**Available now! Retribution MC is complete.**

**Series finale from the summer MC hit!**

**From the world of Carolina Bad Boys and Retribution MC, this bad boy biker likes to be in control, and he's ready to take what he wants.**

## **Coletrane:**

Her name is Sinclair Chatham. Sin. That's exactly what she is—walking, talking, in the flesh sin. She's haughty, privileged, so goddamn starlet sexy, with an ass I want to grab and spank raw.

I want her to give herself over to me. I want her to lose that polished princess veneer. I *want* to strip away the money, the manicures, the maids, the immaculate façade.

I need her to be mine. But I'm a grunt. A biker. A tattoo artist. I'm blue collar all the way, and her family will probably shit bricks if they ever meet me.

Not to mention, I'm running from a bad past that's about to catch up with me.

## **Sinclair:**

I would never go for Cole in a million years. He's gruff, rough around the edges—and covered in ink. He's unapologetic, demanding, and sometimes scary as hell. He tells me what he wants, how he wants it, and why he's going to ruin me for all other men.

Coletrane destroys my vanity, gets inside my head while he gets into my bed, and I can't say no to him. He's not what I expected—tender at times, taking no prisoners at others. He breaks me down, builds me up.

*He is not my type.*

They say opposites attract, and they're right. I just didn't expect him to turn my cushy life upside down and inside out. But it's too late, and someone's going to get hurt.

**Warning: Graphic sex, graphic action, graphic language. Triple X caution.**

#### **\*\*JOSIE'S 4.5 STAR REVIEW\*\***

First we all need to bow our heads for a moment of silence for the Bad Boys of Retribution MC. This is a sad day for me and I am sure will be for many fans as well. Coletrane is the final book in the Bad Boys of Retribution MC and I am both sad and thrilled that I was able to get my hands on it. I have been waiting for EVERRRRRRRR to read Cole' story. There was just something about this character that screamed JOSIE this is your MAN. Holy Guacamole was this book all that and a bag of chips, with a side of tequila!!!

Rie Warren gives readers everything in this book from hilarity, feistiness, banter and of course what MC book would be without drama. If you've followed the series you know Cole is one very controlled man in EVERYTHING – so yeah the sex scenes where CRAZY HAWT!!! Cole is everything I look for in a man. I love me a good bad boy! Throw in some gentleness, dominance and tattoos I'M DONE FOR!

Cole has not always done what was right. He has made mistakes when he was younger being unfocused and dealing with family problems. All Cole wants to do is keep the past where it is, in the past. He is not happy about his choices back then. Cole is a probie (prospect) for the Bad Boys of Retribution. He has a family and friends and is finally happy. That is until he sees Sinclair aka Sin walk into the bar. She is hot, sophisticated, elegant and has every man foaming at the mouth including him. Cole knows Sin is way out of his league after all he is a tattooed biker with a past that will make all of the upper class society run away. You know the saying – Opposites attract – this right here is the perfect example.

Sin was nothing at all what you would expect from a well privileged person. She was not selfish or self-centered. Sin works for what she has and she works hard. She heads up charity events and she does not judge anyone. For all the ways Cole found not to be with her she rose to each and every one of them.

Cole and Sin were captivating. Their connection was so palpable I felt it through the pages. Cole's constant need to keep Sin away from him wore on me after a while. His feelings were quite clear and the constant back and forth banter was exciting. When Cole finally has enough and goes for what he wants, OMG!!! I have read a lot of Hot MC books, but this was just WOOZA!!! I found that those scenes where the hottest, dirtiest and freakiest I have read from this series. I think I found that part of their story powerful, because of their connection to one another. They communicated openly to one another and expressed their wants and desires it was only natural that the intimacy would be the same.

When Cole's past comes back to haunt him and threaten the woman that means everything to him he must decide how much more his past will rule his life. When you love a person as much a Cole does Sin what are you willing to sacrifice to keep them safe? When Sin learns Cole's past will she walk away for good or will she be with the man Cole is today?

