One Ride Chelsea Camaron

Delilah “Doll” Reklinger never imagined her life with anyone that wasn’t a Hellion. She never imagined a Hellion would come along and prove himself worthy enough to her father, Roundman, Hellions Club President. Content in living in the bubble of safety the motorcycle club family has always provided, Doll never thought that danger surrounded her.

Roundman has kept the Hellions contained for the last thirty years by controlling the chaos surrounding their lifestyle. When the dangerous side to their business comes knocking on his door, he realizes his precious Doll isn’t safe. The Hellions code may be that women and children are off limits in any altercation or dispute, but that doesn’t mean their enemies follow that same moral compass.

His only child, now in danger from the association to him and his club, Roundman makes a decision. He sends her away to a charter club, in hopes that the trouble won’t follow.

One ride across the country. One simple ride. Talon “Tripp” Crews has been ordered to take Doll on one ride away and to keep her safe. She’s off limits, his head knows this, but his body can’t deny the sparks between them. She’s feisty, fierce, and fearless. Constantly in close confines together, can they deny the chemistry? Will they give into the attraction between them? Can one ride turn lust into love?

CONTAINS SLIGHT SPOILERS

Oh wow. Where do I start with this one?

Firstly I thought I'd read this awhile ago turns out I'd read the blurb and was going to read the book but the previous cover put me off (it was dreadful) and now having read the book the characters on the cover were nothing like Tripp and Doll so I've no idea what was going on there.

Also I have to mention there's cheating in this book but more about that later.

So Delilah is the Hellions princess, her father Roundman is President and co-creator of the MC so she's been protected her whole life along with her best friend Savannah who's father Danza is VP.

Long story short Delilah or Doll as she's known is threatened along with the club so to keep her safe Roundman sends her and Savannah (Sass) off with Tripp and Rex. They go on a month long road trip now this makes a great introduction to this series but...

It means this book doesn't really have much going on, the main characters are removed from the situation and while we're kept up to date with what's happening through phone calls and texts I was left feeling I was missing out.

This is firstly a romance and I also have a couple of issues with that. Now as a reader I obviously know these two are going to end up together they don't know that so the first time they meet and the sparks fly between them Tripp takes someone else to bed that night, okay so I'm not happy but I have to let that slide but later when they are actually having sex with each other he cheats on her and she sees him, it's safe to say I was less happy. I struggled with this through the rest of the book, I also never fully connected with these two something felt missing, I know their relationship is created on the road and then built on later over the phone but I never fully bought it and Tripp seemed to change his mind from:

"Drunk or sober, this is one man that won't be getting married anywhere, Vegas or not."

"For our date last night."

I stiffen under her. "Doll, I don't date." I reply with all honesty. The disappointment crosses her face at my response.

"Oh." The smile she had now gone.

"You wanna do this, we do this. I'm not gonna chase you. I'm not gonna wine and dine you. If this is what you want, we do it. You get me. I get you. I don't share and you don't either. The distance thing, we'll figure it out. Your dad, babe, I don't know, but we face that too. You gotta know though, I don't date. You get me when I'm not on the road and can work it out. We gotta eat, I'll take us to eat, but I'm me. I'm not gonna kiss your ass, buy you gifts, and worry about making a good impression. You get me and I get you for what we can work out."

So that's clear enough they can be together exclusively but no dating and no marriage.

But then the next day....

"It's everything. She's everything. You want me to give her my property patch, done. You want her to move to Catawba, I'll take care of her. You want me to marry her, then take me to a courthouse, a church, or the god damn back yard. I'll put a ring on her finger and give her a new last name. All that, I'll do gladly. I'll give her my fuckin' world."

Okay wow so that turnaround was so fast it left me spinning.

3.5--It Just Wasn't Badass Enough--Stars!!!!

And another MC book bites the dust....honestly, in the grand scheme of things this one wasn't terrible. The writing was actually quite good. There just wasn't enough story there. Not enough action. And I don't mean sex action....just plot in general.

What I did like, was that this wasn't the same predictable MC storyline that I seem to see over and over again. The damaged heroine running from her past in to the arms of the MC VP only to be betrayed by someone in the MC and have the past come back to threaten the heroine who almost dies but gets saved by the VP.

