## Gryke Ditter Kellen

Half human, half alien, Gryke is the most vicious Bracadyte in Aukrabah. His hatred and distrust for the land walkers runs deep—especially for Fiona Henagar. The female Marine is smart, gorgeous, and self-sufficient. With every breath, she confounds him and attracts him. But when she steals the ancient Bracadyte scrolls, Gryke has no choice but to confront his feelings for her and go after her.

Fiona Henagar doesn't have time for love. She lives a life of duty to her country until her son, Andrew, is kidnapped by the government. Stealing the Bracadyte scrolls to pay off her son's kidnappers, Fiona vows to stay one step ahead of Gryke—and her growing feelings for him. As they fight against government plots and spies, will they succumb to their deepest desires or will old prejudices tear them apart?

## From Reader Review Gryke for online ebook

### JodyL says

I read the first book in this series when it first came out. It was okay but I never read anymore of them until now. I thought that I would try again with a different book since I love this author's other books so much. I was pleasantly surprised by it. I may even have to go back to read the others.

Fiona takes some scrolls from the Bracadytes in order to exchange them for her son's life. Gryke goes after her because he thinks she is a traitor. He finds out that the bad guys have both her son and her brother.

Jeffries is the name of the human that wants the scrolls in order to destroy the Bracadytes.

Gryke discovers that even though he doesn't like humans because they killed his mother that he has judges the whole species from the action of a few.

Gryke: Science Fiction Romance (Enigma Series Book 6) by Ditter Kellen is a Science Fiction, Paranormal Romance. Half human, half alien, Gryke is the most vicious Bracadyte in Aukrabah. He doesn't trust the land walkers and especially Fiona Henagar. Fiona is a marine, she's smart, she's gorgeous and a widower mother raising her son with the help of her brother. When the government kidnaps her son Andrew, she has to steal the Bracadyte scrolls to get him back. As they fight against the government their attraction and feelings grow. An enjoyable, hot, wonderfully written read with a good storyline and amazing characters. A page turner, action plot. I couldn't put it down. I was lucky to get the audiobook and I love it as much. Each book can be read as standalone. I own the whole series so far and can't wait for the next one. Ditter Kellen is my favorite author and I own almost all her books. I love her writing style and the amazing way she has to make you believe that her characters are real even after you have finish reading. A MUST READ. Don't miss this one or the whole series.

I was given a copy of this book in exchange for my honest opinions on it . Gyke even though he is half human has no love for the land walkers in fact he distrusts all of them and CIA agent Fiona is no exception. Fiona is sent to monitor the Bracadytes ,she bears them no ill will but when her son is kidnapped and held as leverage she has no choice but to steal from them . Gryke has no choice but to go after her and when he catches up to her these two finally face and give in to the feelings they have for each other but getting to a hea is going to be a hard road .The bad guys are still out there and are ramping up their game .Things get crazy in this page turning passion filled read . I enjoyed it from beginning to end and am chomping at the bit to read the next story in this series .Each book is better than the last .A must read series for 2017.

My first short read/listen from author Ditter Kellen, although I own the first book in this series I've never gotten around to reading it. I was given an Audible copy of this book & am voluntarily reviewing it. Well-written romantic suspense, captivating with well-developed characters. (RIP Marley January 20, 2014 - July 24, 2018)

Gryke is also half human/half Bracadyte, when he butts heads with Fiona, a kick-ass human marine, it's no holds barred!! Definitely love/hate...well first hate then love? Hehehe  
However you want to put it...it's hot and sometimes dangerous!

**Wow!**

I had been waiting for Mr. Grumpy aka Gryke!!! Holy smokes who knew what a softie the big guy would be! Fiona and Gryke are perfect for each other both are stubborn as hell but that's what makes them so lovable. This series is a must read and I can't get enough!!

I never get enough of this series. They must be read in order since each book is a continuation of the last. Gryke and Fiona are so perfect together. Both are terrificly badass people. I love seeing such a strong Hero grounded and humbled by his female. Seeing his rough exterior break was a wonderful compliment to his personality as asshole personified. Plus, I was happy to finally find out why Fiona did the things she did. I can't wait to read more!

I have to admit, I wasn't a fan of Gryke (as Ditter knows all too well) in the other books but....\*sigh\* I've changed my mind. I loved his character development through this book as he came into his own (and relaxed a bit)

Gryke (Enigma, #6) was another great read by Ditter Kellan. Gryke is a very vicious Bracadyte who hates what they call the land walkers. He hates Fiona with everything that he has. The kidnapping of her son makes her face Gryke and their feelings for each other. This was another great read in this great series.

### **Johnetta says**

Gryke was amazing. The character is half human and half Bracadyte was an interesting change. His love interest Fiona has her own secrets. Little do we know why she has been thrown into the world of Aukrabah. We find out when she steals from them. The reason was a total surprise. Her son and brother are being held by that awful Jeffries. Forcing a mother to betray people she cares for. Who knew Gryke could be so good with Fiona's son. Perhaps he is so good because of his mother's murder by humans.

Another great story with strong and enjoyable character. Totally enjoyed the book and the series. I recommend you give this book and series a try.

4.5 stars

My man! Favourite from the series hands down.

Kick ass heroine.

Amazing sexy times.

Gryke with Andrew \*heart eyes\*

LOVE IT!

Gryke was another really enjoyable addition to this series. I can honestly say that I am officially hooked. I am enjoying the later additions to this series so much I can't stop reading them, they have definitely gotten better as the stories have moved along. Gryke and Fiona were great together. I loved Gryke, although he always seemed angry with Fiona it turns out he was confused about what he was feeling around her it angered him and he showed that annoyance to Fiona. He just couldn't believe his confused feeling towards a land walker, they were the ones who killed his mother. Fiona was a total badass but had such vulnerability I loved her and I totally understand the choices she made. Because as a mother myself I would do anything and betray anyone for my sons. Andrew was absolutely adorable and so easily melted Grykes heart. I'm already reading Braum.

## Amber says

Gryke is one Bracadyte that I couldn't wait to hear more about! The strongest and toughest men are always the one that fall and fall hard for their true mate. Just like the Beast in Beauty and the Beast, he was drawn to his lovely lady against his own will. It was his heart that lead the way as it slowly but methodically steered him towards Fiona. I can't express in words just how fun and magical it was to watch Gryke finally figure out what he not only craved the beauty before him, but he admired and loved her. His love was just as fragile as Fiona's since it was scarely used except for close friends and family. When Fiona found herself facing an unspeakable future of a bliss she never knew, she was determined to fight for it.

If Gryke was fierce before Fiona, he was downright monstrous when it comes her happiness and safety. Fiona would gladly battle Gryke for anything as long as he did so at her side. I loved come back to this fascinating world full of people who are more human then one of the ones they have come in contact with over the years. Getting to know more of these wondrous and brave men and women made my world explode into sheer bliss. This is what every serious reader wants: more access to the characters that we have fallen hopelessly in love with.

Ditter Kellen delivers in grand style and so much more when she gave us Gryke. We get unfettered access to the heart and mind of this incredible warrior. Nothing comes in the way of us enjoying every second of this journey with an equally fierce and determined woman. The battle of wills that ensue is one full of humor, danger, and excitement the neither expected. What a wonderful experience that I will not soon forget!

The narration was once again superb and highly entertaining! I always enjoy books that are read by this fabulous artist. He opens my eyes to this story in a whole new way and deepens my appreciation of his talent and the boundless creativity of DItter Kellen. I look forward to the next story in the captivatingly exquisite series.