I am sad to see this series go. I'm just not ready to say goodbye but Rie Warren ended this the way she started it, with a bang! I am glad that she gave readers Cole' story last because the story was fitting and worthy of this final chapter. When a writer can make a reader fall in love with fictional characters and make you feel every emotion they go through you just can't stop reading. I can't wait to see what this author will bring readers next.

## Carissa says

Coletrane Sawyer, and Sinclair Chatham were a combustible pair, igniting the air surrounding them. On their first meeting sparks were flying and the sexual tension was strangling. These two gave each other a run for their money. Cole had non, Sin had too much.

Growing up rich and privileged; daughter to an illustrious, hot shot lawyer, and her mother an old money heiress. Sinclair knows her way around money. At twenty-six, Sin runs the Fairley-Chatham Foundation. A charitable organisation that focuses on helping the sick. A philanthropist by nature and nurture, Sin knows how to get what she wants.

Meeting Sinclair Chatham within the Retribution MC, she looked more than out of place. But the woman had the attitude of an MC old lady. She chewed then up and spitted them out, politely as her inherent good breathing permitted. Rich, privileged and haughty, with a saucy attitude, there was no doubt that she caught the attention of Coletrane.

Coletrane Sawyer, Retribution MC brother, a.k.a College. He grew up tough and had a hard life. Living and learning through his bad mistakes, getting in with the wrong crowd, abusing drugs, and surviving through the death of his sister. Where his mother was once a hardworking and lovable woman, now a shell of what she once was. Suffering from a sort of psychosis from the shock of her daughter's death. An extreme form of PTSD. Cole keeps her at a care facility and visits her weekly. She doesn't even know him as her son. Only a nice young man that visits her. Cole lives with sadness and the regret of his bad decisions daily. Working at Inksanity as a tattoo artist, Cole keeps himself busy behind a needle, the MC bar or between the legs of a woman.

They say opposites attract, but with this pair. They didn't just attract, they ignited. Two halves to a whole. Dancing around each other, until Cole's darker side wants to come out to play. And there's only one hot little number, that's calling his name. Both like being in control. Both will have to decide when to give in, and both will relish in the pleasure of submitting.

Everything within Cole kept telling him to stay away from Sinclair. She was way out of his league. She screamed money, he had non. She came from a high society lifestyle, he was running from a bad past, living day to day. Cole swore Sin off of him. Attempting to keep her at arms length, but with her hanging around the MC and wearing little to nothing, Cole's inner beast unleashed itself. Publicly claiming Sinclair. Making sure all his brothers know, she is his.

I loved the way Cole simply claimed Sin, as much as he tried, and with her saucy attitude, there was no doubt that the sexy little minx wasn't getting away. And with Cole's ooo laa la bedroom skills, and soft BDSM tendencies, Sin got more than she bargained for. Not that she was complaining.

When Cole's past starts to catch up to him, he knows he must reveal his daunting past to Sinclair. What he didn't know, was the strength that Sin would give him. She would be his support when he couldn't stand himself. She nurtured him and built him up. Taking care of his mother and showering her with love. The love of a lost daughter.

Their happiness is short lived, when Cole's past starts to catch up to him. Baring their ugly heads at and disrupting both their lives, putting Sin in danger, and infuriating her family. Cole must now fight for Sin.

Fight his own demons, fight to keep her, and fight for her.

This is the last in Rie Warren's Bad Boy series, and my emotions are bittersweet. I feel as if I am going to miss out on all these guys lives. Ms. Warren created a masterful cast, with aptly suited women for these men. Portraying all their strengths and vulnerabilities, showcasing their fears and their happiness, giving them all happily ever afters. Each book, gave us small updates on the previous couple, while streaming the current story. Hunter, our head honcho, and from book 1, became a father figure within the series. Always guiding the men and looking out for the MC. Coletrane was the perfect ending to the series and I'm still so very sad that it's all ending. But cudos to Ms. Warren and her writing capabilities. I may stalk you from here on. Just letting you know upfront.

