Hang your disbelief on the moon. Move over, Oysters. SK's books are the newly minted cheaper version of OTC Viagra. Forget the flimsy plot. Married, career-oriented H/h w/ kids decide to spice up their bedroom antics to another level, as in, hubby filling up frisky housewife's cum elementary teacher's uncharted territory, her back door. Then they go on a mini vacay. Apparently, in Cleveland, hotel room service delivers 1st rate customer service, as the room svc boy, allegedly majoring in engineering becomes H/h's energetic ménage partner. We got the hole enchilada & more :

~ High-octane voyeurism : live webcam of mindless fucq-a-thon thru which voyeuristic audience can watch H/h & simultaneously type their frenzied comments to spur the H/h on ; restaurant waiter / room svc boy jacking off @ strategically planted plants while watching multi-orgasmic heroine being royally pleased by hubby's remotely-controlled, quake-inducing Butterfly (where can I buy this new invention ? its majestic wingspans cover both ends.)

~ Bottomless supply of lubes & cream-inducing toys : ass plugs, ass beads, etc.

~ Double ass screwing & the tools ain't tootsie roll sized. It's doable cuz their ding-a-lings are not the infamous cannon calibre.

~ Double oral drilling right after double ass see-sawing (don't even think 'bout the sanitary aspect. Listerine is a must.)

~ Elevator insta shagging. Hubby gets so horned up by hawt restaurant episode, he can't wait to exercise his own excitable dong.

Too bad vacay has an expiration date, so H/h go back to real life. But wait, grandma is willing to babysit the kids so the stretchy Olympians can keep on bangin each other like a barroom door on a windy day. Me so lurrve this nauti smut.

Pure, unadulterated porn!!! And very pleasant one at that! If you are into anal exploration and straight-up erotica, this is perfect! No plot to stand in the way, but just enough of glimpses at character to make it more personal. Probably my favorite of this author's works:) Enjoy!

This is one of the most erotic reads I've read that is definitely oriented to anal sex in all and I mean just about

all it's forms, from anal virgin to anal sex expert in one long weekend For the eroticism of Selena Kitt's scenes it has to be five star. For quality of the story content more four star. It s a simple story of Charlie and husband Jack, in their thirties, where work, children, average often neglected sex life, and day to day life pressures have got in the way of their shared lust and passions for each other. Doesn't that seem a familiar place to many of us at times. Jack has never persuaded Charlene to try that deliciously dark and so often a taboo experience of anal sex. The time comes for him to exert his gentle dominance and insistence to at least try it. This is as close to BDSM links as it gets, although this book claims to be BDSM, it is lite! This leads to a weekend in a hotel, planned in fine detail to develop their sex experiences but emphasis on hers, from using toys, to vaginal fisting to eventually a threesome with a young waiter saving for college. All scenes beautifully described that you are there as close to virtual experience as you can get. Yes, this really did it for me. This threesome is also probably the most testing part of their marriage. Jack wants his beautiful wife to experience double penetration, she also wants to know what it's like. The elements of jealousy and possibility of damaging their close bond, his fears of this leading to her wanting a more open marriage all come in to play. However, there relationship is sound. Life will go back to daily routine, but Jack doesn't intend to let boredom and staleness take over. An occasional editing error nothing to distract. Overall this has to hit the 4.5 in stars for me. I recommend this to all adults who enjoy erotica, BDSM lite, not forgetting lovers of anal sex. I was extremely fortunate to have had this as a free read. I have now added more of Selena's stories to my TBR list.

Unfolding tells the story of Charlie and her husband Jack. They are a married couple living a happy, yet ordinary life. That all starts to change when Charlie discovers a passion for a certain sexual taboo (anal sex). Soon Charlie and Jack are living out one fantasy after another and their ordinary sex life has undergone a thrilling and exciting overhaul. A weekend away gives them both the chance to continue their sexual exploration and they enjoy forays into public sex and a steamy threesome. This book is unique in that is not only about the sex. While it is filed with burn the pages up sex scenes there is also a lot of emotion felt as Charlie and Jack renew their passion for each other and grow together as a couple while exploring new and exciting sexual experiences. I highly recommend this book if you're looking to read an erotic book that shows how a loving couple can reinvent themselves sexually while still remaining true to themselves and each other.

