Enemy Mine

Katie Reus

Enemy Mine Katie Reus

Their families are sworn enemies...

When Kiernan and Melina spent one passionate night together a year ago, they never thought that it would change their lives forever. While the attraction was undeniable, wolf shifter Melina Rodriguez knows it takes more than passion to combat a century of family animosity—even if she can't manage to get dark, handsome Kiernan out of her head.

But he won't let her go.

After a year of relentlessly pursuing the one woman he shouldn't want, vampire Kiernan has finally convinced sweet, passionate Melina to give him one more chance. When their hot Miami night of flirtation is violently interrupted, he has to convince her to put her life in his hands. With an unknown enemy targeting her and their own families against their union, he knows he'll have to show her that he'll do anything to keep her safe. And he doesn't care who gets in his way.

Length: NOVELLA

REVIEW

*May contain spoilers *

Kiernan and Melina had only been together once over a year ago but something happened during that one time that had Kiernan longing to be with Melina again. Melina's pack however would never allow that. There is a long-standing feud between Melina's pack and Kiernan's coven and because Melina is still very young, she has no idea. When someone tries to kidnap Melina everything that was thought to be turns to hell in a hand basket. Kiernan will do all in his power to save the woman he has come to love.

This is a short but sexy book. If you enjoy vamps, weres, action and romance then grab yourself a copy of this book. This is a re-release and the one I read.

I was gifted a copy of this book for an honest review

Katie Reus

Alex (HEABookNerd) says

Ever since their one night stand, Kiernan can't stop thinking about Melina and now that he's relocated to Miami he's determined to win her back. But things are a lot more complicated now that he knows who she is -- or really who her family is. **Melina is the beloved daughter of the Rodriguez pack Alpha and the long standing enemy of Kiernan's vampire coven.** But when someone tries to kidnap Melina, Kiernan is there to save her and he'll do anything to protect her and win Melina's heart. But with everyone against them, it's an uphill battle.

I love both vampires and shifters so I was so excited to have both in this story. Though this book is very short **it's chock full of action and storytelling.** Katie Reus really excels at writing novellas and making sure they are fully developed. Though most of the initial attraction and emotions are already established at the beginning of the book, the reader can still enjoy the growth of Melina and Kiernan's relationship.

Kiernan is of course an overprotective male but he still cedes to Melina's wishes and doesn't try to stop her from using her abilities or helping others. Melina was very young and somewhat idealistic but still a likable heroine. I'm sad that this is a single title because **I'd love to get more stories about both Melina and Kiernan's siblings.**

## JoRead says

3.5 STARS

Reviewing the audible version. I thought the narrator did a wonderful job with the story. He kept the pace of the book fast and interesting. He made our hero's voice sound sexy yet dangerous. I also liked that he didn't increase his voice one octave higher to sound like a silly girl when giving voice to Melina.

The story in itself focused more on the relationship among all characters than world building. I wish it would have gone deeper into explaining what Melina's family business was and why it made her doubt Kiernan's initial interest in her. Although I suppose given the length of the story it provided a practical reason for the hesitancy. Melina and Kiernan had great chemistry and the animosity between their families made a lot of sense once it was explained. I only wish the story would have been longer because the story felt incomplete somehow, like they reached a HFN instead of a HEA.

All in all the plot was well written so I'd definitely recommend it to anyone that enjoys PNR.

\*\*\* This is my honest opinion and given without any influence by the author or publisher.\*\*\*

## Carolyn Reilly says

Enemy Mine is a standalone novella with a great Romeo and Juliet take featuring two hundred-year-old vampire Kiernan Doyle, and wolf shifter Melina Rodriguez.

They had a hot night of passion a year ago neither of them had been able to forget. The problem: His coven and her pack are sworn enemies. But Kiernan won't let a family feud stop him from trying to convince Melina to go on another date with him. When she finally agrees she gets attacked by an unknown enemy and Kiernan does everything in his power to protect her and hunt down her attacker. He wouldn't even let her overprotective family get between them.

I loved the forbidden love theme and how protective Kiernan was of Melina. This was a quick read, but packed with sweet romance, passion and excitement. Highly recommended!