As the last book in this series I was expecting big things, maybe I had built it up a bit to much with expectation and it left me a little disappointed and wanting more. Not sure how to explain it though. I mean it had all the usual parts to make it great but fell a bit flat.

Cole went on how dominate he was so I was looking forward to seeing that but again not what I'd call a real dominate.

I liked Cole and Sin together I thought they made a great pair. We got to see the Retribution men throughout the book which I loved and the ending was pretty good. Overall an ok read and finish to the series.

### **Jacque says**

Way back when the Coletrane, aka Probie, character was first introduced, I had my doubts about the boy. Yes, boy. Don't know why I had the impression of him being young as in a teenager. Boy was I wrong. Probie is all man. YOWZA! Coletrane is hot sex on a stick. That's not to say he doesn't have his issues, which some of them are real tearjerkers. And a tat artist... oh I am in love! Then there's Sinclair. If it looks and walks like a socialite, then think snob. Hold up here, she may look like, and actually be one, but snob is far from what Sin is. She is more than a match for Cole and definitely what he needs to sooth his soul.

Put these two together and you have sizzling hot fire. But that's not all, you have a great opposites attract romance filled with high energy, hot bikers and twisty moments that kept my riveted from cover to cover. I love a story that can not only make me laugh but can bring me to tears as well. Coletrane did both. But that's not all. This highly entertaining story brought back all my favorite characters from the series and showed another side of them. If only they all got their own stories. Throw in some intrigue, sexy bikers, lots of seriously hot sex and this reader was a very happy camper.

Ms. Warren has outdone herself! Coletrane was the perfect ending for the Bad Boys of Retribution MC series. Not only was it the perfect ending, it HAD a perfect ending. I don't think I stopped smiling through the epilogue, which just kept coming and coming. Yeah baby! I love it when authors wrap up series in nice neat bows although, in this case it would be more along the lines of chains and handcuffs. Now for the hard part... trying to figure out what to read next.

I received this book from the JeepDiva for the express purposes of an honest review. The opinions and rating of this review are solely mine and in no way was I compensated.

This is the fifth book I read from Rie Warren (RW). Last July I started with “**Steele: Into Your Heart**” which is book 3 from the Carolina Bad Boys (CBB). I hadn’t read books from RW yet and since this one spoke to me and it was on sale on Amazon a few months earlier I bought it. I was immediately in love with her writing style and characters. It’s been a few months and I have read so many books since so I’m not sure why but after this book I dived directly into the Bad Boys of Retribution (BBOR) MC series instead of finishing the CBB series. I guess because Brodie STEELE is the VP of the BBOR and his brother Boomer the Prez and I wanted to read more about their MC. I hadn’t yet started writing reviews at that moment so I can’t check. Anyway the first 3 books of the BBOR series were read within a few days and I loved all 4 books of RW. So book 4 Coletrane was pre-ordered immediately ...

Again it took some time but I finally had time to read Coletrane. We have already met him in the first 3 books as Probie even though he was already a full member and I really really liked him. In this book he finally gets a road name which is College. He is determined to stay single and has succeeded until he gets introduced to smart, driven, loyal, sassy socialite Sin. Cole likes to control in the bedroom even though he doesn’t call himself a Dom. He had a hard life growing up (money issues, dead of sister, drugs, bad friends, ...). But still he managed to grow up to a good young man but he doesn’t see his own worth. He keeps on thinking he’s not good enough for Sin but just can’t let her go.

The story isn’t that original and in this book there is less suspense then the others but I still liked it very much! What I like about her books too is that you keep meeting characters from her previous books and see how their lives proceed.

I will read the other books from the CBB as soon as book 4 "**Chrome**" is available (which I pre-ordered).

