Sensual, hot - everything comes through as you read. I must read more of her work

I love the way this book starts! It's flows to beautifully. The way things heat up and how the two characters act around each other is incredibly hot! The whole time, you're just waiting to see who has more courage to act on their desires.

The heat outside doesn't compare to the heat in the room, the heat that surrounds the two of them. Though temptation may be in the room, it's all about morals and being professional, until that gets thrown out the window. All that's left is tension and urges of seduction.

I absolutely love the word selection. I love the sex, the thrill, the intensity. Sex with a stranger and even better, unexpected sex with a stranger. What's even better is it switches between characters so you don't get a one sided story. You get to read how both characters are feeling and what they're thinking during their most erotic moments.

Oh the sex scenes. Yes, that is plural. There's so much sex in here I feel like I'm visualizing a very hot movie that has a lot of sex scenes! Every time I think it's just going to be nothing but story to the end, I get side swiped with another amazing sex scene. It definitely keeps the reader hot and bothered the whole entire time! There is also a beautiful twist to the story that you guys don't want to miss!

A nice quickie.

I really liked the provocative opening, but felt that Ms Gale chickened out. However the story wasn't what I first anticipated (and would probably have liked it to be), but it was still a good story even if it didn't turn up the heat enough for my taste - especially with a title like this.

I really enjoyed this short story... as i can relate to how Kathy feels and match her desires with my own...

Dina says

This was a very good quickie, with steamy love scenes (of course) and enough background story about the H/h to make me care about them. And it's a freebie!

4 stars – Contemporary/Erotic Romance Quickie

Whew! 101 degrees indeed! I really enjoyed this fun, smokin' hot quickie read...especially for a freebie!

Available as a free read on Eva's Website.

I loved this contemporary short and I can't say why because it would just spoil everything and give the whole point of the story away.

3.5 Stars

At first I was a little turned off by how blunt the salon customer was acting. I thought, who does that? But once you read a little bit more you will see why and how it happens. I enjoyed it a lot actually considering it was a novella and I will look for more by this author. Since this is a novella, I can't say anymore or else it will give it away. If you're looking for a quick hot steamy read, this is definitely for you.

My review contains spoilers and they're mostly my thoughts as I went with the book...

In her barber shop, Kathy was just trimming a man, a last customer. This man is really handsome and been in her shop many times. It seems like she knows absolutely nothing of the man but is attracted to him. So is he, apparently. Kathy is a mother (I wasn't sure at that point married or single) and runs this business of hers so she's very busy and sex hasn't been the top priority for a long while. It's too hot outside, 101 degrees to be precise. The AC is broken and this starts their casual banter which led to something else. Now they're willing to take this to the next level, just like that, so casually...

Or was it that casual?

Gotta say I've never cared for casual sex and more often than not, erotica do deal with such stuff. I've read EG's two other short stories and loved them both. They're very different, theme and plot-wise. Not to mention I really like her writing style. I think she writes the best of short erotic stories. So, as I read the 1st chapter (the information above) I wasn't sure what to think. And then, came the 2nd chapter with the stranger's identity and bammmmm, I was struck dumb; mostly because I wasn't expecting this at all. Maybe I should've but it really took me by surprise. Then for two more chapters, I loved their love play, the problems they were facing at the moment and how they decided to deal with it. It was interesting; if I want to discuss the *whys* and *hows*, I have to give away a lot but this being a short story, I won't. I want the surprise to stay as it is. 4 stars.

So, read it. I recommend the other two novellas, Hysteria and The Seduction of Gabriel Stewart, too (both free and available at smashwords). I don't know why she doesn't write full-length novels!

"101 Degrees Fahrenheit" is a free short read that contains 4 chapters and some hot scenes to go with it. It's available at smashwords.

PS: Funny but totally off-topic, this came out on my birthday. Couldn't help noticing lolz. :p

I really enjoyed this. A nice, steamy, short read.

As I was reading *101 Degrees Fahrenheit*, I was rather put off that this salon customer would be so sexually blatant and demanding of a perfect stranger, but I found the story to be very hot and the 'surprise' at the end made this a tale worth reading.
