El Regalo de Lyon

Tanya Anne Crosby , Elisa Pedraz (Translator)

El Regalo de Lyon Tanya Anne Crosby , Elisa Pedraz (Translator)

Conocido como el Lyon por su destreza en el campo de batalla, Piers de Montgomerie acepta un desafío del rey David; sofocar una molesta rebelión de las tierras altas. Como pago, acepta un terreno que está en disputa, sin embargo pronto descubrirá que lo que realmente desea es la belleza proveniente de las tierras altas, cuyos hermanos nunca doblegarán ante él.

Meghan Brodie se niega a ser el peón en un juego político y jura no ser ganada tan fácilmente. Se resiste al Lyon inglés... pero incluso cuando comienza a darse cuenta de que su amor está destinado a sanar una tierra herida, no se atreverá a desear que Lyon vea más allá de la belleza física y ame a la chica imperfecta que hay dentro.

Menina com Livros says

Esse é o segundo romance que leio dessa autora e chego ao mesma conclusão: eles são apenas OK. Mas não me entendam mal, o problema não é necessariamente a autora, o problema sou eu, a leitora. Ultimamente tenho ficado mais ranzinza com minhas leituras e se o estilo de escrita do autor não me prende, apesar do plot interessante, então tudo vira apenas O.K. Portanto, não se baseie em minha opinião para decidir se lerá ou não esse livro.

Ainda assim, necessito expressar minha opinião. A ideia central para a trama é boa, com toques de humor, o enredo em si tem muita coisa interessante sobre a cultura das Highlands que mostram um bom trabalho de pesquisa por parte da autora. Porém, não houve absolutamente nada que surpreendesse e, principalmente, justificasse 300 e tantas páginas. Cento e cinquenta, como muito duzentas, e estaria aí uma leitura que realmente não passaria tão batida com um mero "OK, é isso".

Se tem uma coisa que me irrita são repetições. Odeio quando uma história fica dando voltas e voltas num mesmo ponto, que nem é crucial para história, só para encher páginas. E é o que acontece! Tanto nesse como no outro que eu li da autora e em muitos outros livros de autores diferentes. Não sei se isso acontece por exigência das editoras ou se não houver determinado número de página não é bem aceito pelo público. E se for ambos os casos, quem foi que disse que para um livro valer a pena tem que ter centos de páginas? Sério, gente! Eu digo mais vale um livro com 50 páginas bem escrito que esse mundaréu de palavras que nem "fede nem cheira".

Dawn says

Horrible. I tried, I really tried to get through this and couldn't. Stopped at 20% The h was childish and I hated her.

What drove me over the edge.. here's my list

1. The dialogue was awful. It's as though it was written by a 4th grader.
2. How many times did the author have to repeat the word "Bloody?" Is that the only Scottish word she knows?
3. The continual repeating of words the characters said to each other.
4. The h was stupid and her actions ridiculous.
5. The H is an idiot for putting up with her.

I could go into detail and point out the specifics, but I truly wasted too much time on this already to write a detailed review.

I'm sorry I really wanted it to get better, I like this author for the most part, but this book was a total waste of my time. I returned it for a refund.

Angie Taylor says

Another Great Read!

One of the things I love most about these books is the personal development of the main characters, making the plot so much more than a quick romance. But don't get me wrong, the other thing I LOVE about these books is the amount of time each main character focuses on their senses, sight, smell, touch, taste, and hearing, which are affected by their romantic counterparts. The detail to romantic tension makes my hopeless romantic soul giggle and reread clean romantic thrilled scenes. So fun!!

Renee says

Enjoy

This was a good read. It keeps you interested and is easy on the mind. Which is what I look for to unwind.

Kristy McCaffrey says

English soldier Piers Montgomerie, also known as Lyon, has been given land in Scotland as a reward for service. As he struggles to make peace with the Highlanders that surround him, Meghan Brodie literally walks right into his hands. Once he lays eyes on her, he knows that his world has changed dramatically. Marrying her will solidify his standing with the Brodie clan—Meghan's three brothers—but even more than the advantageous union, Lyon comes to realize that Meghan is unlike any other woman he has ever known. This is a wonderfully compelling romance of a stern hero hiding deep philosophical angst and a headstrong heroine struggling to be seen for her mind rather than her beauty. Their banter is delightful and, at times, downright hilarious. I couldn't put this down and read it nearly straight through. If you're looking for a sigh-worthy romance with a dash of humor and some major heat, then this book is for you.

KatieV says

Crosby is one of those authors who is consistently enjoyable. I don't LOVE anything I've read by her, but I've never disliked anything either.

This story is mostly light. The heroine cracks me up at first with her antics, but she takes it a little too far to the bratty end of the street.... but she does pay for that.

The hero was essentially a good guy for a medieval warrior. He was very patiently amused with the heroine's crazy act and not an old school type if that's what you're in the mood for.

Basically it's a story about a beautiful girl wanting to be wanted for more than her looks and a jaded hero who doesn't realize he's falling in love.

The narrator did a good job with the male voices, but wasn't too thrilled with the falsetto female voices.

Leah says

The prologue starts out with Meghan and her grandminnie in the forest looking for herbs when she spies a face staring at her from behind a tree. She sneaks over and meets Alison and they plan to become friends and meet secretly to play. Everyone thinks Meghan's grandminnie is a witch and Alison fears her family won't let her play openly with Meghan.