\* I received an ARC from the author in exchange for an honest review.

## Astrid - The Bookish Sweet Tooth says

My review @ Coffee, Cookies & Books

This is a re-release which has been slightly edited since the original release. Before this I'd never read a book by this author although I'd had her on my TBR forever. I'll definitely read more of her works.

This story is a classic story of natural born enemies becoming lovers. Typical Romeo and Juliet style. Although this was a very short story there was a lot of information to get a feel for the world our two main characters were living in.

Kieran is a vampire and one night of hot sex with Melina tilted his world on its axis. Why can't he get the wolf shifter out of his mind when they are supposed to hate each other? And Melina feels pretty much the same way. Kieran is a protective and possessive alpha male with a sweet side to him and Melina is the female version of him. She goes against her families wish to see Kieran and he in return does everything to justify her faith in him.

Enemy Mine was a quick sexy read with adorable characters. I really hope that Katie Reus expands this universe and gives us more stories set in it.

*ARC received via Netgalley in exchange for an honest review - thank you!*

### **Kristi Hudecek-Ashwill says**

"Enemy Mine" is a fantasy/supernatural, stand-alone novella.

The story is about Kiernan Doyle, a vampire, and Melina Rodriguez, a wolf-shifter/healer. They shared a night of passion a year ago and can't forget each other. She's a veterinarian and he comes into her clinic often. She treats him with some irritation and disdain but is incredibly attracted to him, as he is to her. It's only a matter of time before the embers are fanned into a full-fledged inferno.

But their love is not to be. Not only are they of different species, their families are enemies because of an incident that happened between Melina's brother and Kiernan's brother. But gosh darn the consequences, they wanted to be together!

The book is filled with page-turning action, a bit of mystery, and a heck of a love story. It is a short read and well-worth the few hours it takes to read it. Besides, who doesn't want to spend a little time with a hot 6'4" dark haired, dark eyed vampire? ;)

### **Maya says**

#### **3,5 STARS**

Well, this one was definitely fun to read. It's a really short story but still very enjoyable. You get romance, action, attempted kidnapping and even some sexy alpha time. Of course, since the author is Katie Reus the story is bound to be good. And it really is!

Who wouldn't love a forbidden love story, right? It all started over a century ago, when Kiernan and Melina's family went at each others throats (quite literally) because of what Kiernan's brother did. Don't worry, I'm absolutely letting you wonder what that was. You wanna know, read the book!

Anyway, that feud does in no way stop Kiernan and Melina from falling in lust with each other that then lead to some good all night workout, if you get what I'm saying. But that all happened a year ago and now Kiernan simply can't get enough of his feisty werewolf. He basically becomes her personal stalker. But not in a creepy way, I would say that Melina finds it more annoying than anything else.

*It didn't seem to matter to him that they were natural born enemies; he was damn persistent. The man was a menace to her sanity.*

In the end he does wear her down and she accepts to go on a date with him. But as usual, things don't go as planned. Some misunderstanding, some mistrust, then there is an attempted kidnapping and we can't forget her overprotective family. Seriously, what don't we do in the name of family love, right? Let's just say I'm really happy I don't have brothers like hers. They would drive me crazy, that's for sure!

As I already said, reading about those two was really funny. They were almost like an old married couple with the way they bickered. Both had to make some tough decisions that would effect not only them, but also their families. In the end I even came to like their crazy family.

Enemy Mine is a great story that can be read between a small break, since it's so short. I definitely recommend!

## **Mindy Lou's Book Review says**

### **Narrator Review: 2nd Read**

This is my second time listening to Jeffrey Kafer. I enjoyed his voice just as much as the first time. I love how he does the female voice. He did not do the dreaded high pitch which I'm very thankful for. I recommend the audio version of Enemy Mine. Borrowed on the Audible Romance Package

### **Story Review: 1st Read**

For being only 90 pages, this story really packed a punch! A modern day Romeo and Juliet theme, you get a vampire and his mortal enemy, a wolf shifter who can't stay away from each other. Kiernan's obsessive pursuit of Melina was hot! His determination to make her permanently his despite facing her over-protective brothers and Alpha father will win you over. His protection of her from another packs attempted kidnapping showed he was the right mate for her despite being different species. Great story, maturely written and made me want more. I can't wait to read other stories from this author.

