### Ridley says

This erotic novella was buzzing along as a fabulous BDSM fantasy until the abrupt ending.

Dana Arthur desperately needs a job, so when Simon Dirk of Cowell & Dirk offers her the receptionist position after a 30-second interview, she takes it, despite having no clue what it is they do. As it turns out: they do receptionists.

Since Ethan Cowell is out of the country, Simon Dirk is running the show (but not American Idol, which kept popping in my mind. Wonder why...)and it's a kinky sort of show. Dana is shocked at first, but she's a tattooed thrill/pain junkie, so she figures she'll give it a go. The subsequent punishments, tasks and predicaments are as hot as they are unrealistic. Bell writes the sexual encounters well, avoiding play-by-play and providing a ton of head time.

It all goes kinda south when she brings Cowell, the senior partner, into the mix. The threesome was contrived and awkward, as was all the declarations of love between Dana and Simon. It's like she flipped a switch and all of a sudden we've gone from erotica to romance, and the tone change was disorienting.

One of those quick and dirty reads that you find your way to in the early A.M.s

Plot: **2 stars**

Steam factor: **3 stars**

Overall, this book was an ok for me. Hence i would give this book three stars.

Dana Arthur is just a girl looking for a job with a nice pay. That when she came upon a job as a receptionist for Cowell and Dirk company. She had to undergo a "training period" before being officially accepted.

The "training" was well.. HOT.Dana wicked tongue cause her plenty of punishments. There was lots of sexual tension in this book. The first thing that Simon gave her was actually a *sexy lingerie* ( and branded to top of) which look totally goodd on her.

This book is about how Dana became a reception officially at cowell and dirk company.

## **Nisha says**

This is an erotica turned mushy menage romance at the end, while reading like a bad fanfic. I'm a little embarrassed for reading it.

I'm not doing a summary as I usually do, instead I'm going to talk about the heroine, Dana. Dana's a girl from the wrong side of town, managing to put herself through community college and after months of being jobless, landing her a receptionist position at Cowell & Dirk. One would think readers would be able to relate to the heroine, but she's sorta trashy (her friends supposedly a full blown slut) and mostly dumb. She sounded like a 15 year old girl complaining about life and acting on her libido. This is why I thought I was reading a fanfic.

Simon was not much better. He started off as a Dominant voyeuristic business man and suddenly fell in love with Dana and all her fire (Where's this fire? What's so "special" about her?). Supposedly, he shares a lot of women with his business partner, Ethan Cowell and their clients, but with Dana, it's different, until he agrees to share only with Ethan. \*facepalm\* I guess that was a spoiler. Oh well, its not like its a big surprise - its a bdsm menage.

Anyway, I guess I can't say that this was a good read or anything, but the sex scenes were pretty hot. The sheer dumbness of the characters is what makes this book painful. So was the weird plot change at the end.

Wow, this is one twisted hot story. A bit unrealistic but who cares, it is just a story. Very, very naughty and not for the timid.

## **Samantha says**

The concept was good - It felt original which made it bearable to read. The writing switched tense more times than I change underwear. I liked that she was a bit of a different protagonist, but there were still parts of her personality I thought were quite cliché and I felt that the book would've been so much better if we'd known more about her backstory - so she grew up in Long Island and her mother abandoned her? Why cant we know the things surrounding her mum's departure, her fathers alcoholism?

The other thing that bothered me was the ménage scene. I love ménage, I cant get enough of it, but this one didn't feel very thought out. I can usually see when a writer puts a lot of effort into writing a scene where 3 people are having sex with each other and they have their needs and likes and I think that if she had stopped it or even that she couldn't do it would have added a really good twist to the story and made a really good cliffhanger to see what would happen with the relationship

DNF @ 55%

One of the stupidest things I've ever read. Period. Even this kind of books should make more sense.

### **Willa Edwards says**

When I first started this book I was sceptical but I am now a believer. I am very impressed with Ms Bell's ability to make a book red hot and romantic even given the unusual situation of this book. I felt deeply for these characters. I grew to really care for these characters. I definitely recommend this book to any one who likes their reading extra spicy with a little bit of sweetness.

### **Tess says**

Lucky Dana. Unable to keep a job more than a couple of months, perpetually unemployed Dana Arthur has landed a job as the receptionist for Cowell & Dirk.