Angie (Mind Malfunction) says

Unfolding is an erotica by Selena Kitt. I reread this story for a goodreads challenge, using far too many 'U' titles. So, this is my original review of this sexy story.

Move over Baumgartners, this couple is heating up! Please Selena Kitt, this couple, threesome, needs a series. The sex scenes are intense, voyeurism, anal, M/F/M, public sex and more. This is one hot trip away from home, for both the couple and the reader.

Heather says

If you dont like to read about anal avoid this book. If you do well then read this book.

That taboo place gets alot of play in this book. Husband and wife are settled into a routine with kids, job, and everything else that sex is on the backburner most of the time. Anal is introduced in the shower and now the couple has found that special something to spice up their marriage.

A long weekend vacation at a hotel brings out the kinky beast in both of em. Hubby surprises her with new toys and a non stop weekend of sexual fun and exploaration.

Kim BookJunkie says

This book, like all of Ms. Kitt's books, is chock-full of awesomely dirty, taboo naughtiness! There isn't much of a story line but what plot there is does work well. The majority of the short story is descriptions of the sexual activities taking place between the husband and wife main characters. Unfortunately, the book ends suddenly, very prematurely with absolutely zero closure. Although the book ended, the story felt incomplete. However, if you are a Selena Kitt fan, I would still recommend that you read Unfolding.... I personally was inspired by some of the, "things" I read about! Although much of this book focuses on anal sex, Ms. Kitt also threw in some very creative twists including live web cams and hotel room service delivery boys!

An audio excerpt of the first chapter of *Unfolding* was my introduction to the works of Selena Kitt some time ago and I found myself hooked from the very start! After finally getting a chance to read the book in its entirety, my only complaint is that I did not find a copy sooner! Easily one of my all-time favorite works of erotic fiction! It is intense, thrilling and fast paced! A complete turn-on from beginning to end! Or perhaps I should say "rear end!" But be forewarned, this isn't a book of erotica! It is more like a novel length sales pitch about the delightful naughtiness of backdoor play! Trust me fellas, if after reading this your gal doesn't beg for you to use the service entrance, you might want to consider a trade-in because I think you picked up a broken model! And ladies, if you still bare even the slightest bit of reluctance to doing the deed, read on as this kinky little tale of taking it in the tail is obviously written by a woman with a profound fondness for the act of getting her bottom busted and she presents her story in a titillating manner that will leave you wondering why you are even hesitating for a minute!

The story is told through the eyes of a woman named Charlie that loves her husband very much, but has settled into a life that is rather mundane and predictable. Her husband, in an effort to spark some passion into their marriage, attempts to introduce Charlie to something a bit...different and despite her initial reluctance to participate in an act she deems gross, Charlie ultimately relents when she finds that the sensations she feels when her husband attempts to engage her anally feels so very right, even with her mind telling her it is wrong. What follows for Charlie borders on sexual obsession as she discovers she has a particular fondness for getting her bum tapped and actually learns to outright crave a solid anal pounding! This opens things up for additional exploration by the kinky couple in which they delve into other forays of sexual expression such as public sex, voyeurism, webcam exhibitionism, a ménage with a sexy young bellboy and some more extreme attempts at anal pleasure in the forms of fisting and double anal penetration. While there are elements of this story that can be a bit over-the-top, it doesn't matter as this tale is unrelenting erotic fun and a serious turn-on throughout! It also bears a solidly romantic back story emphasizing the lengths a couple is willing to go to invigorate their relationship and bring back the passion they had long since lost for one another. Highly recommended to anyone with even the slight interest or curiosity about the avenue of rear entry sexual play and a must for anal aficionados! Definite 5 Stars!

Holy 'panty soaking' goodness! You have to know that will be the tone of the book when it starts with 'it all started in the shower'.

