This book is really good! Freddy Lupin is so excited to be able to have his first transwolfation but instead of transwolfing he transdogs into a poodle. It's funny! It's a genius idea to make him be a poodle and a wolf. Then his mean cousins Chariot and Hariot dye him pink and shave some of his fur off.

I like this book because his parents were able to survive the silver bullet shot by Dr. Cripp, so it wasn't too sad. My favorite part is when Freddy meets Batty because it's an interesting way of meeting. Harriet and Chariot were very very mean! I feel sorry for Pam when her shop was destroyed.

I recommend this book for readers that don't get super scared super easily. It's not extremely scary, but had some creep up the spine parts. And for readers who like funny books/comedy.

This was a cute book. It had its good points and its bad points, but what book doesn't? It started out a little slow with a lot of background on the author's take on werewolves, so the first three chapters I had the trudge through. The overuse of the word "foolster" seriously got on my nerves by about the 15th page and bathroom humor was way overdone. However, once the plot started it moved pretty quickly and held my attention. There was also a very excellent twist towards the end that I really loved. The end was happy, with a little room for a sequel. I'm undecided if I will read it if it does come out. In conclusion, this is the perfect book for tween boys. They will love the bathroom jokes as well as the main character's cocky attitude. And, dare I say it, they will like his "foolster" shenanigans!

I give 100% Wolf, by Jayne Lyons, a 9 from a scale of 1 -10. The reason why I rated the book a 9 is because the book had a good plot. In the plot Freddy was forced to save his werewolf family from Dr.Cripp a dangerous man that kills werewolves. Not only did he have to save his family , but he had to save himself because he turned into a poodle instead of a werewolf. After saving his family, his dad saved him from being a poodle forever. My favorite part of the book is when Freddy finally turned into a werewolf because he finally got his chance at being a werewolf. In my opinion 100% wolf was a very good book and very interesting to me.

Freddy is a werewolf from a long, proud line of werewolves. As he approaches the night of his first transwolfation he is very excited. Now that his father has been killed with a silver bullet by a werewolf hunter and his cousins are not able to become werewolves, Freddy stands to inherit the power of the werepack one day. Unfortunately on his big night, before the entire pack, Freddy transforms into a small poodle. Oh the shame. Very funny, action packed, boy book.

This book is just amazing, hilarious, and it sure made me get mad at the the putrid pair so much(the putrid pair is Freddy's snotty, evil, wicked, and dumb cousins). In this book felt extremely bad for Freddy since he brought disgrace to his family's name since he turned into a poodle, instead of a wolf. He was even turned pink the putrid pair. But at the end everything was better for Freddy obviously.

This book would have been better if the author made Freddy the strongest werewolf out of them all. One of my most favorite parts was when the putrid pair got bit in the butt by Freddy when he was a poodle. I found that hilarious because that didn't even lead Freddy into trouble, it lead the putrid pair into great trouble. I recommend this book to you if you love books that are hilarious with happy endings. This book is 100% AMAZING.

At first I wondered why I downloaded this book, then I remembered the line about a boy who was suppose to turn into a wolf, turns into a --. Well you will have to read to find out what he turns into.

There are a lot of twist and turns in this book that are unexpected, and it keeps you wondering how "dripsy-whimpsy" is going to get out of them, but he is the PLAN MASTER.

I would read this book again and recommend it for a really good laugh.

This book ended up being a lot of fun. I was hesitant at first, thinking it's not quite as smart as I like my silly books to be, but it won me over. I think 3-5 graders will really enjoy it.

Freddy comes from a long line of proud werewolves, and he's looking to make Uncle Lord Hotspur--the Grand Growler of the werewolves--and the rest of his family proud. But during his first Transwolfation on his 125th moon (ten years and one month), instead of a ferocious wolf he turns into a poodle. In the outrage that follows, his evil cousins trap him in his transformed state with a moonstone and have him died pink and given a froo-froo haircut. But Freddy escapes in time to see that Dr. Cripp, infamous werewolf hunter and the man who killed his dad, is in town. What will Freddy do?

Beth says

I read this aloud to Earl and we both liked it. It's actually below his reading level, but it was still a fun book. Who doesn't love a pink werewolf???

