This is **Sally**. She is twelve years old and loves to read. Sally lives in a small town called Durham in North Carolina, and she visits the library almost two times a week. People say Sally is addicted to reading.

When Sally goes to the library, she takes Milkshake, her cat. Milkshake likes to sit on the tall stool in the library and watch Sally while she is looking for a good book to read.

Sally believes that Milkshake understands her completely, even if he can't talk to her.

It was Monday morning, and Sally did not have to go to school since it was a holiday. **What she didn't know is that this day was going to be special.**

## **From Reader Review The Magical Zoo #1 for online ebook**

### **Urdee says**

#### **Great**

Great book for childrens. My girl liked this book. She was very impressed and much thankful. I don't know before.

---

### **Nancy Storms says**

#### **Half a short story**

It started out nice. My son was interested in the characters. We reached the apex....and nothing but an ad to buy book 2.

---

### **Mandy says**

#### **A letdown**

This is not actuality a book. It is the introductory chapter of a book. I wish I had known that before we started.

### **Angela Lambkin says**

#### **What a fun way kids to not only learn what it's like to learn....**

I found this to be a very interesting and fun way for young kids to learn about animals at the zoo and also in encouraging them to want to read and whenever possible to visit the library,too. Such brilliantly illustrated work. I therefore recommend this ebook for young kids and wish to give this ebook five stars just for these reasons only. I received this ebook for free and have given it an honest review! Great job Dan! Keep getting better and better! By Angela

### **Emily says**

I really liked it because it ended on a cliffhanger which I liked because I don't know what is going to happen

---

### **Chase says**

It was okay, book it was short and magical. The illustrations are colorful and neat, the wording isn't too complicated and redundant, and the storyline is one that was interesting in.

### **Laine Smith says**

#### **Rip Off**

This series costs \$2.99 per chapter!!! This is only chapter one... Not book one! My daughter was very disappointed that I would not pay over \$20 to get to read the whole book!

### **Tiredjo90 says**

#### **Good book could be longer.**

Good book but it could've been longer and more exiting.  
Also this book was a little bit boring but was funny when the animals popped out of the book.  
The girl was funny when she opened the book and she screamed because she wasn't expecting it.

### **Dorothy says**

#### **A chapter to maybe a great story.**

This was a great chapter to read. I was a little disappointed that there wasn't more of the story. The warrant even a expiring that this was only 1 cheaper. Even my daughter was disappointed that there wasn't more to listen to. The only plus was the pictures in the b book were well thought out. What's not to love about going to the library. Only can always find a new adventure to go on. But I don't know a library that will let you take a pet into.

### **Sandra Stiles says**

Sally loves taking her cat Milkshatke to the Library with her. She loves sitting and reading too him. She finds a strange book on an upper shelf. As she opens it Milkshake notices a strange glow coming from the book. Suddenly several animals and a zoo keeper pop out of the book. This is obviously the first book in The Magical Zoo series. Very cute.

### **L. C. says**

**Great introduction. That's all it is.**

My daughter and I loved the story, loved Sally and little Milkshake, (the cat); we were taken aback however, by the fact that barely into the story, the book ends. In a very unlikely cliffhanger, which I must say it's quite annoying. This book should be marketed as a 3 minute introduction and not book 1 of a series. Very disappointed.

**Diane Chattaway says**

**Interesting.**

I don't think I have read a story like this before. Reminded me of jamanji, without playing the game. Would have liked to have the story finish so we would know how they got the animals back and where they found them all in the same book.

---

**Nicole O'Connor says**

**This is only an introduction; not a standalone story.**

The images were adequate and the font was clear. This magical story was getting underway when the exciting part disappeared. Whoosh! ... disappeared into the next sequel.

---

**Bella says**

**Wow nice book... Will read the next one**

This is the first book I read to my little one. He truly liked it. He was smiling at me and listening to each word. Will read it to him again. A good read.

---

**Linda Hamilton says**

**Kept My Granddaughter's Attention!**

My 8 year old granddaughter does not like to read! Mot only did she read it book, she read it with enthusiasm! I could not wait to hear now it was to end!
