Conquistador of the Night Lands Robin Wyatt Dunn

The Night Lands are what you see.

The Night Lands are what you eat.

The Night Lands are what you breathe.

Come in to the Night Lands, and we will show you something different, from your holiday smile, or your most beautiful nightmare, we'll show you the Redoubt, inside your brain:

"A tour de force" -- James Blaylock, author of ZEUGLODON.

The world has ended; the sun has died, but life goes on. Join Soad and Weel, defenders of the Redoubt, and The Producer and Woad, a Hollywood producer and a giant whale, on a journey to remake all of reality.

Ricki says

Just as slipstream as the other novels I have read by Dunn, but this was a little more sci-fi instead of fantasy.