Piers de Montgomerie is base born from a King and a whore. He was very inquisitive growing up and was able to study with the Archbishop of Canterbury. He had a thirst for knowledge. They call him Lyon because of his prowess on a battlefield. Because of his skill at arms, he has received a parcel in the highlands for reward. He's finding his sheep dwindling. Although he is getting irritated he admires the Scots in the way they did battle and in the way they defended their clan to the death. He admires their loyalty.

Meghan's parent's died when she was just a child and her grandminnie, Fia, raised her until her death when Meghan was 16. Everyone thought Fia mad and they thought Meghan mad too. She would rather be around her animals for company than to be around people. She never understands why men are muddle brained around her or why women dislike her without knowing her, but she was stunning. So beautiful.

Lyon comes upon Meghan in the forest as she's walking a lamb and conversing with it. When she realizes that he's there and is going to take her, she tries to make them believe the stories that she's mad. She attempts to have them believe the lamb is her grandminnie, Fia. This chapter had me heehawing with laughter. Baldwin, Piers' friend, is hilarious with the banter and what Lyon has him do trying to appease Meghan. Meghan speaks her mind and Lyon loves that about her.

Meghan's brothers come to take her home and Piers denies them and makes a deal that if after a set time, she wants to go home, he will let her. They are beside themselves with anger. She is so attracted to him but will deny it to the end. She thinks he only wants her for her looks. He has wanted her from the moment he set eyes on her. She makes him feel alive and nothing has brought that out in him for years. He knows it goes deeper than the surface. Lyon's soul feels lost.... empty.... and only Meghan can bring it peace. He needs her desperately, just as desperately as she needs him.

Much laughter, a lot of soul searching, misunderstandings, heart break, and a love so deep and strong nothing will stand in it's way. All those things describe this story.

Dee Kay says

Enjoyable read with good humour.

Connie S. Koog says

Lyon's Gift!

I really enjoyed this book and I was impressed with the quality of your work. You have a great imagination.

Shyann says

More like 3.5*

Catherine Iriarte says

I thoroughly enjoyed this story. The characters had their serious and sexy moments but it was the funny moments that made the book.

Jayne dArcy says

Piers de Montgomerie is an English knight who has been rewarded with a portion of land by King David of Scotia for service and friendship. Piers, better known as Lyon, is a bastard, and son of a prostitute. His mother made sure her son was provided tutors that taught him to read and write, and he became a bit of a philosopher rake.

Lyon was searching, yet every pleasure he indulged in did not provide him with what was missing in his life. That was until he caught a thief making away with one of his lambs.

Meghan Brodie mostly raised by her three brothers after her parents passed, has become a bit of a wild child with a very strong streak of independence. Through observing her brothers, and those men and suitors that tried to win her hand in marriage Meghan has decided that all men want only one thing from women; sex. They care nothing for a woman's mind, soul or heart. Meghan has decided that she will never marry because she loves her independence too much.

Fate brings Lyon and Meghan together and as events unfold like a Rube Goldberg obstacle course they discover truths about themselves that each other has gifted to the other.

This is #2 in The Highland Bride Series. There are currently five books.

Faith says

i just loved megan and the why she played with piers mind,and made him fall in love with her,even if she wasn't sure how she felt about him,only to relize she also loved him but she wanted him to admit how he flt about her.

and her brothers were blamed for robbing pier of his stock,so he stole them back and a few more for good measure,this went back and forth and eavh they took a little more back,pier had a sly grin and said now let go teach these scots how to commit a proper thieving

colin must have romanced every girl in the area,he went from one to the other,meghan told him he needs to ask for forgiviness and get married to a nice girl,she told him about alison how nise she was,he said i can't look in he eyes and her deformed eyes,i just can't look at her,so he was really nasty to her,

alison felt guilty cause she saw the one who was stealing the sheep and it got blamed on megkans family but

that wasn't what she was trying to do she wanted her family to get the blame,so she wouldn't have to marry pier,but she decided to tell meghan and her family the truth,alison went over to leith mac brodie to tell him the truth and colin was also there and he was really pissed at her,and meghan was missing so alison stayed all night to help find meghan,when she went home her father hollered at her and told her she was ruined no one would marry her now,leith had brought her home,and he told her father he would be proud if she would be his wife,and he said he cared for her

but he though she cared for colin,she said she would happy to marry him,

gavin her youngest brother wanted to be a preacher,and was always preaching at them he drove them crazy,and with all his brothers finding wives it made him feel so lonely,he wished he could find someone too,thats for another book,

a friend broc was real close to the mc kinnin clan,because his village was burned, and in need of a family to raise him,and he just wanted to be friends with women,he didn't want to get married,until he meet elizabet and he was drawn to her,and felt like he had to protect her,but again that is another story,

this series is mind blowing,and full of action,love,mistery,thiving, and getting even,lol.

Melissa Malec says

Humor and love

Another great love story by Tanya Anne Crosby. I always love the humor as well as the love story in Tanya's books.

Kiesha ~ 1Cheekylass says

I'm usually a fan of Tanya Anne Crosby but this is probably one of the worst Medieval Romances I've read [listened to]. The characters had potential but the plot was flatter than a pancake. It was so dull not even a knife sharpener could help.

The AWFUL narrator Ewan MacRae didn't make things better. The heroes voice sounded like a whiner and a dolt all at the same time. Unfortunately this narrator narrates the rest of the series.

I only finished this because I have a thing about reading all books in a series. If the next book is as bad, I will break my own rule and completely stop. What a waste of credit.