One Ride was Doll and Tripp's story. Doll is the daughter of the Hellion's MC President, Roundman. Tripp is actually President of another chapter of the Hellion's MC. Tripp owns Crews Transports and does some side runs for the Hellions. It is because of one of these side runs that the drama/conflict of the story arises. Which frankly I thought was

Threats are made against Doll and as a result Roundman sends Doll and her friend Sass on a ride until he can handle the situation. So for ~~a whole month~~ the whole book Doll is off on a ride with Sass and Tripp and another guy named Rex as their protection.

Back and forth Tripp and Doll go--

I like you but it won't work. This isn't the lifestyle for you. I'm gone too much. We don't even live in the same town.

Nothing even really very exciting happened on the ride....and they were gone a freaking MONTH. We didn't even get any details about what went down at the clubhouse, other than some side characters being injured or killed but no details.

I never really connected with Tripp or Doll really. By the time they got home from the ride and we find out if they would end up together...really at that point

IDK....I didn't hate it there just wasn't enough to make me love it. I needed more.

This is one of those stories that will have you trying to turn the page before you even finish reading the one you are on just to see what happens next. Delilah "Doll" Reklinger in the princess of the Hellions MC and her father, Roundman, is the president. She has spent her whole life in the club except when she went off to college with her best friend Savannah "Sass" Perchton. A chance meeting at the club barbeque she meets Tripp and Rex. Tripp or is it Rex she is flirting with and wants more from him. But he seems to not be noticing her flirting. Then her life starts going downhill, someone has threatened her life. When Roundman tells Tripp and Rex to take Doll and Sass away while the rest of the Hellions take care of the problem. One ride might be all she needs to get Tripp to fulfill her fantasies. While Tripp is trying to remember who she is and that she is off limits, he can't seem to stop wanting her. Can they survive One Ride? Will Doll give herself to Tripp? Will Tripp break her heart? Can spending a month with someone you are lusting after be enough? I think this is a perfect story, you have MC family, lust, best friends, cousins, decisions to make or break you. I love Chelsea Camaron, her writing style is perfect and the stories flow so well. If you are looking for a great story with a few twist and turns than this one is for you. Also check others by Chelsea too the Love & Repair series is great too.

ARC RECEIVED FOR HONEST REVIEW

I am a real sucker for biker books.....I blame Charlie Hunnam and the Sons of Anarchy.....so usually as soon as a new biker book is released I'll be one of the first to buy it and the majority of the time I'm one of the first to be disappointed.

That didnt happen with this book.....I loved it!!

Told in 1st person- joint POV of both Doll and Tripp.

The story begins with Doll- who was brought up in the biker life, working with her Dad, quite happy with her life except from one aspect- She wants a man.....not any kind of man, a mans man! She wants a man who will take no shit, a man who will protect her and look after her, an alpha male.....basically she wants a biker. And why wouldn't she. She's always been happy in the biker life. But the problem there is that Doll is the Prez's daughter and anyone who wants to be with Doll has to get through the Prez first- and so far nobody has been man enough.

After trying to help someone who was in danger Doll ends up putting herself in a lot of danger with some very bad people. She needs to get out of town till the drama can be sorted. And Tripp is the one she has to go along with- Having met him just a few weeks before Doll cant get him out of her head, he's become the object of her fantasies after that very brief meet.

Tripp is a great character. He's a loner of sorts. He's happy enough just having his cousin Rex for company and the ladies that he sometimes "bonds" with- but after he's had his way with them he wants very little to do

with them, they've served their purpose now they can f**k off! He's president of his own chapter and has literally everything he needs and wants. But Doll comes along and blows it all out of the water.

The majority of this book spans the month that they are out on the road. A lot of this book is what is going round in their heads. Not a great deal of spoken dialogue or communication just a lot of inner angst.

This book mainly covered how Tripp felt he wasn't good enough for Doll. He thought she deserved a lot better than him- which he proved terribly on one occasion! He doesn't want to have to change his lifestyle for a woman either. He works hard and has to be gone for weeks at a time and he doesn't want Doll sitting around waiting for him.

There was a lot of backwards and forwards in this relationship, as soon as they seemed to sort things out a new issue arises between them. It was very much 1 step forward 2 steps back.

