I swear. These dang titles are so misleading. Where the heck was the passion in this book? The way these characters passionately talk to themselves? Or maybe it's the way they passionately avoid even a smidgen of real intimacy? The only real excitement in this story didn't even come from the MCs. It came from Joshua's brother Jamie. And the drama wasn't even all that great.

I will say that I do like how this author frames her work. I have no complaints there. Call me greedy, but I just want more. Being intense is not a bad thing. I want my attention snagged to the point that I forget my responsibilities. I don't think that's too much to ask.

I really want to love this story but it's just missing something and I can't put my finger on it. The characters are great but it's just not doing it for me. No angst and too light. Not enough substance I guess???!!!!

This series just gets better and better as it progresses! Ellie Danes and Katie Kyler have truly outdone themselves with this series! This dynamic duo just keeps churning out masterpiece after masterpiece and they are all pure brilliance and honestly I say keep them coming ladies because as a reader I for one love each and every novella!

Edge of Passion Book 4 in the Edge Series, picks up right where book three leaves off we find Allison absolutely heartbroken with the way Joshua treated her and she is just unsure of where they currently stand at this point. Joshua has now realized that he was a complete idiot and she was right in front of him the entire time and he was so blinded by his feelings that he couldn't even see what was clearly there. This book is full of emotion on both sides for Joshua and Allison it is fast paced and there is some HOT and STEAMY action that takes place in this book. However it isn't all roses, because there is some major drama that unfolds and leaves Allison unsure of what to do or where things are going and at the end we are left with doubts about whether this is truly a match made in heaven or not.

This characters have an amazing connection that is so relatable and as a reader your able to connect with the emotions they feel. Ellie Danes and Katie Kyler have done such a terrific job I cannot wait too see what happens next. If you haven't downloaded this or added it to your TBR list add it today you don't want to miss this amazing series!

Title: Edge of Passion

Series: The Edge Series

Designation: Book Four of a multi-installment serial, Not a Standalone Story

Authors: Ellie Danes and Katie Kyler

Genre: An Alpha Billionaire Contemporary Romance

Heat Level: Steamy

My Rating: FIVE STEAMY STARS *****

Wow! We have lift off!!! I began reading Ellie Danes work a few months ago and I was so impressed with her talent that I began devouring everything she has published. So, needless to say when I discovered she had partnered with Katie Kyler for an exciting new serialized collaboration, The Edge Series, I could hardly wait to snag the first book of the series , Edge of Attraction. And folks, these two authors are a dynamic duo who do not disappoint. Their unique writing styles complement each other brilliantly. I'm now on Book Four, Edge of Passion and I can't get enough! I love it! And yes, this is not a standalone story. It is a serial and does contain cliffhangers so if you haven't read the first three books of the series, stop here! The book is written in the first person with dual alternating points of view from the two primary characters, his and hers by chapter designations. I find this to be my favorite reading preference because it seems to give additional depth, perspective and complexity to the characters and makes it so much easier to connect to not only the story but the people as well. I also enjoy knowing how each of the lead characters feel and what's going through their mind. The story is modern, fresh, fast paced, well executed, well edited, sweet and romantic. The dialogue is smart, exceptionally well written and flows effortlessly. The characters are always the main attraction for me in any book and the authors have done an outstanding job of crafting the players in this story. They are captivating, engaging, endearing, very relatable and sinfully sexy. Danes and Kyler have expertly combined these elements into a riveting and entertaining romance. These two very talented authors have given us a beguilingly seductive Cinderella story we can all easily identify as our own secret recurring dream to find a handsome Prince Charming who will sweep us off our feet, see past our outer facade, recognize our inner beauty and whisk us away to a perfect life. And in this case, Cinderella is none other than unappreciated, unremarkable and unnoticed thirty two year old Allison Mahoney, hardworking employee extraordinaire of Tolbert and Tolbert also known as Scintilla, the newest and hottest matchmaking website on the market. Allison has dedicated the last three years of her life to her job and her handsome boss, Joshua Tolbert. Joshua is the CEO of Tolbert and Tolbert and the genius behind the creation of the wildly popular Scintilla. No matter what she does or how hard she tries, it seems she can't get the smexy Joshua to notice her. Heck, he can't even get her name right. He had even called her Abby when she presented him with a birthday gift. Why would he remember her? He's wealthy, gorgeous, charismatic and dates supermodels for heaven's sake. Why would he be interested in a plain-jane like her? The only notice she ever gets from anyone is a few occasional remarks from the younger brother, Jaime Tolbert, second in command to Joshua. Heartbroken and disillusioned after the birthday gift fiasco, Allison decides to take the bull by the horns and step out of her comfort zone by finally creating a profile on her company's website and is more than a little shocked when less than twenty four hours later she's contacted with a "spark" and it's a ninety eight percent match. Huh? Someone is interested in her??? The profiles allow no real names, no email addresses and no personal photos until the first date when the couple meet and see each other for the first time. It's all part of the matching process. Matches are based on likes and desires submitted by the applicants along with several personality and character tests specifically designed to determine compatibility. The company has been wildly popular not to mention extremely successful so there must really be something to this special formula they use. Well, if they can find a match for everyone else, then they should be able to do the same for her. She's ready to take the plunge and agrees to a first date. She'll just forget about her bruised heart and her irresistibly sexy boss, Joshua Tolbert, and move on with her life! Or will she??? Maybe not because her match and blind date is none other than Joshua Tolbert, her boss! Huh? The only problem - apparently he doesn't recognize her. What the heck? What's a girl to do??? Why she continues to go out with him, of course! So, after three wonderful dates, is it possible that he still doesn't realize who she is??? Could Joshua be so shallow and so superficial that he can't even connect the dots between PhillyGirl and Allison from the office??? Hmm...I wonder??? Joshua Tolbert has worked four long years to finally get his company where it is today and now he wants to enjoy the fruits of his labor. He has charm, wealth, a new home, a thriving business, recognition for his hard work. Yep, most people would say he has it all. His only problem - he can't seem to find the girl to share it with. He wants "the one", that one special girl who will

