Double Penetration in the Desert Lane Masters

Hot Summer Read!

When Melissa and her husband, Greg, find themselves stuck in the middle of nowhere with a broken down car and no money, they have very few options except to work out a deal with the hot and sexy, black repair men. The two men put their tools to work, giving Melissa a vacation she will never forget!

Warning: Explicit depictions of sex with multiple partners. Readers over 18 only, please!

Corinthia Price says

Interesting read.

Leah Walker says

Hot!!

djdavis~*Sivad*Sex Pocket says

You get what you pay for. 2.5 stars

I can't be made...this book was free, but while the title suggest some serious erotic fantasies, porn on paper was really expected. I shake my hand at myself because any short story with a title like this should have been been a clear sign.

So, if you're looking for an extremely hot three/foursome porn on paper just to get a quick fix then this is the book for you.

Yianna Yiannacou says

I sort of actually kind of enjoyed this free short story. I feel just a little bit awkward admitting to that.

It starts off when Melissa and Greg get stuck in the desert and their car breaks down. They find the only gas station in sight and bring their car there to be repaired. The one bad thing about bringing your car to the only repair shop in town is the price they charge. They are always higher than anywhere else since they know you have no other shot, but these guys decided to give Melissa and Greg a break. Even though they gave them a discounted price, Melissa and Greg still didn't have enough money to pay the mechanics. So in that case, the mechanics come up with another form of payment that Melissa could be of assistance with. They go back to the Mechanics house (there are two of them) and Melissa repays then in whichever form she can. At first Greg was opposed to it, but he seemed to enjoy watching.

It is a really exciting story that I would recommend. A little bit awkward maybe, but definitely fun! Haha!

Pamela daSilva says

Double in the Desert by Lane Masters

Short story that is strictly for adults . Love the way they barter for repairs on their car . It was fun for all. Enjoy the book.

Amy says

Wow! The description says it all. Forbidden fantasy.

Rissa says

It was a nice short ebook. Good for when you want a quick read. The premise is a good one but I don't know what I thought about the execution. I like it but when I think about it I feel like something was missing.

This book is definitely what it claims - a fantasy. Why? Because there is no way she felt no pain when two well endowed men like Antonio and Jalen penetrated her without preparation. Again, this is a fantasy so suspend your disbelief and enjoy the book for what it is.

Themis says

What a quick read. I think the author has mixed the characters up, he was introduced as Jalen then halfway Brian. It was a small slip up just before the steamy sex scene. I'm not big on cuckold 2.5 stars

SN the Viking says

frebie on amazon, POP (porn on paper).

Andita says

Good short...

story of lust and maybe some luck thrown in also. The story was not that believable but it definitely gets the juices running.

Nalyah says

Melissa and her husband, Greg, were on a road trip through the country. Their car however was old and broke down in the middle of no where. Now finding a repair shop they meet Antonio, the owner of the shop. After the inspection, it is realized that because of lack funds, other arrangements must be made.

Rebecca says

Wow this was damn hot naughty wicked sexy just a little reading wow hot hot hot

Ray says

It was pretty good. well written, the premise wasn't outlandish. I think it was up to standards. I think it was good for a quick hitting hot tale.

Edward Smith says

This is the second time i have come across and read this short story and i have been completely taken in and entertained in both encounters. The wife's frustration and the husbands guilt over the circumstances they find them in are palpable and create a sense of belief to the story.

Can't wait till I find this story again next year.