ARC received via NetGalley in exchange for an honest review.

## **Lori Meehan says**

This was a really great short story and I'm hoping that there will be more written about this family. Kiernan and Melina had good chemistry and I enjoyed their family dynamics. I wish that there was more about Kiernan's family then just Ronan. Katie writes really great romantic suspense stories and I highly recommend you read this story.

## Michelle says

It always amazes me how quickly Katie can pull you into a story, no matter the length of the tale. Enemy Mine is no exception and I trully hope she writes more set in this world as there are quite a few chracters I would love to get to know better!

---

## Sonia Cristina says

Continuo a ser surpreendida, pela positiva, com o talento de alguns autores para, em poucas páginas e numa simples novella como esta, apresentarem uma história com romance, suspense/mistério/ação nas quantidades certas para cativarem os leitores. Adorei esta pequena novella, foi muito querida e adorei conhecer o vampiro Kiernan e a shifter Melina, vindos de famílias rivais há mais de 1 século. Não é fácil o seu romance, com as famílias a oporem-se mas eles conseguem porque, enfim, o amor tudo alcança.

Também foi muito interessante a parte da tentativa de rapto de Melina e o que está por trás.

Enfim, uma pequena delícia para o dia de Carnaval.

## Shauni says

Originally Reviewed For: Tea and Book

I admit it, Katie Reus Rocks!! I am such a huge fan of hers. I have enjoyed watching her rise as an author. She writes wonderful shifter romances, Vampire romances, romantic suspense.. yep she does it all and she does it pretty darn well. Enemy Mine is a re released and slightly altered version of a previous story. And that's ok with me. It was still a fun Novella and worth the read.

I am the first to tell ya, I am not a huge fan of Vampire romances. At least not the traditional ones, something to do with being undead and all that. But and here's a huge but.. there are times when the romance out weighs the vampire so to speak. When it's not quite a traditional vampire story and those, well I am a sucker for those.

Kiernan and Melina spent one unforgettable night together more than a year ago. Born as enemies, both natural, he's a vampire, she's a shifter AND feud made.. it's hard to imagine that these two could ever have anything more than one single night. And even that shouldn't have happened. But it did and they both dream of more.

Kiernan has decided it's time to claim his mate, feud and family be damned. Only Melina is neck deep in some sort of trouble and now he's the only one who can help her. How can he convince her to trust him both with her life and more importantly with her heart?

Melina wants Kiernan, she always has but she doesn't trust that something so fragile can withstand the outside forces that will try to destroy them. Is it worth risking her heart over something that will probably fall apart anyway?

Great chemistry, strong sensual pull and an in depth back story. An strong showing in so few words.

### **Gi's Spot Reviews says**

What a delicious novella for one of my all time favorite PNR writers!

I'm so addict to this series, and Katie Reus deserves all the credit because there isn't one single book that has let me down in this Darkness universe - yes, I know this is actually a standalone, but the Enemy Mine world is exactly the same as the rest of the Darkness stories.

Enemy Mine was a true Romeo and Juliet story, but in the present time and in a paranormal setting.

What happens when a vampire and a wolf shift, natural born enemies fall in love?! Well, that is what you find out when you read this delicious short and spicy tale!

And sexy, have I said that already?! ;)

### **The Romance Book Disciple (Samantha) says**

This is my first Reus book and I am in love! Mix Romeo and Juliet with the supernatural and you have Enemy Mine! Perfect! And its a super quick read as well-you jump right into the action.

---

### **Darcy says**

This little short is a classic Romeo and Juliet story, but with vampires and wolf shifters. I loved that when the couple first met they didn't have clue who the other was, too bad that when they did learn it caused them to walk away from a good thing.

After hearing the reason for the feud, it is easy to see why there was animosity, but at some time you have to get past it. I loved that Kiernan didn't let the past stop him.

The ending was so funny, you can just see how that family gathering would go.
