When I find a manga or anime show that I really love, I always search for a character guide. They always cool facts about the characters and I love it.

Oh man i want to read this so badly!!!! D: Sadly though, it's currently sitting underneath my Christmas tree just waiting to be opened in... 17 days.. :(

Camille says

This book is great to get a few more fun facts about the Bleach world, characters and the author. It also provided some insights on key events in the story. But overall it's more like a quick review on the manga up to the invasion of Karakura Town. It's a good reference book if you don't want to drag along 40 manga books to explain Bleach. It's still worth to have in the collection and I hope in the near future for more character books.

Lujain says

It's the same as the first one :(same pics the stuff just a different interview

Devilyn says

I think its a informational book, it gives me more info and ideas about the setting , characters , powers and the meaning. also its like a comic the book shows little parts of chapters . i can relate to this by how long the story is , and what the meaning is of everything. if i were to say my favorite character is.... I wouldn't be-able to say all the characters are my faves.
