"The entire time I talked he ate. Seemingly unfazed while I was on the verge of shattering from shame, a broken spirit and crushed pride. I thought it hurt so much because I loved Rodney, but the past six months have shown me that it wasn't my heart that took the biggest beating. It was my pride." - Parker Graham

It took six months for the ice around Parker's heart to freeze. Can Kane warm her up to his love in one week? Or will he be yet another source of pain that causes the ice and disappointment that can only be felt because of love to remain?

Good Short

This was a good read for taking my mind off of current events. It starts quickly, and the story keeps flowing. The complex relationships and hard shifts in the narrative kept my interest while the writing itself kept me guessing. What I mean is that one didn't match the other. The main characters; Parker, Marcus, and Kane are all established professionals, well into adulthood. However, the vernacular assigned to them is that one would expect from a younger or "street" group. It took away from the story, for me. Otherwise, I enjoyed the story and would read more from this author.

??? I need to find me a Kane

The characters were developed perfectly. Listening to Parker describe Kane had me fanning myself. The only thing I disliked about the book is that I wish it was longer. 5 stars again. I highly recommend this book.

WYDWM

Loved this story like all the rest of your books. I was so happy for Parker but you could've let Leesha tag Samantha. Lol. Kane was alright but I'm glad he finally told her the truth. Can't wait for the next book.

I truly enjoy B. Love's novellas.. The initial setting was quite interesting as were the characters. Kane & Parker's meetings were unforgettable. Good dialogue between characters. Great story

Love

This was a very short novella but it was so good! Kane actions really surprised me I didn't see that coming at all but Parker got her love in the end

This title...

only makes you wonder what has happened. Parker has a lot of her past that she is holding on to. So much so that Kane is able to see it on her and change it. That in itself, not really knowing her, had me with palpitations. I could beat Rodney, Marcus & his insecure wife in their cracks with barbwire. How could Marcus be soooo blind to his wifes intentions? You knew it had to be something for him to appear suddenly out if no where. I loved the way Kane wouldn't let Parker push him away when she was upset but made her face her issues. I would live to know what happens with them, if she gets a chance to lay hands on Marcus wife and how their friendship suffers, if any, from his marriage.

Yassss loved this!!

This book was definitely written differently, but was still an amazing read! Kane was a great man despite his flaws. Parker had been through so much and didn't know how to accept love from the right person. She held so much pain. This book shows that you never really know a person until they let you truly see the real them. A love that was meant to be will be regardless of the road traveled. B. Love has done it again, but I didn't expect anything different.

Way too short

Good, but could have been better. Left me with more questions than answers. Since we meet Marcus and Samantha, I would have loved to have known more about them and the friendship between Marcus and Parker. Hearing Kane's POV would have been nice.

Still a B. Love fan, but this one fell short for me.

But this cover? Straight???

3.25 stars!

I liked this novella for the most part the plot was intriguing, and I like the way the MC met. I thought it was gonna be a quick steamy read but it turn out to be more. My favorite part was when the the characters meet the way they would check each other was hot. But towards the end the pull/push lost me because it affected their connection. I also felt that the end was rushed and there was an issue that didn't get resolved. Who knows maybe the author is going to continue with the story at least I hope **so. ♥?**

WOWWWWWWWWWW.

That's basically it, that's my review. I'm in tears right now I love this book so much. WOW. And the fact that this is a novella and yet the story is fully developed, packed with emotions, and so satisfying???

Amazing.

As I take the biggest gulp of water--to cool my jets--I have to say B.Love--she did that!

At just 65 pages, Love, managed to do what a lot of authors cannot accomplish in thrice as many pages.

The first page was like a punch to the jugular.

"This was my first time ever seeing him on the train."

"He had the type of looks like that made you rethink life choices..."

"Finally. Shiny, honey brown eyes stared at me as he licked his lips..."

The author wasted no time attempting to entice the reader with the pending romance--and I, for one, was not disappointed.

Parker doesn't know Kane. He's a man that just popped up on her train ride one day--enticing her in every way possible without uttering a single word--at least not initially.

Their encounter, their love was like a wrecking ball--fast moving, powerful, out to wreck anything in its path.

What I really loved about this book was its ability to be both passionate--and playful in a space where there wouldn't normally be room for development--at least not fully.

But its passion is what really got me, because it evoked the strongest of emotions out of me. I damn near fainted when Kane, got all smooth, velvet chocolate on me.

"What do you know about coming, Parker?"

Why did he have to say my name like that?

Look at me like that?

Feel like that?

"I know I'm a whole wave," I warned hoping that would trip him up long enough for me to come to my senses and leave, but he wasted no time replying with...

"Then let me drown."

Ya'll, come on?

Her words were succinct and powerful. She used each page, and each space for a purpose--and I am thoroughly impressed and moved.

Like, where has this author been all my life?

Her words turned me into noodles, a puddle, mush.

"You might not believe me, but when we locked eyes for the first time on the train I heard the Spirit of God whisper into my heart that you were the one for me. That's why I'll never press you to give me a chance. What's for me will he mine when it's time...including you."

"You don't know how long I've waited to make art of you..." "Can I paint you?"

He meant that literally, and that little scene from Colleen Hoover's book wishes it could be this moment.

My incoherence is showing, as I've reverted to using quotes to explain my feelings. I am honestly surprised and again impressed by the quality of such a short novel.

The characters came together like a tsunami--but did not lack strength--or dimension.

Kane, was just that guy--and Parker's resistance did nothing to deter me--or to take away from my enjoyment of this book.

There was only Kane and Parker--and that was honestly, all I needed.

Final thoughts:Solid read, passionate romance, cataclysmic sex--true, raw evoking of emotions--down right good reading!

Between this, and In Due Time, both are battling for my favorite romance of the year, favorite book of the year, even.

B. Love--wherever you are. Sis, you did that--I implore you to do it again and again.

This was a short read and I felt it could have been longer. There were things left floating in the wind that needed to be addressed.

I liked the story's premise, but once it progressed I felt a disconnect. I never really bonded with Parker, the main character. This is an issue for me as I like to put myself in the mc's place when reading.

I also felt there was something off with Kane, like he knew her before they were interacting. I was like where did he come from? She rides this train daily and out of nowhere she starts seeing him every day. Naw.

When the truth about Kane is revealed, I don't think I could have forgiven him. Parker had been hurt so badly

that it should have taken more than I'm sorry to have her running back to him. I could never trust him again.

I would have loved if this had been a full-length book! It certainly packed a punch for such a short story.
