender and public face of the brewery, flirts with anything female, and has a reputation for sleeping around (and being damn good at it!)

But there's a whole other side to him and it was so sweet to see that he is actually looking for recognition, looking to belong and feel comfortable. He loves his family and wants to prove to them that he is not the fuck-up they see him as. But he has a hard time of proving this to his brother! They had a lot of family conflict in this book, which at times was almost too much to read and maybe one of the reasons why this wasn't a 5 star read for me.

Now onto the romance. I'm sooooo happy I was confused and wrong about who was Jamie's HEA. I actually thought he would end up with Monica (from book 1) and I really couldn't see how that would work out, being that she had betrayed his family. But I'm happy to report it's not her! We meet Olivia Bishop when she first goes into the brewery with her book club friends and they are all drooling over Jamie, especially when he bends over with his kilt *sigh* where was I? Oh yeah! So she's divorced, her ex is totally crazy and stalkerish in a way, and she hasn't been able to get back in the dating game.

So when Jamie ends up as her student on one of her college classes about restaurant development and has a proposition for her, she can't refuse. She will help him with his plans for the Brewery and she will get some no strings attached fun!

And let me tell you, Jamie knows how to show a girl a good time! He can melt the panties off ANY girl! I

have one complaint though... after all the drooling we get to do over his kilt, the one time they have sex with him wearing it, it's a "fade to black" moment. I feel cheated!!!! LOL

This book was scorching hot, yes more than book one. A LOT of family drama, the investigation into the brewery break-in continues. Jamie has a lot to prove to himself, to his family and to Olivia. But he definitely got to my heart!!!

Wminbc says

My review at

<http://www.nocturnereads.com/Bad-Boys...>

My review was focused on Jamie and his love story with Olivia...but one thing I do need to comment on is the interplay with Eric. Eric did seem so different in his anthology story (The Guy Next Door). In the past two books we have met the 'real' Eric or the 'type' Eric that he feels he need to play. The role of parent and enforcer seemed to grow old in this book and I really wanted Eric to just snap. I cannot wait for him to get it on...and maybe even benefit from some of those "classes" offered a The White Orchid!

Excited for Real Men Will....Eric show us what you got, baby!

Review

Did I mention somewhere that I fell in love with Eric in the anthology The Guy Next Door, well...I am two timing Eric now with his brother Jamie. As the hawt, kilt-wearing, fun-loving, keg tapping younger brother, Jamie is everything that Eric is not. Wild, exuberant, chatty and irresponsible. But as time goes by, Jamie begins to question what he really wants out of life. And, "just being a bartender" is not it. Jamie fights an uphill battle to convince not only his family, but the one woman he has met that he can be more than a party boy.

Jilted but not totally bitter, Olivia picks herself up after her divorce and decides to have a little fun. As she and her friends tip a few over at the Donovan Brewery, she can't help but notice the gorgeous man behind the bar. Truly, you would have to be blind, def and dumb not to notice Jamie and the harem of women that tag along behind him. Olivia is surprised to then see him show up at her work, the local community college. Trust is tough commodity in this book...Olivia must learn to trust her heart and Jamie, while Eric learns to trust his brother to be the grown man he really has become. So many times my heart clenched and ached for Jamie and his frustration over reliving his mistakes of the past.

I was eagerly awaiting Jamie and his shirtless water feature installation, but I got so much more...the loving is hot and abundant, but the HEA is even better! This story only made me want Eric's, Real Men Will, even more. Enjoy!

Alexa says

Victoria Dahl writes good contemporary romance. I've only read three of her books, but I can tell you I'll probably keep reading. She writes distinctive characters in interesting situations.

In this case we have a younger man/older woman book. Well "older" she's 35, he's 29. It's not even a huge difference but just the fact that she's older makes it interesting.

Olivia (our main character) is super serious, while Jamie is easygoing and loads of fun. And he wears a kilt. I'm a sucker for a guy in a kilt. *drools*

Their relation has actual development, no insta-love here guys!

Sadly, they're both used to letting people treat them like crap (Olivia by her husband and Jamie by his brother) and while all is well in the end, I felt I was missing some comeuppance for the 'bad' guys. (I say bad guys in the broadest sense because there are no real bad guys here)

The plot is straightforward and chronicles their relationship and their own personal development. While there's obvious drama, it's not overblown and it's resolved in my favourite way: talking.

On to the next one!

Shawna says

5 stars – Contemporary Romance

Oh, I really enjoyed this one! Jamie and Olivia were a cute, fun, sexy, and perfectly complimentary 'opposites attract' couple with flammable chemistry that made for some seriously steamy bedroom (and hot tub) scenes. *Yowza!*

KatLynne says

3.5 Stars Another Hot, fun, sexy read.

This is the story of twenty nine year old Jamie Donovan who's not only gorgeous but oozes charisma and sex appeal. I can easily see why he is such a favorite of all the women, especially when he works the bar wearing his kilt. But beneath all this charm I found a tortured man who is riddled with guilt.

Olivia Bishop, 35 year old university teacher, has recently divorced and is tired of her boring existence. She wants fun and excitement added to her life. I loved this heroine and she is so perfect for Jamie.

I really enjoyed this romance. There is chemistry here and smokin' **HOT** lovin' along with many laugh out loud moments. I was glad to see Jamie work through some of his problems with brother Eric.

What bothered me in this book is that I did not feel a great love connection between Olivia & Jamie. It was there and stated, but I missed it I guess.

I gotta say I love a sexy man in a kilt! Jamie sure does fit the bill and here are a few images I found. But you must follow this link to my GR friends Auntee & Jae's review for absolutely amazing pics! Just lickable yummy:)

<http://www.goodreads.com/review/show/...>

<http://www.goodreads.com/review/show/...>

I've added this one as it's one of my faves:)
