## The Gifted Box Set

*Amira Rain , Simply Shifters*

### **The Gifted Box Set** Amira Rain , Simply Shifters

This is a Paranormal Romance bundle that has it all! Every book has been a top #10 bestseller on Amazon.com and they ALL have an average 5 star rating!

Every book follows the fortunes of a curvy heroine who has been “GIFTED” with supernatural powers. Something that seems to attract the attention of hunky shapeshifters. Themes include Paranormal Pregnancy, Shifter Menages, love triangles and one on one action!

#### **Book 1: GIFTED TO THE BEAR**

Avery Clarke has just discover she is one of the gifted and now the FBI are hunting her. Handsome WereBear Jim Duncan is the only one who can help her but his kindness will come at a price...

#### **Book 2: GIFTED TO THE DRAGON**

A one night stand with a handsome stranger leaves young Madison Bennett pregnant. Little does she know, that stranger was a dragon shifter and being pregnant has now activated her “gift”...

#### **Book 3: GIFTED TO THE WOLVES**

Jayne Adler is well aware of her gift and has been sent to infiltrate a wolf pack and the two Alphas in particular. That is if they do not infiltrate her first...

#### **Book 4: GIFTED TO THE LION**

Paulina Mars has always used her gift to fight. However, a handsome WereLion named Mark was about to enter her life and show her things she never even imagined were real...

#### **Book 5: GIFTED TO THE ANGEL**

Lauren Grant has just been kidnapped. The man says he is an angel and he also tells her that she is already pregnant with his future child... even though they have never met before!

You simply will not be able to put these books down! Scroll back up and start reading the whole package right away!

## From Reader Review The Gifted Box Set for online ebook

### **mrs e mcmillan says**

#### **Good read**

Love this author. Great storylines and characters. Hope there is more to come. Many twists and turns. Maybe before gifted?

---

### **Juanita E. Arp says**

I enjoyed reading this book about shifters and gifted people. It has a great storyline. Received FREE for an honest review.

---

### **Brandy thomas says**

#### **Great book**

These book has great twist and turns, steamy seans, surprises and great characters you will fall in love with. Enjoy

---

### **Bernice Morgan says**

#### **Do not like the format**

I bought this book because I have read some of the authors book's before. Not a fan of books that is wrote in the first person. Did not read them so cannot give a rating

---

### **sherri jones-teachout says**

Werewolves, werebears, werelions, and dragons all working with their beautiful "gifted" mates to save their cities. The gifted are women who can levitate or zap objects, or both. They work with the male shifters against the Angels (sorcerers who want to rule the world and kill everyone who opposes them). The first two stories are about two funny women who keep their mates on their toes, and don't back down. The third story is about a gifted woman who has to get close to two alphas to determine who is leaking secrets to the enemy. Book four is about a gifted woman who saw her family killed by the Angels, and has been blackmailed and tricked into helping them against her own people. But even though her mate rescues her, she has to escape and go back in order to fulfill a promise made between her and the Angel leader. But returning to the enemy could get those she has come to love killed. Book five is about an Angel who doesn't act like an Angel, and after seeing his mate in dreams since he was a boy, kidnaps her when he finally finds her. Now he has to prove that is a good guy worth loving. These stories are heart warming. The men, tough strong shifters

brought low by their love for their mates, and their gifted mates with powers to help in their fight, but the men wanting to keep them safe. I fell in love with each of these proud shifters, trying to do right by their women while fighting for their lives.

---

**Laura Wolf says**

just could not get into the story... seemed to far fetched and ridiculous.

---

**Irene Magnin says**

**Cool**

Really, really enjoyed this series. Well worth reading each book. Well... On to other books! Hmmm, now which one next...

---

**Janice says**

Gifted to the Bear, Gifted to the Dragon, Gifted to the Wolves, Gifted to the Lion, Gifted to the Angel

---

**Maria Sullivan says**

**Good series**

I would recommend this series, it has good character development. A lot of action, and great story line. I also enjoyed the endings. Great read...

---

**Rosa Maria Garcia says**

**Loved It**

This box set will delight fans of both paranormal and romance. I'm so happy with this purchase and very cool stories with awesome characters. Will be reading more and highly recommended?

---

**Luz Maria Valle says**

**Gifted - The 5 Book Paranormal Romance**

Gave it a five star rating. Loved all the stories. All were great hope to read more of them. I strongly suggested you read them.

---

## **Sherry Vitaniemi says**

### **Works**

Everyone of them knows the drill. If they have a gift. Agents come and get them. What they don't realize is. Just how much their lives will change and what they will be facing at their new homes. And what they have to leave behind.

---

## **Michelle says**

### **Shifters and Angels**

These are a different take on the paranormal stories you are used to reading. Some of the men become shifters and some women become Gifteds after a sorcerers spell. I liked the stories and wish they had all been linked together like the last two, maybe she can add to the series.

---

## **Jacqueline Carr says**

### **FABULOUS A MUST READ !**

This is a compilation of 5 standalone stories all interlinked to a common thread. I enjoyed reading each book suggest to read in the order they are in the book due to spoilers otherwise,.

---

## **Mary Clark says**

I have only read one book in this box set and my review is given below. As and when I read the other books, I will leave a review accordingly.

This is a review for: Gifted to the Angel

Cole is an angel that has the ability to shift into an animal form; mainly unheard of and the main reason he was chosen as the new leader of New Bad Axe; Lauren has been able to identify him on the battlefield. Cole is also a seer and is able to see the future through dreams. Lauren is a Gifted, only one of a handful of triple gifted in existence – a zapper, levitator and a spinner, a latent Gifted whose power has been activated by pregnancy. Cole wants to get to know Lauren better, which is the sole reason he abducts her from the battlefield, not for her Gifted abilities. He has seen her in his dreams, but these dreams end abruptly when Lauren arrives in North Haven. Lauren is pregnant, but how can that be; Cole has asked her to trust him for a while longer and then all will be revealed, but before he is able to explain, Lauren discovers that he has lied to her and betrayed her trust by being dishonest, but can she forgive him? Cole is a man who protects his community, vulnerable people and those he loves. But he will not tolerate abuse on women, and has a system in place for those that break the rules. Dominic has committed his fourth offense and has to pay the price; Cole expects retaliation and an attack by his brother, Bennett. There are traitors in the camp intent on helping Dominic, but Cole will not allow Lauren to help with her Gifted skills; what if he should lose her.

Coincidentally, Commander Northrup, another enemy, decides to lead his men into New Bad Axe to rescue Lauren on the same day that Bennett and his men attack, but with Lauren and Commander Northrup's help, Bennett's men are overcome. As a result, Commander Northrup and Cole would now be working together as equals fighting on the same team, instead of being enemies, even if this is against the promise Cole made to his father. Quite an usual storyline, but nevertheless an engaging read.