*For those who haven’t read the books yet ... what are you waiting for? They are still on sale on Amazon!*

**Bad Boys of Retribution series** : 1 – HUNTER / 2 – KINKAID / 3 – BO / 4 - COLETRANE

**Carolina Bad Boys series** : 1 – STONE / 2 – LOVE / 3 – STEELE -> Brodie Steele, VP of the BBOR / 4 – CHROME -> Boomer Steele, Prez of the BBOR

-> Box set with the first 3 books of CBB is still on sale on Amazon, GO GO GO and get it! Book 4 can be pre-ordered and is still on a reduced price!

KIM'S REVIEW

5 STARS

From word one Cole stole my heart.

Yes, he's big, bad and yummy. But Cole is so much more than that.

I love that the author also gave him a huge heart. Sometimes in MC books the heart is hidden until well into the story. Not so with Cole. From first meeting him in an earlier installment of this series, I knew there was something just a little different about Cole.

He's a little softer, more caring. He's sensitive and (gasp: Dare I say it?) a little sweet. Cole doesn't bother to hide the fact that he cares about his fellow club members and respects them. But Cole is also deliciously hard in all the perfect places.

We find him patched into the club as a full member, but his place is behind the bar and Cole doesn't mind slinging drinks and washing glasses. He always has a birds eye view of all the crazy things that go on in the club house.

The night that Sadie brings Sinclair into the house, Cole wishes that maybe his view hadn't been so unimpeded.

Sinclair is gorgeous; stunning. And wealthy.

The second they meet, the attraction is instant and demanding. Cole knows that it can only lead to bad things.

He calls her Sin and she wants him. Yes, there are huge differences between their worlds, but somehow, someway, Sinclair is going to get Cole to see that she's more than just a pretty face and a spoiled rich girl. She's not used to being the pursuer, but for Cole, she'll pull out all the stops.

When Cole's dangerous past begins to infringe on his present-threatening the future that could be. Cole has to make some really hard decisions.

I love this series and I thank Rie Warren for bringing us such a well written series full of lovable characters that will stay with us for a while.

And I loved the crazy kitty too.

### 5 Star Review

I was given this book for a honest review

This is the fourth and final book in the Bad Boys Of Retribution MC Series and I have to say that even though I was excited to read Cole's story I'm sad its the end of the series.

Cole is not looking for a girlfriend but that all changes when Sinclair walks into the club. Sparks fly as soon as their eyes meet and suddenly dirty thoughts about Sin start popping into his head ...

Everyone at the club spots that he is going down that slippery road of Love well everyone except him.

Sinclair is the complete opposite of Cole she comes from a wealthy family, runs the family business and is only used to guys wanting her for either her money or what her name can do for them .....

She has a instant attraction to the tattooed bad boy with a attitude.

Trouble seems to follow Cole around and the last thing he wants is for Sinclair (Sin) to be involved with his troubled past.

Can two people from opposite sides of the track make it work

“Sinclair Chatham, you’re like the ink on my skin, deep, indelible, indescribable. Forever. I can’t look at you without wanting you. Can’t think about you without wanting to be with you.”

“You can be a garbage man, a custodian, you can be the f... next President of the United States and none of

that matters. I love you, you stubborn, ignorant man. And whatever you decide to do, I know you'll be damn good at it."

I love these two quotes and to me they sum up Cole and Sin's love for each other.

This book has so much going for it. Opposites finding Love, Twists and turns from the past, hot steamy sex and sadly the last book in a great series.

Sinfully delicious...

I'm basking in the glow of a satisfying read. I'd be having a cigarette...if I smoked. And for the record, Cole & Sin, they passed smokin' and went to full-on inferno. I almost got scorched from touching my kindle, it was H-O-T!

I'm kinda sad, knowing that this is the last book in the Bad Boys of Retribution MC series. I'm hoping that these incredible characters will crossover into another series from time to time. I'm not ready to let them go. I can't say enough good things about Rie Warren, she's one of my favorite authors. She always gives me everything I need in a good book. She touches my emotions...yes, I did shed a few tears in this one. She touches my funny bone...those 'bad boys' crack me up with their banter. She seems to know exactly the kind of men that appeal to me because her badass bikers push all my buttons, especially Cole.