This is the story of Charlie (Charlene) and Jack. They are happily married and fool around every morning with Jack's morning wood, then they shower together, her quick to business and out, he lingers. He starts in earnest with some anal play and while she likes it, it takes a bit of convincing for her to accept it is what it is and get over the taboo of it all. Suddenly she is an anal maniac, wanting it all the time, and Jack is more than happy to oblige

Jack surprises Charlie with a weekend away, complete with sexy lingerie and toys. His plan is to have her unable to walk out the hotel room at the end of the weekend she is so sore and dehydrated from all the orgasms he will give her - dream husband or what?!?!?!

So begins the wild weekend, and it involves lots of kinky sex, public displays, and a very curious waiter who keeps getting eyefuls named Lloyd. At the centre is a very much in love, very devoted married couple. They are having a break away from their everyday life and re-connecting with each in a way they haven't explored since college.

The best part about the whole story - these are regular, everyday people. They have jobs, and a house, and kids, and bills. They worry about all the things everybody else does, and they have this wonderful new sexual connection they are exploring that blows both of their minds - a really excellent read!

OOOOHHHHH EMMM GEE!

Um yes, I think that just about covers it. I stumble into this book when I got my NookColor and found. Needless to say it was my first time reading this type. I constantly had to put the damn thing down! Not because it was a bad read, hell no. Because it I needed to run a cold shower!

After this book I got hooked on erotica! But what I love the most about this one story, is the fact that there is a back story to all the hot-sexy-steamy scenes. I mean how many wives will honestly lose themselves like this for the sake of there marriage? I believe one of the most scary things out there is falling into a routine and not having that excitement of the first few years, instead just growing comfortable to be roommates. (blah to roomies in the bedroom) Kudos to all the marriages out there that are willing to do whatever it takes to keep the love and physical stuff going!

Amy says

Anal sex anyone??? If the idea of that turns you off, you might want to put this one back on the shelf! A weekend vacation for a husband & wife becomes a sexual feast!! I don't know that I would read this one again, but it definitely took my imagination for a ride...A quick read with lots & lots of sex!!

Ella Reese says

Unfolding could appropriately be renamed All about Anal.

There was a familiar concession as he slid slowly into that dark, private orifice, and while I had to submit, allowing him access to my tight, dimpled flesh, it was a gentle acquiescence.

This book started out strong - a couple reconnecting on a vacation without the kids now that life has gotten in the way of their intimacy. Once on vacation, it pretty much turns into a porno with a public vibrator scene, lots of anal, an assortment of sex toys, a webcam, and even a fisting. Then, there's a threesome featuring one lucky hotel bellhop.

The sex was smoking hot, especially at the beginning when the couple is reconnecting. It goes a little over the top with all the theatrics incorporating the toys and the webcam, crossing over into the territory of pretty much porn. I've found that it's hit or miss with Selena Kitt. She writes great sex for sure, but it can sometimes come across as cheesy or simply porn without plot. However, I did enjoy this book. There was a decent storyline, good writing, and a ton of raunchiness in a hotel room.

If you're looking for a smutty read to get off on, Unfolding's a good one.

'Q' aka CoCo says

I just couldn't get into this. First, it's **all** sex. Usually I'm shallow enough to let that slide, but there were just too many awkward moments/dialogue that I couldn't appreciate it on a strictly porn level either. The husband says things to his wife that just jar me (as a reader) out of the moment, i.e. "Yeah, let's get all clean again, so I can lick your little a\$\$hole some more."

While I found the dialogue stilted in the beginning, it did seem to flow better as the book progresses. There are even some really sweet moments that I found really touching, "Your pleasure is my single greatest joy." I would have rated this a three for the rally at the end if it weren't for my auto star deduction that I do for all books when I read (view spoiler) nastiness. It's just so completely gross to me that I cannot bring myself to enjoy the book, or even the characters, anymore.

This was a really hot book. Charlie and Jack have the all American suburban life, kids, jobs and a nice home. Their sex life is a little boring so they decide to turn it up a notch or two with a walk on the kinky side. The couple hooks up with another couple and things get hot in this book. Charlie is eager to be led into new sexual experiences in spite of her nervous apprehension, and she is constantly grateful for the pleasure those explorations brings to their lives. I have read a few of Selena's books and this book was as hot as some of those although this book felt like it ended suddenly. This book was well written with no errors in grammar or

spelling. This book was hot.