If I had one issue with this book it's that with all this drama happening and Doll needing to get away from it all, I would have loved to have a peek of someone's POV that was back at the clubhouse and in the midst of the war. It was just reported back via phonecall- I would have loved to feel like I was right there in the middle of the battle.

But luckily this book is the first part of a series with each book focusing on a different character so no cliffy but lots of continuation of the story.

I'm giving this one 4.5 stars- It would have been 5 if the drama at the clubhouse would have been explored more.

I enjoyed this one, although I was expecting a big shootout or something at the end and was a little disappointed that nothing happened! I will be reading the next one.

I am a huge MC fan.. After all I am married to a Biker..

I was given the opportunity to read this book ahead of time and all I can say is **THANK YOU CHELSEA!**

MC series have become more popular and I will say that Chelsea has a unique style of writing that I truly have become fond of, I have not been disappointed yet.

I love Tripp and Doll's story.

First off we meet a MC princess by the name of Delilah "Doll" Reklinger. Like most if not all MC princesses she is not allowed to date or sleep with any members of the club and well really she can not sleep nor date any man in general. Her dad, Roundman, is a bit over protective and tends to be a bit of a hot head. Doll gets herself in the middle of a confrontation with a rival boss. So when Doll is threatened we get to see just how hot headed Roundman can be. Once she is threatened Roundman decides to send her out of town to keep her safe with Talon "Tripp" Crews.

Tripp is a man that Doll has had her eye on for a long time but he is a straight and arrow business kind of guy, and tries to ward off his feelings for Doll, because in the end, he feels that it will cause nothing but problems for the both of them.

I love Doll she has a attitude and she does not put up with no ones crap, she speaks what's on her mind, and she is not afraid to tell you what she thinks. **Badass Bitch!**

Tripp is one sexy bad ass biker, with tattoos, long hair, and a attitude that will singe your panties right off , yes I have a tiny bit of a crush on him LOL but **GOD** who wouldn't...

The sexual chemistry between them is so damn hot!

This is a must read for MC lovers. This book has it all from MC family, lust, best friends, cousins, not counting a few twist and turns.

I hope that once you get to read this book that you enjoy it and love it as much as I did.

Chelesa thank you for an amazing book babe! Can't wait for what you have in store for us next!

O.M.F.G. just finish reading this book, and I love it I did not wanted to finish reading this book, I want more Chelsea you did it again, this is a great start for a new series.

I have to say this book is Hot, I love the characters, but what can I say I love me a great book that has to do with some **SEXY ASS BIKERS**, I had to admitted that I cried cause I did not wanted to finish reading it, let me just say that this story had me in an emotional roller coaster, some part I got piss off, some I got really happy, and other parts I cried, but I **LOVE** every minute and page of it, I am a big fan of this author, and I love it how she writes from both point of view like that you get to know what they each think.

Love the character of Delilah "Doll" Reklinger, Doll grow up in the Hellion MC, since her father Roundman is the president, that's the only world that she known, Doll has a strong attitude and she don't put up with no ones crap, she speaks what's on her mind, and she is not afraid to tell you what she thinks, one day at work some man shows up with a young woman, asking for her father and calling her by her name nickname, once her father seen who it was all alarming bells when off on her head, that's when her father call for a meeting that's when Talon "Tripp" Crews shows up into her life and turned everything up side down.

Love the character of Talon "Tripp" Crews, now let me just say that Tripp is one sexy badboy, with tattoos, long hair, and a attitude that will melt your panties away, yes I have a little crush on him LOL, when Rex Tripp cousin and Tripp find out what had happened, Sass father Doll best friend decide that they both needed to go for a Ride, with Tripp and Rex, what neither Tripp or Doll new was that that one ride will change their life forever.

I love how the chemistry is so strong between Doll and Tripp, that they just want to ripped each other clothes

off, love it how Tripp let her know what kind of man he is and love it how she accept him with everything that he is.

I really enjoy and love this book, but what can I say I love everything that this author writes, I hope that once you get to read this book that you enjoy it and love it as much as I did.

Author Chelsea Camaron THANK YOU for taking me on this wild Ride and introducing me to this great amazing characters and this awesome book.