He's a bossy biker with a filthy mouth and huge heart. If you read a lot of MC books you will probably find this series to be on the lighter side. These are good bad-boys, they are not 1% outlaws. There are cops, strippers, and tattoo artists who work hard and play harder. They have a strong sense of brotherhood and try to do what is right, but if anyone messes with their women they will take any measures necessary to protect them. They seem to attract trouble regardless of their good intentions about staying on the right side of the law. I really enjoy the good mix of sexy and suspenseful. I'm looking forward to whatever the next project is, I'm a fan.

### **Veronica of V's Reads says**

Coletrane is a new member of the Retribution MC. He's a level-headed college grad, working as a tattoo artist, and trying to keep his past at bay.

Then he meets Sinclair Chatham, sexy socialite he should steer quite clear of--but he can't and it's bringing him a world o' hurt.

Sin, as he calls her, is a good girl who likes it bad. She's headstrong and heartstrong and sure she can tame Cole's inner beast, but Cole's brand of lovin'--BDSM of a fashion--is as intoxicating as his sultry voice.

Cole's past isn't pretty. He ran around with the wrong folks, and had little direction from his mom who was always looking for the next big take. He barely survived when his sister OD'ed. His mom had a mental breakdown, and he's been shouldering a lot of blame over the past several years. Between Cole and Sin the heat is intense. He's falling hard and fast for this strong woman, but her dad isn't best pleased--and his former

friends see Sin as a gravy train they'd like to skim.

As with all the other Retribution books, we get the men of Retribution MC coming together for a tense showdown, the hero being a real hero, and so much sexytimes it's a guaranteed HEA. I liked how Cole took Hunter's advice and put his degree to real use, and made amends over his past at the same time. It was also cool that everything didn't work out perfectly for Cole, keeping it real for us readers. Sin is the sexiest and most forward of all the gals bound to Retribution men, so far. Her daring was fun to experience.

It's no secret that I wasn't overly in love with the previous two books in this series, but I have enjoyed this author's books so I decided I was going to go ahead and finish reading the last book in the series. Let me tell you, within the first few pages I knew that this one was making up for the previous ones that sort of let me down.

Coletrane is fucking HOT! Like change your panties multiple times, reaching for your significant other for some loving HOT. What I also loved more than just his sexiness was that deep inside that tough chain wearing, tattooed, bad boy biker, he was emotional, sweet, and in his own emotional pain. He will surprise you more than once, but let me make something perfectly clear. Just because he has that sweet emotional side, it does not take away from even one millimeter of his hotness.

Sin is Cole's perfect match in my opinion. He needed the sass and feistiness that she brings, but he also needed the way she continues to show him that he is worthy of her even when he has doubts. I loved Sin's character, she may have been a rich girl but she didn't act like she was better than anyone. For me to love a female character as much as I loved Sin is rare.

We get to see the whole Retribution game throughout the book and I loved a certain surprise party at the end. I can actually picture everything that happened. Overall this one was my favorite of the series, it had me smiling, laughing, hot and bothered, emotional and last but not least I didn't want to put it down. Rie Warren saved the best for last with Coletrane and I loved every single word.

I am HUGE Rie Warren fan!! I have read of the Bad Boys of Retribution MC books as well as the Carolina Bad Boy books. They are awesome! In fact Rie Warren was my first introduction into MC romance books and I haven't looked back since. Sinclair (Sin) is anything but your typical MC Old Lady. She is wealthy and well-bred. All of the things that Coletrane (Cole) isn't. He has had a hard life, everything from getting in with the wrong crowd to abusing drugs, and surviving through the death of his sister.