Kristi says

Freddy comes from a long line of very distinguished werewolves. So it's a shock when, for his very first coming-of-age wolf transformation, he transforms into a fluffy, droopy eared poodle instead of a majestic wolf in front of the whole pack. Imprisoned in this form by his two nasty cousins with a moonstone and then dyed pink and shaved through the machinations of the two same cousins, Freddy finds himself lost on the streets of town. This is a really bad time for this to happen, too. Because the werewolf hunter that killed his father is in town and he's got a moonstone of his own. If he gets his hands on the book of names in the castle where Freddy grew up, every secret werewolf in the country will be at risk. Freddy has to save the day, even if he's small, pink, cute and fluffy.

Now, Freddy is really silly. He's very vain and sulks, pouts, brags and whines a lot. I didn't really like him very much as a character. I should have been able to sympathize with him more, but I really didn't. This book might be okay for a select group of werewolf loving boys, but most people will find it insipid. Also (spoiler) the fact that Freddy turns into a poodle is because his mother was bit by a poodle when she was pregnant with him? SO RIDICULOUS. But it is handy that while in dog form, he's able to understand wolf, dog and human speech.

Kelsy says

Summary: Freddy is a werewolf from a noble line of werewolves. He can't wait for the full moon, so he can have his first transwolfition in to a wolf and show his cruel uncle and twain cousins that he 100% WOLF. On the first full Freddy transform he turns in to... A Poodle? Bring shame to his family and the werewolf council. Freddy is dognapped by his cousins, later escape. Freddy must convince himself and others that he a brave wolf despite that he a pink poodle.

Thoughts on the book: No matter how cruel Freddy's uncle is, Freddy is determining to stop Dr. Cripp from harming any werewolf. There is some boy humor that some may or may not like.

This is not bad for a first book. The writing does need some improvements and the character do hold up but, are lacking in detail. The story does have a good message: It doesn't matter what you look like on the outside in what on the inside that matters.

This book about werewolves is not dark it a nice adventure and a fun read for kids. A werewolf that turn in to a pink poodle make this a cute story.

100% wolf by Jayne Lyons Shows Freddy wanted to become a wolf but when the time came of the full moon Freddy became a poodle. His cousins put on a charm necklace on Freddy when he was still a poodle. The charm necklace, wont let him turn back into a boy. Freddy run away and becomes friends with a dog out of

the castle area and into the town. Freddy is trying to get back to the castle because there is a wolf hunter in the town trying to hunt out is wolf family. he and his dog friend got put in the pound.

Do you know when everything goes bad, while that what happen in this book. I really like this book 100% wolf, because everything when downhill for Freddy than it got better at the end of the book. This had everything that I like supernatural,suspense, and it was fun.You just want to keep reading after the first chapter. The most funniest moment, is when Freddy had his shot of becoming a wolf, he became a poodle. I recommend this book to people who like a fun and supernatural book.

Dariocuberoalbisa says

This was about a boy rejected by his uncle. And his cousins are mean. And his father is dead. He was supposed to be an amazing wolf but he became a poodle. Because of his cousin's doing, he was a stray. A werewolf hunter realized he was wolf. He went to the pound with a friend. They escaped but his father was in a prison. His father tells him about how his uncle trapped him. So they rescued him too. They defeat the werewolf hunter. Reveal the secret of his uncle and even as a poodle he is going to lead a hunt they do every full moon. And he turns into a wolf or a poodle every month.

** this just came in to the library. a kid who turns into a poodle instead of a werewolf, LOL. I have to read this! **

Mari says

This book has a GREAT hook for booktalking. The main character is a werewolf who has not yet changed, since werewolves don't transform for the first time until they are ten years and a month (121 months). Freddy is hoping to be a noble, strong, and brave werewolf like his father was. . .but instead, he turns into a poodle. To make matters worse, his awful cousins trap him in his canine form, then take him to be groomed and have his fur dyed pink. After escaping, Freddy uncovers a plot to destroy all of his werewolf kin. Can he figure out how to save them? The pacing and humor will appeal to reluctant readers.

Eileen says

100% fun! I like this interpretation of the werewolf legends ... there are specific rules and customs, and poor Freddy doesn't quite fit in--but he wants to! He wants to be a fierce hero like his father was (before he was shot with a silver bullet by a dangerous werewolf hunter).

Unfortunately, like everything else in Freddy's life, his first transwolfation doesn't go the way he hopes. To make matters worse, his awful cousins trap him and make him look even more ridiculous!

It's going to take the help of some new friends Freddy's wolfpack definitely won't approve of and a whole lot of bravery and plans to set things right. But Freddy is 100% wolf ... even if he doesn't quite look it!
