The Legend of the Flaming Dragon Rashad McCardy

Rowan is a young prince, whose father tries to control every aspect of his life. This leads to bitterness and frustration between the prince and king. However, one night Rowan makes a discovery that changes everything...

Meanwhile, the ten kingdoms are dealing with the first real threat of war in over two hundred years. In the midst of preparation, Rowan receives vital information of the enemy's forces from an old friend. This information leads to him running away from home, as he knows that even the combined armies of the ten kingdoms have no chance against the upcoming darkness...

Filled with elves, druids, werewolves, dragons and more, this novel demonstrates how even different species can band together when united to achieve a common goal, and how one person can make the difference between victory and defeat.

The Legend of the Flaming Dragon

Interesting tale, ten nation against the Force of Darkness. Excitement, battles, intrigue, love and sacrifice in a wonderful mix. Yes this is an early work containing typos and other detritus of a new author, just deal with it it is worth the time.

OMG I loved this was so good. I had to have it on my kindle and I was mad there was no paper copy in my town. But it was still amazing. Rowan is an amazing character and I love his dragon too!!! When he becomes a half werewolf was so amazingly cool! The final battle where the elf king/prince guy (I forgot his name) lost his phoenix's was incredibly sad. But still, it was an amazing piece of literature and I hopes he comes out with another book in this series

This book was Amazing. I did not expect it at all to be that good. I was a little dissapointed that Rowan didn't use his werewolf Form during the battle with the darkness. But the whole plot of the story and the characters were amazing. I was however still left wondering what would happen when Rowan told his dad about his new abilities. And what would would happen to John (now that he was human). Overall I enjoyed this book alot and I defenently recommend it to anyone.