These two don't just attract one another they explode! While they couldn't be more different it those differences that make them whole together. Cole's past of course comes back to haunt him and Sin's family

has issues. However Sin is a very strong woman and she knows what she wants. This is the last book in the Bad Boys of Retribution MC which makes me sad because this series has been one of the best. If you are looking for a bad boy who deep down has a good heart that just needs the strength and love of a strong woman then *Coletrane* is the book for you!

## Sheila says

I have enjoyed this series so much, I have to say I'm sorry that this is the last book in the series.

Cole and Sin are from very different backgrounds and live very different lives. Cole has found a home with his MC brothers after leading a life of drugs and crime. He spends his time hanging at the clubhouse and giving tattoos at the shop he works at. He looks for random hookups with girls who let him be in control.

Sinclair has lived a life of wealth and prosperity because of her family's name and fortune. She would never normally be in a situation where she would meet or be attracted to someone like Cole, but her friend must've known what she was doing when she chose to introduce them. She sees past his bossy attitude and knows there's a tender and caring person hiding underneath the rough exterior he's built around himself. They're physically attracted to each other instantly, but he doesn't think she could be the kind of girl that he needs.

She ends up proving she's exactly who he needs. He realizes that she's not some snobby princess who thinks she's above everyone else. She may have money, but it doesn't define who she is inside. Cole finds himself caring about her and opening up to her more than he's ever wanted to with anyone else. But deep inside he knows he's not good enough for her, and it's proven to him when people from his past intrude into his present life and put Sin in danger. It takes a stern "talking to" from one of his MC brothers to finally make him realize that he does deserve her and the love that she's brought to his life. Then it's just up to him to fight for what he wants; which is exactly what Sin wants him to do. She doesn't care what her parents, or society thinks, she just wants him to stand up and love her.

Their story is sweet and loving, but also super hot and sexy. Cole's the perfect dirty talking dominating alpha in the bedroom...or wherever they happen to be. He's able to set free Sin's wild side that she didn't know she even had. They don't let the obstacles that would threaten to separate them get in their way. They hold on to

each other and that way they can survive anything.

My Review:

Coletrane is one of the most erotic romance books I recall reading. I am talking atomic mushroom cloud haaawwt. Oh my! It required a steady flow of cool drinks to replenish body fluids and maintain proper hydration. It brought a satisfying and fun conclusion to the Bad Boys of Retribution series, although I am in mourning to see this steamy, action packed series of quirky characters come to an end. Ms. Warren’s writing never fails to entertain with her odd and unusual alpha characters, smart and feisty females, humorous interchanges, and passionate and sensual love stories. Her writing is smooth, involving, touching, naughty, full of invectives, and sizzling hot. I am curious and eager to see what and who she has planned for her next project.

## **1-Click Addict Support Group says**

I’m both very sad and ecstatic that *Coletrane* by Rie Warren has been released! It’s the final book in the *Bad Boys of Retribution MC* series and I’ve been dying to read about Cole—needing to know his story. And, holy hell, does he meet his match Sinclair Chatham!

Cole is trying to put his past behind him— trying to keep his past buried. He’s not proud of what he’s done to survive, and he sure as hell doesn’t want anything or anyone from that time to come calling. Cole’s looking toward the future—one that hopefully includes Sin naked in his bed most of the time. Now he just needs to work on breaking down her walls—something he’ll relish every moment of trying.

Sinclair has grown up in a life of privilege. She’s wanted for nothing material—and she has a job she loves.

But now she's looking out for herself and what SHE wants. And it's Cole. Lord knows he's not her normal type, but she just can't say no to him. Nor does she want to.

When they say "opposites attract," Cole and Sin's picture is there next to it as an example. But oh my goodness, do these two have amazing chemistry. Their witty banter, simple glances, and oh, so sexy scenes (\*note: have a fan and a change of panties ready\*) make this my favorite book out of the series.