4 Stars

One Ride by Chelsea Camaron is the first book in her new The Hellions Ride biker series. One sexy and bad-ass biker meets his match in a woman who knows what she wants and is all sass and spunk. One ride across the country. One moment in time. One hell of a good time.

Ok...so...I simply need to address the book cover. Sigh! Take one look...Are you done? Seriously, take a look. Horrible, isn't it? I can usually overlook a not-so-great cover; however, when I read the descriptions of what the hero and heroine look like I was like "what the heck?". They look absolutely **NOTHING** like the two people on the cover. I sure wish this book had a different cover because, for me, this cover does not represent how truly great this book actually was. Ok, rant about the cover done.

Moving on....

Delilah "Doll" Reklinger is the princess of the Haywood's Hellions MC. Her father, Roundman, is the President of the club and Doll cannot imagine a life without the Hellions in it. The biker world is all she has ever known and she is content living in this world. She understands the rules and accepts them. Doll hopes that one day a man will come along that will make her his everything. Only then would her over-protective father possibly be willing to consider the man worthy enough for his precious daughter. Feeling safe and protected surrounded by her MC family, Doll never imagines that things would change to shatter that bubble of security. When danger comes knocking on Doll's door, things change for the vivacious princess in more ways than one.

Talon “Tripp” Crews lives for his carefree lifestyle and biker ways. As President of the Piedmont chapter located in Catawba, North, Carolina to the Haywood’s Hellions MC, Tripp does not lead the sort of existence that is conducive to having an old lady or a family. He is content to form no attachments beyond his biker family, live only for his club and to scratch the itch whenever necessary. Enter one beautiful blonde spit-fire and all of a sudden things are changing for Tripp.

The Haywood’s Hellions MC are normally in completely control of with who and what they involve themselves in. When some business dealings take a turn for the worse and it becomes blaringly apparent that Doll may be in danger, Roundman decides to send her and her best friend on a ride across the country with the President and Vice President of one of the charter clubs belonging to the Haywood’s Hellions MC to keep her away from the danger.

Tripp has been ordered to take Doll across the country for her protection. One ride. He can do this. Despite his overwhelming attraction towards the sexy woman, he understands that she is untouchable unless he wants his dick cut off. Both Tripp and Doll are undeniably attracted to one another. The more time they spend in each other’s presence, the harder it becomes to ignore the sizzle between them. Can one ride change it all and set both their lives on different paths?

Fate brought me to this man, and I don’t think I can ever let him go.

“You’re everything, Doll. You’re the good in me. When the days get long, you’ll be what pulls me through. I’m gonna let you go, but I’m always gonna carry you with me.”

Tripp’s and Doll’s road to a happy forever is a bumpy one. Tripp is convinced that he could never give someone like Doll all that she needs to be happy and he is unwilling to compromise his lifestyle. I truly loved Doll’s sass and strength. While she fell hard for the sexy biker, she unwilling to be the only one to take a chance on love. She knows what she wants and if Tripp doesn’t get his head out of his ass, then she will find it elsewhere. We are not given too much regarding the secondary storyline about the dangers the club faces, but I was enthralled enough with all that was going on between Tripp and Doll to kind of set that aside.

All in all, *One Ride* was a great start to what promises to be a very entertaining new biker series. The writing is solid and Chelsea Camaron does a stellar job setting up this biker world and all the secondary characters/stories. I am very much looking forward to the next book about Sass and Tank. I am thinking that one is going to be one rough ride.

Natalie The Biblioholic says

This book had pretty much all of the necessary elements to make it a great MC Club romance. There was the Brotherhood, the danger component, a long ride, hot chemistry, and the slow build of love between the main characters. So what didn’t I like? The H had sex with another woman after already having had sex with the h. Nope. I couldn’t get past it. It niggled at the back of my mind for the rest of the story. So as much as I liked Tripp (and really couldn’t care for Doll AT ALL), it was the principal of the matter and it soured my outlook

a little bit. Regardless, book one has started this series off to a solid start!

It's embarrassing what a pathetic loser the heroine is. The hero screws around and even IN FRONT of her and yet she's constantly chasing him. Seriously??? She could not be more of a weak willed pathetic female character. They are supposed to have this big attraction/lust/almost love and yet he continues to RUT around with other women being the sleazy dirtbag that he is. All under the usual guise of "not being good enough". Yeah OK. Why are these women always written with NO backbone or self-worth. And always just blithely accepting these losers screwing around on them.

