**Murder at Le Bijou Bistro** Dianne Harman

**When the wrong person's murdered, just who was the intended victim of death by chocolate cake?**

Was it the retired mobster, Al De Duco? Could it have been an act of jealousy by his ex-girlfriend, Kitten Knight, or an act of revenge by Mario Carlucci, a long-time enemy of his from Al's days with the Mafia in Chicago?

Or was the intended victim Al's wife of two weeks, Cassie, the very popular food critic who writes the Food Spy column for The Seattle Times? But who would want to murder Cassie? Maybe it was Myles Lambert, the food critic she was filling in for at the Times and who was jealous of her success. Then there's the Gourmand's Guide to Good Eats food blogger, Jessica Simmons, who'd always hated Cassie. Or even the owner of Frogities Restaurant, Jules Moreau, who would love to see the bad publicity resulting from a murder at Le Bijou Bistro.

And what about the kidnapping of Briana, Cassie's daughter?

Join Jake and DeeDee as they search for a motive and a murderer!

This is Book 5 in the popular Northwest Cozy Mystery series by USA Today and Amazon Chart #1 Bestselling Author.

### **Vicky says**

In this series DeeDee's good friend Cassie marries Al, a character from a previous book. DeeDee and her beau, Jake meet up for a BD dinner with Cassie and Al. A murder occurs at the restaurant they're dining at. Coincidentally, Cassie who part times as a food critic, was suppose to dining at that particular table. DeeDee, Jake, Cassie, Al and a new character Luke all get caught up in solving this murder. You know who the suspects are and one by one the suspects are dropped. There is suspense; in this book there is actually some shooting and a kidnapping too. They do solve the murder and all ends happily. I enjoy the characters and can't wait for the next book. Of course, there are yummy recipes at the end of the book!

Another stellar whodunit by Dianne Harman. Dee Dee and Jake are dining with Cassie and Al when the unthinkable happens--yes murder! Realizing that the woman died at the table meant for them makes Cassie and Al think they were the real targets. The suspect list is long of people who might have reason to rub either the food critic or the former mobster out. Can Jake and Dee Dee solve the crime before the killer hits their target? Great suspenseful writing. Love Al as a regular character in the series. Kudos to Miss Harman for fantastic storytelling.

#### **Another awesome book**

I just can't get enough of Dianne Harman, I love all the characters in her books but I especially like the addition to Al to these stories, it really gives it a twist. Even though I'm a cat person, I do love dogs and I like the idea of dogs in every book, Baltimore has become a main character himself. Again great book and I will be patiently waiting for more

Excellent story! I couldn't put it down. When I first started, I only had a few minutes but didn't realize how hard I would be sucked into the book! I wound up reading it more than doing work I needed to do or sleeping. This is the first book I've read by this author and won't be the last. I just loved the characters. Al was my favorite. I'd like to see a series done about his time in the mafia. Hint hint, Ms Harman. At first, I thought oh goody, we get to see who is doing the killing so this will be a book about how the killer is caught. Then with each chapter, there were more people to suspect. I loved how the author set this all up. It was so organized. I think it's the best put together mystery I've ever read. I was dying to peek at the ending to see who was guilty but I didn't. All the mention of food has probably caused me to gain weight from getting up to eat.

"A Very Entertaining Cozy Mystery"

Who would dare use chocolate cake to murder someone? Was it done out of jealousy or revenge? Why would someone want to murder newly married Cassie, a very popular restaurant critic? Oh, and there is more ... why is Cassie's daughter, Briana, kidnapped? Lot's of mysteries to be solved here, so you best set some treats beside you as your scurry through this intoxicating cozy mystery. I loved it!

## **Michele says**

I loved Al De Duco in the last of the Northwest series--a criminal with a heart of gold! He has given up his life of crime and married Cassie who he had fallen head over heels in love with at first sight. They were going out with their friends Jake and DeeDee to an exclusive French Restaurant. They were both excited to announce their marriage. Because Cassie wrote a food column the restaurant reserved Table 12 for them. At the last minute Al decided he did not want to sit at that table so they were seated where he could see the door in a more secluded corner.

Next thing they know is a woman seated at the table they were supposed to sit at is choking--then immediately dies--just after being served and eating a piece of chocolate cake. It did not go unnoticed by Al that THEY should have been seated at that table!

Who was that chocolate cake meant for? Maybe one of A's old advisory's from his Mafia days--or a woman he used to know--or was it Cassie? Lot's of suspects--and why was Cassie's daughter kidnapped?

Can they find and save Brianna (Cassie's daughter)? Who is really behind all of this and why?

I really LOVED what Al did at the end--and so will you!!

### **Another great installment**

These books are fun to read. I'm beginning to be able to figure out who the killer is before the end. But I still love the characters and the way they come to the solution.

### **I don't give a lot of five star reviews**

I don't give a lot of five star reviews, but this mystery story is definitely better plotted and better written than a lot of cozy mysteries that I have given four star reviews to. I love this author and this series, and this author has always been able to turn out well plotted and well crafted stories that keep getting better the more she writes.

I love the full cast of characters in this story, with all the connections between them. It highlights the odd twists and turns that real life sometimes takes. Some of them you probably will not see coming.

#### **Murder at Le Bijou Bistro**

Interesting fast read centered around Seattle, nearby islands and a cyanide poisoning. (Strange combination). Tons of characters woven into this setting. Kept reading if only to see how the author would bring them all together! Quick read. Will look for others by same author set in Pacific NW.

I enjoyed this story of adventure and suspense, the author has done a great job of putting her characters together. The mystery is keeping you guessing while the romance and humor keep you interested in the tale.