I loved Cole and Sin separate and together. Add in the rest of the *Bad Boys of Retribution MC* and there are some laugh out loud moments too. But, alas, all good things come to an end...though, I don't think this is the end of snippets from this series. Ms. Warren is writing Boomer's book after all... ~ Missy, 5 stars

~~~

I'm the first to admit that I have it BAD for the *Bad Boys of Retribution MC*. No shame in this game. And Coletrane? Well, I've been on the COLE train since his first appearance in Rie Warren's books. Because YUM! Am I right? Yes, yes I am...

Sinclair Chatham is way outta Coletrane Sawyer's league. She's money; refined, privileged, so beautiful it should be crime. He's bad news; biker, tattoo artist, dominating bad boy with a bad, bad past.

And when that past comes back to wreak havoc on their lives, Cole gotta to do what he's gotta do to protect the girl that's too good for him...even if that means walking away.

WHEW, that's quite the series ender!! *Coletrane* is the one I've been waiting for—I think I might have bugged everyone that would listen about wanting this man since the start of Summer, and this series. Because he's such a contradiction. All Probie-good on the outside, doing the grunt work without complaint, being there for his friends as they've each rockily navigated their way to *happily ever after*, and just generally seeming like a good guy. Except...Probie 1.0 has a past and it ain't pretty. Oh, and a demanding, domineering streak that's also not pretty, but sure is sexy.

This couple were ELECTRIC together. In terms of their bedroom action, I think they may just be the hottest, dirtiest, sexiest of the bunch—and this was one hot, dirty, sexy bunch of Bad Boys. Until Cole and the sexy-as-sin Sin (whose physical description, I must say, was killer—I had the BEST visual of this chick, and woo-boy, I liked it) got it together, I kind of struggled with *Coletrane*. Which was a weird-as-hell experience, because with Ms. Warren's work, that has never happened to me. But there just something about their pre-fuck banter that wasn't quite working for me. However, when they got there, OMFG, it was fantastic.

There was humor, sass, teasing and drama out the wazoo, which is just the way I like it, and adding that to the aforementioned scorching sexy times, meant that *Coletrane* was another brilliant installment in a series that I am frankly not happy about seeing come to an end. Thank goodness that this series ending means that Ms. Warren can go back to the other Bad Boys I have it B.A.D. for...the *Carolina Bad Boys*. Bring on Boomer! ~ Beth, 4.5 stars

This is a great series of MC men and unfortunately the last. BOOOOO! But on the bright side that gives us an opportunity to wait for another round of goodness from Ms. Warren. The entire series is FREE on Kindle Unlimited. If I were you I would grab all of them up in one big click.

Cole is one of the newer MC brothers and trying to leave some of not so great choices behind. In fact his past is pretty dark. His life growing up wasn't all that great and he screams badass the minute he walks in the room. I love that as you know! Cole fought his way out of drugs, running with corruption and the death of his sister. His mother suffers from PTSD from the death of her daughter and doesn't know who Cole is. Those demons hit him hard. Cole is keeping his nose to the grind and working at Inksanity. Sinclair is NOT the type of woman that needs to be pushing her way around in his life. He has told her to bolt but she refuses. Sin has no idea what she is asking for growing up in a privileged life she doesn't know the first thing about finding the dark places you shouldn't go.

Sinclair is 26 and runs Fairley-Chatham Foundation. She has grown up with a silver spoon in her mouth but she isn't snotty; she is gritty and will put a grown ass man in his place in a hot second. Refusing to walk away from Cole, Sin is put in the direct line of fire from Cole's past. Danger is near and its coming for her.

These two are one hot sexy time of delight. I mean wowza. Rie has out done herself on this one. The dynamics of these two is simply off the charts. Each of the Retribution books are stand alones. You can read one and not the others but I wouldn't do it. These men deserve your attention. Go grab them up and get to reading. I hope this is NOT the last we see of our guys from Mt. Pleasant.

Review to post on Ramblings From Beneath The Sheets on release day. I was gifted an ARC for an honest review.