Oh and I love how he gets all self-righteous & angry & says he "doesn't share" when another guy hits on her, and yet it's perfectly ok with him to SCREW another woman in front of her in the hallway no less, and she's supposed to just accept it?

Urghhh! This was NOT the book for me. I like sassy confident female leads with backbone who don't end up with rutting morons.

This was a really good book and I love reading hot biker reads. Delilah 'Doll' Reklinger grew up in the Hellions Motorcycle Club after all her father Roundman is Club President. When troubles come he knows that he needs to protect her so he sends her away. Talon 'Tripp' Crews has been ordered to take Doll on one ride away from the danger while the club handles the threat. She's off limits. His head knows this, but his body can't deny the attraction. She's feisty, fierce, and fearless. He's never been one to be tied down. He lives for the next ride. I loved both of these characters Doll was strong and not a push over. Tripp is a hot sexy biker who loves his life he joined the club with his cousin and best friend Rex they run a transport company and they move stuff for the club and other people. This was a really good read that I liked a lot. This was my first time reading this author this book was well written with no errors in grammar or spelling. This was the first book in a new series to me and I can't wait to read the next book.

I have so much love for Chelsea's writing style. I have loved every one of her books to date, and this one might actually be my favorite.

We meet a MC princess by the name of Delilah "Doll" Reklinger. Like many MC princesses she is not allowed to date or sleep with any members, or men in general. Her dad, Roundman, is a bit over protective and tends to be a bit of a hot head. When Doll is threatened we get to see how hot headed Roundman is. He sends her away with Talon "Tripp" Crews.

Tripp is a fantastic character. He is full of self loathing and yet he accepts who and what he is. He loves the MC lifestyle and happily goes about what needs to be done. But when Roundman insists that he take his feisty, pain in the ass, hot as hell, daughter on a road trip for her safety, Tripp brisks a bit. She is too much of a temptation for the devout MC member.

We see as these two navigate how to work around their attraction for one another. We also see them develop into a real relationship without even realizing or intending it to happen. There are moments in this book that are so insanely hot that I thought I was going to need a cold shower. And moments of heartbreak. I absolutely recommend that you read this book! It is steamy as hell, and I love that Chelsea borrowed characters from other authors work to entwine with her story! It made it feel even more rich!

I give One Ride 4.5 lipsticks!!!

One Ride popped my MC cherry in spectacular fashion. I was never sure that a biker book would be my thing. I'm not opposed to dark stories (I love paranormal), but I am ashamed to admit that I may have bought into the stigma that bikies carry.

Chelsea Cameron made me realise that MC books are enjoyable and man, Tripp made me swoon! What a hunky, protective, but soft hearted guy (my favourite type of bloke). I also like Doll's take-no-shit attitude and how she's not ashamed to show her feelings for Tripp.

I honestly found no fault with this book. I thoroughly enjoyed it. 5 stars.

Kari says

This is the story Delilah "Doll" Reklinger, daughter of the Haywood's Hellions MC President, and Talon "Tripp" Crews. Doll's life is in danger so she is sent on a cross-country trip with Tripp, who is President of the chapter in Catawba. They need to hide while club members take care of business and make it safe for them to go back home to North Carolina.

The ride on the back of Tripp's bike changes them. Not only do they fall in love but they both realize what

they truly want. Doll is clear about her feelings for Tripp and wants a life with him, she wants to eventually have "little hellions" with him. Tripp is insecure at first, Doll is an MC Princess and he has to tread carefully. He eventually recognizes that Doll is everything to him. The scenes between them are sweet and hot.

The book is actually tamer than I expected, there is no extreme violence (except for one minor scene) or rape. The writing itself was good. The story doesn't explore the problems and businesses of the MC, it focuses more on the relationship between Tripp and Doll. Some things were a bit unclear but I believe they will be better explained in subsequent books. We meet Tripp and Doll's friends, who will have their own stories. The 1st person alternating POV worked great and allowed us to really get to know both Tripp and Doll. This book ends in a HEA, no cliffie.