Dress Code: black teddies, corsets and no panties

Job Responsibilities: Answer telephone calls professionally while receiving mind blowing oral stimulation.

Reports to: hunky Simon Dirk with the mesmerizing green eyes and pirate's grin-with a body to die for.

Salary: Seriously?! who cares.

My only complaint is that the ending was too abrupt and Simon's reactions were a little puzzling at times. The author would have done better to combine these novellas into one book and just charge more, but I'd still recommend these as fun, smexy reads.

I liked this book. It is very short but it is well written, amusing and very interesting. After reading so many BDSM books it is refreshing to find one that could bring you back to beginning. This one made me laugh, and I recommended it to anyone who likes their reading spicy but light and with goos story at the same time...

This book will make ya laugh and tingle in all the naughty places ;) A big thanks to my gal pal Jess for recommending this series to me!! Luvs it!! If only my boss looked as hawt as Simon & Ethan rather than 'Hannibal the Cannibal'! LOL!

Dana is desperatley looking for a job to get out of her parents house. Resume in hand, she applies for the receptionist position, and soon learns that 'receptionist' takes on an entirely different meaning at this firm!!

I highly recommend this book if you are looking for a hot, sexy read with a little kink and some humor ;)

Some fav scenes/quotes of mine:

"One minute I'd benn answering phones, the next minute I was coming in his office, with downtown spread out before me. An orgasm with a view. Go figure."

"We're survivors. We hide ourselves behind a bright, shiny surface, waiting for the one person who understands to find us."

"I gotta say, there are times when having a slutty best friend has its advantages."

"His lap looked like it was already occupied--by a giant boner. It pressed against his pants like a circus tent pole. Elephants could fit under there. A lion tamer and some flying trapeze artists. A dancing bear, or five."

"I'm not going to stop until you come so hard, you forget your name. Forget who you are. Where you are."

"I was squeezed between two hot hunks of flesh, two primitive animals who hungered for me, only me. I shuddered and cried hot tears. Tears of joy, of fear, of halleluiah, of a million different things."

### **Carole-Ann says**

Dana Arthur is a street-wise New Yorker, desperate for a job, who applies for the Receptionist position at Cowell and Dirk, little knowing (or aware) of what will be required of her.

I had to chuckle all the way through this story because Dana is bright, sparky, blunt, and with come-backs which would make anyone laugh. Simon Dirk, her boss, requires more than the usual polite receptionist-type duties - he is a Dominant and wants Dana to 'receive' anything he needs her for: *"A good good receptionist must be able to receive. Receive clients, receive phone calls, receive orders. Receive pleasure"*, and whooo does he demand!

A great short(ish) story!

### **Autumn Review says**

Ok, so I got this series for review for an upcoming blog tour. I hadn't heard of them before and I honestly skimmed the description. (The tour is for the third book in the series and I will be posting my review for that one on my adult blog, Autumn After Dark, on November 6th.) Turns out, I was pleasantly surprised and really turned on!

While I was a bit confused as to what was happening at first, Simon and Dana don't mess around. They get down to business pretty fast. It is a short book, so I was happy to get to the smexy quickly. The chemistry they have together is pretty freaking hot. Then there's Ethan. Whoa Nelly. To me, he's even hotter than Simon. He's the owner and also business partners with Simon. Not only do they share the business, but they also share women. Dana is no exception.

Because of her strong feelings towards Simon, Dana is a bit reluctant to get involved in a threesome. Don't you worry though, Ethan changes her mind pretty quickly. IT WAS HOT! There is some BDSM at play here, but it wasn't anything extreme, in my opinion.

Boundaries are made and safe words established. Training the Receptionist was a fast read that left me anxious to start the second book. This book does involve mild BDSM, M/F/M, and M/M sexual content. If

that's not your thing, you may not want to read this series.

## **Elle says**

This, *\*points at book cover image\** is porn.

I'm not offended by porn, so I read it. But no, I could not read it while I was waiting for my friend by the fountain in the park...

In that it is porn, the story isn't crafted that well, but because it's porn I guess it doesn't matter. We're not reading it for the plot.

The ending was a bit ... odd. Maybe it needed to be expanded or something, it just felt like it had an entirely different flow from the rest of the story and I'm not convinced I really understand what happened and how things were resolved (not the physical how ... I'm very clear on that ... but the logical how).

So yeah: porn.
