Kevin Findley says

It was better than OK, but the macguffin in this story really stretched believability. Chet Morton is pretty much only comic relief in it this time as well.

Ethan Hulbert says

Pretty weird, and not in a good way. Not as good as most of the rest of the Hardy Boys books.

Bill says

Note to scientists everywhere... if you invent a quick-acting demolition device / death ray and name it The Annihilator, maybe don't be so surprised when a master criminal tries to use it for nefarious purposes. There aren't always going to be teen amateur sleuths and their world famous private detective father around to save the day. Just sayin'.

Jerry says

Not up to standard for this series.

Eva Inzu says

♥ it

Frank says

One of the later Hardy Boys.

Greg says

ARRRRRRRRR SCARY DRAGONS!!!!!!!!!!!!!!