make his life complete. He has no problem finding beautiful women but they all seem to be selfish and shallow and only interested in one thing - his money and that's not what he's looking for in real relationship. After another disappointing date, Joshua has an epiphany. He'll create a profile and try the matching service on his own website. After all, he has nothing to lose; he just may find the woman of his dreams and much to his surprise, it seems his company's dating app is just as great as he proclaims. He's been matched with a beautiful and intelligent young woman, and she just may be "the one". The only problem - he doesn't know her real name. Or does he??? It couldn't possibly be pantsuit girl from work??!! Could it??? Yep, it sure is but now that he knows that the beautiful, intelligent woman he has been happily dating is most definitely the same frumpy girl from work, what will Joshua do??? Surely he wouldn't angrily accuse her of deliberately deceiving him, would he? Oh yes he did! Oh my! She's "the one" and now he may have lost her forever! What's a guy to do!!!? Will she ever forgive him??? Hmmmm... I wonder??? Beautiful, dedicated auburn haired employee who is secretly in lust with her boss-check! Wealthy, handsome and apparently very superficial and quite clueless CEO who can't see the forest for the trees-check! A dating app and a surprising blind date-check! Serendipitous love and some dreamy sex-you bet! That and a whole lot more! I can hardly wait for the next installment! Deliciously cute, completely captivating and delightfully entertaining !!! This is a serial with multiple installments and will include cliffhangers.

Love the series

I love this series. The love is getting real between the two of them. I'm waiting to see the conflict with Jamie.

Dee Archer says

In this ongoing series of novellas, Jamie & Liz are together and dating. But Liz's insecurities flare up into jealousy when Jamie's old crush comes to his company as a temporary consultant. With her heart in a cold freeze, Jamie scrambles to deal with the chill. It's a good story but is ruined by a fragmented cliffhanger. The whole series, I understand, is chopped up into bits. Book 5 is next, I guess, but I won't be looking for it. Maybe abrupt "endings" don't matter to you. In which case it's a great, quick read. I voluntarily reviewed an advanced reader copy of this book. Three stars.

Rooting for this couple

Part four opens immediately following the heartbreaking encounter between Joshua and Allison that concludes part three. The two find that they are unhappy apart and long for each other. Then, the plot thickens, and even as Joshua and Allison seem to be bridging the gap that previously separated them, old insecurities and doubts still remain a possible hindrance to them maintaining a stable relationship. All and all, this series continues to be an attention holder, and I am eager to read part five.

Denise says

The series continues and it keeps getting better. On to book 5

Series continues

The series continues and it keeps getting better. Finally Josh no longer finds Allison invisible. But it's he a brand new man, or the same just dressed up differently.
